

Whats Your Major

Peterson's

The University Student's Concise Guide on How to Major in Living Your Life Timothy A. Storlie, Ph.d.,2012-03-01 What's your major? You'll probably be asked that question many times during your college career. It's a decent question. It's an abbreviated version of "what is your major area of interest?" Another version of this question is "what are you most interested in studying and learning?" Ideally, if people were asked "what's your major?" their answer would reveal something about what they are interested in—a field of study they feel deeply attracted to—something that expresses who they are as a person. My hope is that by the time you complete this short book, you will have identified your true major—your life purpose.

How to Choose Your Major Mary E. Ghilani,2017-07-07 Guide students through the career decision-making process as it pertains to college choices with this manual that helps students identify interest, skills, and values; conduct career research; and prepare for a profession after graduation. Entering the workforce after college can be scary to say the least, especially if a graduate is unprepared or ill-equipped to seek out an appropriate career path or job opportunity. This practical manual dispenses invaluable tips, strategies, and advice to students preparing for the job market by guiding choices impacting academic courses, fields of study, and future marketability. Author Mary E. Ghilani wisely describes how college majors relate to employment and introduces the eight Career Ready competencies sought by employers in new graduates. Written by a 25-year veteran in the field of career counseling, this guidebook helps students undecided about their future navigate the intimidating journey from college to career readiness. Content explores the best strategies and tips for choosing a career, ways to overcome common career indecisiveness, suggestions for careers based on personality type, and the latest employment projections and salary figures. Chapters for students with atypical circumstances—such as older

adults, veterans, those with criminal records, and those with special needs—examine the unique paths available to them as they define their skills and launch their careers after graduation.

You Majored in What? Katharine Brooks, EdD, 2010-03-30 Fully revised and updated in 2017, the revolutionary career guide for a new generation of job-seekers, from one of the U.S.'s top career counselors “So what are you going to do with your major?” It’s an innocent question that can haunt students from high school to graduate school and beyond. Relax. Your major is just the starting point for designing a meaningful future. In this indispensable guide, Dr. Katharine Brooks shows you a creative, fun, and intelligent way to figure out what you want to do and how to get it—no matter what you studied in college. You will learn to map your experiences for insights into your strengths and passions, design possible lives, and create goals destined to take you wherever you want to go. Using techniques and ideas that have guided thousands of college students to successful careers, Dr. Brooks will teach you to outsmart and outperform your competition, with more Wisdom Builders and an easily applied career development process. No matter what career you aspire to, *You Majored in What?* offers a practical, creative, and successful approach to finding your path to career fulfillment.

Making Your Major Decision Peterson's, 2013-09-30

Choosing a college major is one of the most important decisions students ever make, yet there is often confusion about picking the right discipline. Studies show that nearly two-thirds of all college freshman have not chosen a major, and nearly 60 percent of undergraduates change their major at least once resulting in lost time, money and productivity. To minimize the uncertainty in selecting the right major, Peterson's has partnered with industry leader, CPP the makers of the Myers-Briggs Type Indicator. The MBTI was developed in the 1940s to make Carl Jung's theory of personality type understandable and useful in everyday life. This book will include access to a personality assessment to determine

likes/dislikes and strengths/weaknesses to aid them in making sound decisions. The MBTI assessment, now priced at \$9.95, coupled with the descriptions of more than 800 college majors, including course requirements, related majors, and related careers, will provide students an invaluable resource for making The Major Decision.

Working in Your Major Mary E. Ghilani, 2012-06-26 This guidebook contains what every college graduate needs to know to find a good job in their major, and it provides sound advice on establishing a professional identity, surviving the critical first year on the job, and ensuring marketability in the future. Working in Your Major: How to Find a Job When You Graduate tackles a daunting problem faced by many new grads—successfully finding a job in their area of study after graduation. The book begins by exploring the options available to college graduates and then details effective methods for finding the right job openings; promoting themselves in the job market; acing interviews, both in person and over the phone; and succeeding on the job in their career field. The author highlights the critical factors in every step of the job-hunting process, including searching for openings in your major, using social media, communicating college experience on a resume, understanding what employers are seeking, preparing for employment testing, choosing the right job offer, and thriving in your profession. It provides specific information for job seekers with specific areas of study, enabling new grads to successfully navigate the hiring culture unique to their college major, be it in a technical field or the fine arts.

But Wait... I'm Undecided! A Guide to Finding the Right Major Program for You Elizabeth Schwanke, 2021-07-06 So you've made your college choice and you're ready to start your next adventure - what's your major? Business? Computer Science? Education? Nursing? Psychology? Undecided? Whatever your answer, this guide is just right for you! Did you know, 33% of students who enter their college experience with a declared major end up

changing their mind at least once, while 20-50% of student enter college as a still deciding student?! Use this guide to help you navigate the facts from the fiction when it comes to selecting a college major program and use the enclosed three step process to help you move from deciding to decided.

College Success Amy Baldwin,2020-03

How to Choose a College Major Linda Landis Andrews,2006 Gives guidance on how to discover skills, talents, and interests and match them with an appropriate college major, and provides instruction on how to understand which majors lead to which careers.

Starting Your Career and Earning Money BEFORE You Get Your Degree Horace Batson,2018-05-16 Career books on the market have typically provided students information on how to: select schools and chose a major. They have all stopped far short of teaching students how to actually earn a living in their profession.Batson and Batson, both professors and entrepreneurs, have challenged our conventional wisdom by positing that students can earn money in their career while and before they actually complete their degree.Their book guides students, step-by-step, to success. This book is a GPS empowering students to take charge of their lives to harness their hidden potential to jump start their careers and start earning money all while in school.

Choose Your College Major in a Day Laurence Shatkin,2015-05-15 Written by a leading expert on career information, this book is the ultimate guide to choosing your college major! It's the ideal resource if you need to decide on a college major but don't have a lot of time. Following its proven strategy, you will combine insights about yourself with up-todate facts and reach a decision. The first part will guide you through assessing your personality type, your skills, and your favorite and best high school courses and help you find potential majors that fit your profile. In the second part, college majors are described with a definition, related high school courses, specializations, a list of

common course requirements, a typical career path, and a list of related occupations. All related occupations are described with a definition, annual earnings averages, employment outlook, personality type, top skills, typical entry requirements, and related college majors. Finally, the last part will help you weigh the pluses and minuses of the majors on your list, making a tentative choice, and ultimately testing and confirming that choice.

Your Undergraduate Degree in Psychology Paul I. Hettich, R. Eric Landrum, 2014 Combining empirical data with practical experience, Landrum and Hettich provide essential advice and tools to help psychology students survive and thrive in the workplace.

Turn Your Degree Into a Career Michael Collins, Benjamin Scott, 2003 The graduate of ten years ago started work armed with nothing more than a degree. With over 40 per cent of school leavers studying at higher education, you now need much more to impress a potential employer. Whatever you studied at university, you still have a wide choice of potential careers. The subject of your degree doesn't have to determine your career direction. What is important is how you go about getting that career. Turn your Degree into a Career covers everything you need to turn yourself from graduate to professional. It explores how you can decide upon your ideal career - what careers you might enjoy, what skills you want to use, and where you want to work. It deals with researching your career, and how to supercharge your CV with a year out. All the basics are covered including how to write application forms, CVs and covering/speculative letters that really work. You'll find useful information on preparing for a successful interview, dealing with aptitude tests and assessment centres, notes on pursuing post-graduate qualifications, as well as tips for survival in the world of work. CONTENTS: Part one Before you start applying - making a confident career choice - considering other directions - skills you bring an employer - having the courage to follow your career choice - researching your career choices - test

driving your career - building a cunning plan - how to develop your own brand - supercharging your CV with a year out Part two Applying - the undoubted power of speculative letters - keeping your application form from the bin - don't be afraid of the big bad application forms - a quick guide to creating your CV - last minute tips about sending an application - well done - first interviews - top 20 questions and how to deal with them - on the day of your first interview - dealing with second interviews - preparing for an aptitude test - prozac for job hunters Part three Beyond your first job - planning for the next job or career - final words About the authors Dr Michael Collins runs a course on Personal and Academic Development at the University of East Anglia, offering undergraduates support on careers and job-hunting issues. Benjamin Scott, once a student on Mike Collins' course, is regularly invited to lecture on the PAD course. For over two years he worked for a London advertising agency - a job he owes to the skills taught by Dr Collins. He continues to assist the career center with mentoring and advising undergraduates.

Earn Your Degree Online and Get Good Grades Russell C Kick, 2005-07 Online education continues to enjoy a rapid growth in today's world. Whether you're just beginning the journey into online courses or you're an advanced student, *How to Make Good Grades and Earn Your Degree Online* will help you accomplish your educational goals. Author Russell C. Kick, PhD, brings you over twenty-five years of teaching and mentoring experience in both traditional and online education. He provides real-world advice and counsel on how to succeed in online courses. Dr. Kick serves as your personal mentor and provides valuable and practical tips based on personal experiences and those of his students. Dr. Kick takes you step-by-step through the world of online education. You'll discover how to skillfully manage time between your job and your education. Dr. Kick also introduces you to security techniques to protect your computer from viruses and power outages. Learn the key factors for success in the online course experience,

including how to establish a good relationship with your instructor and how to develop your writing abilities. Take the next step toward your future today!

TOMORROW IS TODAY, A behavior modification methodology, guide, and workbook to manage the job search process Lawrence D. Alter, 1901 This 240-page workbook is a highly effective, no nonsense, self-marketing instrument to facilitate and manage the entire job-search campaign. Contained in its pages are all the tools and information necessary to help your terminated employee win and keep their next job. Whether or not you provide Outplacement support to your separated employees, our workbook would be an excellent tool to augment their job search. It provides a complete resource to help the discharged worker achieve and keep their next position. FINDING A JOB IS HARD WORK. It has been estimated that as many as one out of every three workers attempts to change jobs annually in the United States. Out of a labor force of 153 million, that represents almost 50,000,000 job seekers who are seeking new employment each year. As a result, the job search process is highly competitive at all levels. It can be lengthy, frustrating, prejudicial, and unfair. Older, more traditional job finding techniques have become less productive. The traditional resume no longer has the same impact in generating the all important and often elusive interview. Both the Wall Street Journal and USA TODAY have highlighted the fact that only about 15% of all professionals find a new position through responding to published advertisements or online postings, another 10% through placement agencies or search firms, and only 5% through unsolicited direct mail. Why then, would anyone focus 90% of their time and effort in areas that represent only about 30% of all potential opportunities? It is not uncommon for 200-300 people to respond to help wanted advertisements. Yet seldom do more than 6 to 10 people achieve interviews, and after an often lengthy process, only one person gets the job. Everyone else starts the whole process again. Older Americans, women, and minorities can

often face an even more difficult road due to unspoken, but ever-present biases. There is a better way. *Tomorrow Is Today* dispels the myth that the most qualified candidate always gets the job. It points out that the person who is hired is usually the one who is liked the best. This book can be a major factor in how you differentiate yourself from other candidates when the hiring decision is almost always based upon subjective factors such as the individual's personality style, body language, and manner of being interviewed. It is an invaluable resource in helping you to achieve your next position with added features that assist in effectively managing both career growth and family issues.

Communication Approach in English Through the Internet
Amazat K. Akbarov, 2012-03-15
Communication Approach in English Through the Internet carefully prepares students to read university-level texts. It teaches students the strategies and the vocabulary-building skills to help them grow in confidence and progress to higher levels of linguistic proficiency. The exercises will help students develop their four basic academic skills and express themselves in a mature and appropriate way that is relevant to the context, whether it be a report, conversation or other form of discourse. Each unit plan provides, step-by-step, a variety of lively exercises for brainstorming ideas and planning a structure that can be used directly from the book or as a springboard for innovative Internet resources. The author emphasizes active learning and addresses the needs of EFL students. This is the perfect coursebook for weaving the excitement and usefulness of the Internet into your daily English communication. Features • A skills and strategies sections that teach essential linguistic skills • Tasks that encourage students to interact with the text and practice using internet resources • Activities that take students "beyond the classroom," and can be used for discussion and communication

My College Degree Fast - How To Earn A Real Degree Faster, Easier, And For 75% Less ,

Split Auxiliary Systems Raúl Aranovich, 2007-03-22 The alternation between the auxiliaries BE and HAVE, which this collection examines, is often discussed in connection with generative analyses of split intransitivity. But this book's purpose is to place the phenomenon in a broader context. Well-known facts in the Romance and Germanic language families are extended with data from lesser studied languages and dialects (Romanian, Paduan), and also with experimental and historical data. Moreover, the book goes beyond the usual language families in which the phenomenon has been studied, with the inclusion of two chapters on Chinese and Korean. The theoretical background of the contributors is also broad, ranging from current Generative approaches to Cognitive and Optimality-Theoretical frameworks. Readers interested in the structural, historical, developmental, or experimental aspects of auxiliary selection should profit from this book's comprehensive empirical coverage and from the plurality of contemporary linguistic analyses it contains.

Imola Richard Satterlie, 2006-12-01 Calvin Samuels is a public defender with a passion for sticking by the underdog. His clients are desperate men and women with desperate cases. Like John Rogers. Although Samuels saved him from a life behind bars, he couldn't save his life. Within months of his acquittal, Rogers' body is fished from the Ohio River, two bullet holes in the back of his head. Police speculate his death was the result of a drug deal gone bad. Believing he failed a friend who depended on him, Samuels seeks redemption in the representation of Mark Alexander, accused of the brutal murder of two drug dealers. Needing to believe in his client's innocence, however, Samuels is blind to clues that Alexander is not what, or who, he seems. Until he meets Allison Morris, Alexander's former lover and the prosecution's most damning witness. Could Alexander actually be Rogers' murderer? But when the trial finally reaches its stunning conclusion, Samuels' descent into the maelstrom has only just begun.

Your Business Degree Rosalind McCulloch, Andrea

Reid,2014-08-01 Your Business Degree helps business and commerce students to maximise their chances of success in their degree studies and increase their readiness for employment after they graduate. By targeting the development of graduate competencies and academic skills, in line with TEQSA requirements, this book will help facilitate critical, minimum learning outcomes for any business student. It will be particularly appropriate for AACSB-accredited Business degrees as it is closely aligned to Assurance of Learning standards and requirements.
