**Abduzeedo Inspiration Guide for Designers** Fabio Sasso, 2011-05-19 Brazilian designer Fábio Sasso, who has wildly popular design blog Abduzeedo, has created the definitive guide to design. This book features interviews with designers and offers tutorials on various design styles, an extension of what he does with his site abduzeedo.com. Each chapter addresses a particular style, e.g., Vintage, Neo-surrealism, Retro 80s, Light Effects, Collage, Vector, and starts off with an explanation about the style and techniques that go into that style. Next, the Abduzeedo Design Guide shows images from different visual artists illustrating each style. Fábio interviews a master of each style, such as, in the case of Retro Art, James White. Then he wraps up the chapter with a tutorial showing the elements and techniques for creating that style in Photoshop. Meant for beginning to intermediate designers as well as more experienced designers looking for inspiration, the book focuses on styles that can be applied both to web or print.

Advanced Information Networking and Applications Leonard Barolli,Flora Amato,Francesco Moscato,Tomoya Enokido,Makoto Takizawa,2020-03-27 This proceedings book covers the theory, design and applications of computer networks, distributed computing and information systems. Today's networks are evolving rapidly, and there are several developing areas and applications. These include heterogeneous networking supported by recent technological advances in power wireless communications, along with silicon integration of various functionalities such as sensing, communications, intelligence and actuations, which is emerging as a critically important disruptive computer class based on a new platform, networking structure and interface that enables novel, low-cost and high-volume applications. However, implemeting these applications has sometimes been difficult due to interconnection problems. As such, different networks need to collaborate, and wired and next-generation wireless systems need to be integrated in order to develop high-performance computing solutions to address the problems arising from these networks' complexities. This ebook presents the latest research findings, as well as theoretical and practical perspectives on the innovative methods and development techniques related to the emerging areas of information networking and applications

**Intelligent CALL, granular systems and learner data: short papers from EUROCALL 2022** Birna Arnbjörnsdóttir,Branislav Bédi,Linda Bradley,Kolbrún

Friðriksdóttir, Hólmfríður Garðarsdóttir, Sylvie Thouësny, Matthew James Whelpton, 2022-12-12 The 2022 EUROCALL conference was held in Reykjavik on 17-19 August 2022 as a fully online event hosted by the Vigdís Finnbogadóttir Institute for Foreign Languages, the University of Iceland, and the Árni Magnússon Institute for Icelandic Studies. The conference theme was Intelligent CALL, granular systems and learner data. This theme reflects the newest developments in the field of technology for language learning. Subfields such as natural language processing and machine learning not only enable smoother spoken and written communication between human learners and computers, but also offer ways in which language learning can be tailored to the needs of individual learners. By adding components of automatic speech recognition, text-to-speech systems, automatic feedback mechanisms, and tracking systems monitoring learners' progress and their use of tools, applications are becoming better targeted. All of this is used to optimise the learning experience of individual learners. This volume includes 66 short papers by some of the EUROCALL 2022 presenters and it offers a combination of research studies and theoretical papers reflecting the subthemes of the conference. The articles are ordered alphabetically.

**You Will Never Be Forgotten** Mary South, 2020-03-10 In this provocative, bitingly funny debut collection, people attempt to use technology to escape their uncontrollable feelings of grief or rage or despair, only to reveal their most flawed and human selves An architect draws questionable

inspiration from her daughter's birth defect. A content moderator for "the world's biggest search engine," who spends her days culling videos of beheadings and suicides, turns from stalking her rapist online to following him in real life. At a camp for recovering internet trolls, a sensitive misfit goes missing. A wounded mother raises the second incarnation of her child. In *You Will Never Be Forgotten*, Mary South explores how technology can both collapse our relationships from within and provide opportunities for genuine connection. Formally inventive, darkly absurdist, savagely critical of the increasingly fraught cultural climates we inhabit, these ten stories also find hope in fleeting interactions and moments of tenderness. They reveal our grotesque selfishness and our intense need for love and acceptance, and the psychic pain that either shuts us off or allows us to discover our deepest reaches of empathy. This incendiary debut marks the arrival of a perceptive, idiosyncratic, instantly recognizable voice in fiction—one that could only belong to Mary South.

**Spawn** Steve Niles, David Hine, Tutorial Fellow in Politics David Hine, 2009 Secrets are revealed. In-depth character backgrounds are inscribed. Hellishly brilliant character art resides inside these pages.

**A Tale Dark & Grimm** Adam Gidwitz, 2010-10-28 In this mischievous and utterly original debut, Hansel and Gretel walk out of their own story and into eight other classic Grimm-inspired tales. As readers follow the siblings through a forest brimming with menacing foes, they learn the true story behind (and

beyond) the bread crumbs, edible houses, and outwitted witches. Fairy tales have never been more irreverent or subversive as Hansel and Gretel learn to take charge of their destinies and become the clever architects of their own happily ever after.

**E-Pedagogy for the Digital Age** Dr. P. C. Nagasubramani, Adult learners have more options for enrolling in postsecondary education than ever before, and they are able to use their learning style preference in deciding which program best meets their needs. For some of these students, those programs are fully online, and for others, there is minimal use of technology. As technology grows and become more integrated into individual lives, the unique learning styles and preferences of adults need to learn to be incorporated into instructional design. Drawing on a regional sample of US colleges, 545 adult learners in a graduate programs were surveyed about how to effectively build community in their online classes. Results indicated some agreement with these instructional tools. Mature adult learners, however, were found to have stronger agreement with strategies that included work outside of the formal online class. These results suggest perhaps a greater comfort for adults in working in spaces where there is less likelihood of being judged or graded, and that they might value relational work with other students in different ways than younger adults.

*Social Media in Trinidad* Jolynna Sinanan, 2017-11-21 Drawing on 15 months of ethnographic research in one of the most under-developed regions in the

Caribbean island of Trinidad, this book describes the uses and consequences of social media for its residents. Jolynna Sinanan argues that this semi-urban town is a place in-between: somewhere city dwellers look down on and villagers look up to. The complex identity of the town is expressed through uses of social media, with significant results for understanding social media more generally. Not elevating oneself above others is one of the core values of the town, and social media becomes a tool for social visibility; that is, the process of how social norms come to be and how they are negotiated. Carnival logic and high-impact visuality is pervasive in uses of social media, even if Carnival is not embraced by all Trinidadians in the town and results in presenting oneself and association with different groups in varying ways. The study also has surprising results in how residents are explicitly non-activist and align themselves with everyday values of maintaining good relationships in a small town, rather than espousing more worldly or cosmopolitan values.

*The Mountains Sing* Que Mai Phan Nguyen, 2021-03-16 The International Bestseller A New York Times Editors' Choice Selection A Winner of the 2020 Lannan Literary Awards Fellowship [An] absorbing, stirring novel . . . that, in more than one sense, remedies history. –The New York Times Book Review “A triumph, a novelistic rendition of one of the most difficult times in Vietnamese history . . . Vast in scope and intimate in its telling . . . Moving and riveting.” –VIET THANH NGUYEN, author of *The Sympathizer*, winner

of the Pulitzer Prize With the epic sweep of Min Jin Lee's *Pachinko* or Yaa Gyasi's *Homegoing* and the lyrical beauty of Vaddey Ratner's *In the Shadow of the Banyan*, *The Mountains Sing* tells an enveloping, multigenerational tale of the Trøn family, set against the backdrop of the Việt Nam War. Trøn Diệu Lan, who was born in 1920, was forced to flee her family farm with her six children during the Land Reform as the Communist government rose in the North. Years later in Hà Nội, her young granddaughter, Hương, comes of age as her parents and uncles head off down the Hồ Chí Minh Trail to fight in a conflict that tore apart not just her beloved country, but also her family. Vivid, gripping, and steeped in the language and traditions of Việt Nam, *The Mountains Sing* brings to life the human costs of this conflict from the point of view of the Vietnamese people themselves, while showing us the true power of kindness and hope. *The Mountains Sing* is celebrated Vietnamese poet Nguyễn Phan Quế Mai's first novel in English.

Köhler,2022-01-28 This book presents recent research on interactive collaborative learning. We are currently witnessing a significant transformation in the development of education and especially post-secondary education. To face these challenges, higher education has to find innovative ways to quickly respond to these new needs. On the one hand, there is a pressure by the new situation in regard to the COVID pandemic. On the other hand, the methods and organizational forms of teaching and learning at higher educational institutions have changed rapidly in recent months.

Scientifically based statements as well as excellent experiences (best practice) are absolutely necessary. These were the aims connected with the 24th International Conference on Interactive Collaborative Learning (ICL2021), which was held online by Technische Universität Dresden, Germany, on 22–24 September 2021. Since its beginning in 1998, this conference is devoted to new approaches in learning with a focus on collaborative learning in Higher Education. Nowadays, the ICL conferences are a forum of the exchange of relevant trends and research results as well as the presentation of practical experiences in Learning and Engineering Pedagogy. In this way, we try to bridge the gap between ‘pure’ scientific research and the everyday work of educators. This book contains papers in the fields of Teaching Best Practices Research in Engineering Pedagogy Engineering Pedagogy Education

**Pilgrim at Tinker Creek** Annie Dillard, 2009-10-13 Winner of the Pulitzer Prize "The book is a form of meditation, written with headlong urgency, about seeing. . . . There is an ambition about her book that I like. . . . It is the ambition to feel." – Eudora Welty, New York Times Book Review *Pilgrim at Tinker Creek* is the story of a dramatic year in Virginia's Roanoke Valley, where Annie Dillard set out to chronicle incidents of beauty tangled in a rapture with violence. Dillard's personal narrative highlights one year's exploration on foot in the Virginia region through which Tinker Creek runs. In the summer, she stalks muskrats in the creek and contemplates wave mechanics; in the fall, she watches a monarch butterfly migration and dreams of Arctic caribou. She tries to con a coot; she collects pond water and examines it under a microscope. She unties a snake skin, witnesses a flood, and plays King of the Meadow with a field of grasshoppers. The result is an exhilarating tale of nature and its seasons.

**Mobile Lenses on Learning** Mark Pegrum, 2020-01-01 This book explores mobile learning as a form of learning particularly suited to our ever more mobile world, presenting a new conceptualisation of the value of mobile devices in education through the metaphor of lenses on learning. With a principal focus on mobile-assisted language learning (MALL), it draws on insights derived from MALL language, literacy and cultural projects to illustrate the possibilities inherent in all mobile learning. In its broad sweep the book takes in new and emerging technologies and tools from robots to holograms, virtual reality to augmented reality, and smart glasses to embeddable chips, considering their potential impact on education and, indeed, on human society and the planet as a whole. While not shying away from discussing the risks, it demonstrates that, handled appropriately, mobile, context-aware technologies allow educators to build on the personalised and collaborative learning facilitated by web 2.0 and social media, but simultaneously to go much further in promoting authentic learning experiences grounded in real-world encounters. In this way, teachers can better prepare students to face a global, mobile future, with all of its evolving possibilities and challenges.
