A Chorus of Cranes Paul A. Johnsgard,2020-01-27 A look at the natural history, biology, and conservation issues faced by cranes in North America, featuring beautiful photos. Accompanied by the stunning photography of Thomas D. Mangelsen, A Chorus of Cranes details the natural history, biology, and conservation issues surrounding the abundant sandhill crane and the endangered whooping crane in North America. Author Paul A. Johnsgard, one of the leading authorities on cranes and crane biology, describes the fascinating social behaviors, beautiful natural habitats, and grueling seasonal migrations that have stirred the hearts of people as far back as medieval times and garnered the crane a place in folklore and mythology across continents. Johnsgard has substantially updated and significantly expanded his 1991 work Crane Music, incorporating new information on the biology and status of these two North American cranes and providing abbreviated summaries on the other thirteen crane species of the world. The stories of these birds and their contrasting fates provide an instructive and moving history of bird conservation in North America. A Chorus of Cranes is a gorgeous and invaluable resource for crane enthusiasts, birders, natural historians, and conservationists alike. The University Press of Colorado gratefully acknowledges the generous support of the Iain Nicholson Audubon Center at Rowe Sanctuary, Audubon Nebraska, Ron and Judy Parks, Wagon Tongue Creek Farm, and the Trull Foundation toward the publication of this book. “In this glorious book, Paul Johnsgard and Tom Mangelsen have captured the very essence of these ancient birds—their beauty, grace of movement, and fascinating lives. It is a must for crane lovers, birders, and all who love the natural world.” —Jane Goodall “Johnsgard is the world’s leading synthesizer of our knowledge of birds and the presenter of such varied and complex information to both professional and lay audiences. He has made an enormous contribution to our planet . . . In his latest book, A Chorus of Cranes, the splendor of Johnsgard’s lyrical style is matched by incomparable images from one of the world’s best-known photographers, and fellow Nebraskan, Tom Mangelsen.” —George Archibald, Co-Founder and Senior Conservationist, International Crane Foundation

Coming Home Wendy Kline,2019-01-16 By the mid-twentieth century, two things appeared destined for extinction in the United States: the practice of home birth and the profession of midwifery. In 1940, close to half of all U.S. births took place in the hospital, and the trend was increasing. By 1970, the percentage of hospital births reached an all-time high of 99.4%, and the obstetrician, rather than the midwife, assumed nearly complete control over what had become an entirely medicalized procedure. Then, seemingly out of nowhere, an explosion of new alternative organizations, publications, and conferences cropped up, documenting a very different demographic trend; by 1977, the percentage of out-of-hospital births had more than doubled. Home birth was making a comeback, but why? The executive director of the American College of Obstetricians and Gynecologists publicly noted in 1977 the rising tide of demand for home delivery, describing it as an anti-intellectual-anti-science revolt. A quiet revolution spread across cities and suburbs, towns and farms, as individuals challenged legal, institutional and medical protocols by choosing unlicensed midwives to catch their babies at home. Coming Home analyzes the ideas, values, and experiences that led to this quiet revolution and its long-term consequences for our understanding of birth, medicine, and culture. Who were these self-proclaimed midwives and how did they learn their trade? Because the United States had virtually eliminated midwifery in most areas by the mid-twentieth century, most of them had little knowledge of or exposure to the historic practice, drawing primarily on obstetrical texts, trial and error, and sometimes instruction from aging home birth physicians to learn their craft. While their constituents were primarily drawn from the educated white middle class, their model of care (which ultimately drew on the wisdom and practice of a more diverse, global pool of midwives) had the potential to transform birth practices for all women, both in and out of the hospital.

Crossing the Aisle Keel Hunt,2018-11-06 The latter third of the twentieth century was a time of fundamental political transition across the South as increasing numbers of voters began to choose Republican candidates over Democrats. Yet in the 1980s and '90s, reform-focused policymaking—from better schools to improved highways and health care—flourished in Tennessee. This was the work of moderate leaders from both parties who had a capacity to work together across the aisle. The Tennessee story, as the Pulitzer Prize-winning author Jon Meacham observes in his foreword to this book, offers striking examples of bipartisan cooperation on many policy fronts—and a mode of governing that provides lessons for America in this frustrating era of partisan stalemate. People with Animals Lee Broderick,2016-03-01 People with Animals emphasizes the interdependence of people and animals in society, and contributors examine the variety of forms and time-depth that these relations can take. The types of relationship studied include the importance of manure to farming societies, dogs as livestock guardians, seasonality in pastoralist societies, butchery, symbolism and food. Examples are drawn from the Pleistocene to the present day and from the Altai Mountains, Ethiopia, Iraq, Italy, Mongolia and North America. The 11 papers work from the basis that animals are an integral part of society and that past society is the object of most archaeological inquiry. Discussion papers explore this topic and use the case-studies presented in other contributions to suggest the importance of ethnozoarchaeology not just to archaeology but also to anthrozoology. A further contribution to archaeological theory is made by an argument for the validity of ethnozoarchaeology derived models to Neanderthals. The book makes a compelling case for the importance of human-animal relations in the archaeological record and demonstrates why the information contained in this record is of significance to specialists in other disciplines.

Proud Heritage [3 volumes] Chuck Stewart,2014-12-16 This groundbreaking three-volume reference traces the roots and development of lesbian, gay, bisexual, and transgender (LGBT) rights and issues in the United States from the pre-colonial period to the present day. With the social, religious, and political stigmas attached to alternative lifestyles throughout history, most homosexuals, bisexuals, and transgender people lived covertly for much of, if not all of, their lives. Likewise, the narrative of our country excludes the contributions, struggles, and historical achievements of this group. This revealing, chronologically arranged reference work uncovers the rich story of the LGBT community in the United States and discusses the politics, culture, and issues affecting it since the early 17th century. Author Chuck Stewart traces the evolution of LGBT issues as part of our nation's shared cultural past and modern-day experience. Volume 1 focuses on the origins of the movement with the founding of Jamestown in 1607 through the 1970s and the beginning of gay rights activism in the United States. Volume 2 spans the 1980s and the AIDs pandemic through the present-day issues of marriage equality. Volume 3 gives a concise review of this society in each of the 50 states, the District of Columbia, and Puerto Rico.

Why White Liberals Fail Anthony J. Badger,2022-06-14 Anthony Badger explains why liberal campaigns for race-neutral economic policies failed to win over white Southerners. When federal programs did not deliver the economic benefits that white Southerners expected, the appeal of biracial politics was supplanted by the values-based lure of conservative Republicans.

A Sense of Justice Keel Hunt,2023-01-17 To know the story of the life and times of Judge Gilbert Merritt is to understand modern U.S. politics of the mid to late 20th century—how it came to be, and how it worked—particularly in the American South. Judge Gilbert Merritt and his circle of young lawyers and journalists in Nashville were among the South’s earliest Kennedy Democrats in the late 1950s. Their brash political strivings, though not always victorious at the polls, affected the shape of many things, including the rise of modern Nashville. As a young legal scholar in his twenties, Merritt was one of the nation’s youngest U.S. Attorneys (appointed by President Johnson); candidate for Congress; opponent of the death penalty; President Carter’s nominee for the United States Court of Appeals for the Sixth Circuit; and almost a Justice of the Supreme Court of the United States. This social biography is a graduate course in Southern political history, and how that history is much more than campaigns and elections. It depicts a much deeper weave of the power of friendship and loyalty, the influence of history upon individuals and generations, and of how communities of interest formed and evolved over time in our nation—and of how it is all connected.

The Cavalry of the Army of the Cumberland Dennis W. Belcher,2016-04-25 During its two-year history, the cavalry of the Army of the Cumberland fought the Confederates in some of the most important actions of the Civil War, including Stones River, Chickamauga, the Tullahoma Campaign, the pursuit of Joseph Wheeler in October 1863 and the East Tennessee Campaign. They battled with legendary Confederate cavalry units commanded by Nathan Bedford Forrest, John Hunt Morgan, Wheeler and others. By October 1864, the cavalry grew from eight regiments to four divisions--composed of units from Pennsylvania, Michigan, Wisconsin, Ohio, Indiana, Iowa, Kentucky and Tennessee--before participating in Sherman's Atlanta Campaign, where the Union cavalry suffered 30 percent casualties. This history of the Army of the Cumberland's cavalry units analyzes their success and failures and re-evaluates their alleged poor service during the Atlanta Campaign.

Houses for a New World Barbara Miller Lane,2022-07-12 The fascinating history of the twentieth century's most successful experiment in mass housing While the work of Frank Lloyd Wright, Richard Neutra, and their contemporaries frequently influences our ideas about house design at the midcentury, most Americans during this period lived in homes built by little-known builders who also served as developers of the communities. Often dismissed as little boxes, made of ticky-tacky, the tract houses of America's postwar suburbs represent the twentieth century’s most successful experiment in mass housing. Houses for a New World is the first comprehensive history of this uniquely American form of domestic architecture and urbanism. Between 1945 and 1965, more than thirteen million houses—most of them in new ranch and split-level styles—were constructed on large expanses of land outside city centers, providing homes for the country’s rapidly expanding population. Focusing on twelve developments in the suburbs of Boston, Philadelphia, Chicago, and Los Angeles, Barbara Miller Lane tells the story of the collaborations between builders and buyers, showing how both wanted houses and communities that espoused a modern way of life—informal, democratic, multiethnic, and devoted to improving the lives of their children. The resulting houses differed dramatically from both the European International Style and older forms of American domestic architecture. Based on a decade of original research, and accompanied by hundreds of historical images, plans, and maps, this book presents an entirely new interpretation of the American suburb. The result is a fascinating history of houses and developments that continue to shape how tens of millions of Americans live. Featured housing developments in Houses for a New World: Boston area: Governor Francis Farms (Warwick, RI) Wethersfield (Natick, MA) Brookfield (Brockton, MA) Chicago area: Greenview Estates (Arlington Heights, IL) Elk Grove Village Rolling Meadows Weathersfield at Schaumburg Los Angeles and Orange County area: Cinderella Homes (Anaheim, CA) Panorama City (Los Angeles) Rossmoor (Los Alamitos, CA) Philadelphia area: Lawrence Park (Broomall, PA) Rose Tree Woods (Broomall, PA)
