Where I'm Reading From Tim Parks,2015-05-12 Why do we need fiction? Why do books need to be printed on paper, copyrighted, read to the finish? Do we read to challenge our vision of the world or to confirm it? Has novel writing turned into a job like any other? In *Where I'm Reading From*, the novelist and critic Tim Parks ranges over decades of critical reading—from Leopardi, Dickens, and Chekhov, to Virginia Woolf, D. H. Lawrence, and Thomas Bernhard, and on to contemporary work by Peter Stamm, Alice Munro, and many others—to upend our assumptions about literature and its purpose. In thirty-seven interlocking essays, *Where I'm Reading From* examines the rise of the “international” novel and the disappearance of “national” literary styles; how market forces shape “serious” fiction; the unintended effects of translation; the growing stasis of literary criticism; and the problematic relationship between writers’ lives and their work. Through dazzling close readings and probing self-examination, Parks wonders whether writers—and readers—can escape the twin pressures of the new global system and the novel that has become its emblematic genre.

12 Ways Your Phone Is Changing You Tony Reinke,2017-04-13 Do You Control Your Phone—Or Does Your Phone Control You? Within a few years of its unveiling, the smartphone had become part of us, fully integrated into the daily patterns of our lives. Never offline, always within reach, we now wield in our hands a magic wand of technological power we have only begun to grasp. But it raises new enigmas, too. Never more connected, we seem to be growing more distant. Never more efficient, we have never been more distracted. Drawing from the insights of numerous thinkers, published studies, and his own research, writer Tony Reinke identifies twelve potent ways our smartphones have changed us—for good and bad. Reinke calls us to cultivate wise thinking and healthy habits in the digital age, encouraging us to maximize the many blessings, to avoid the various pitfalls, and to wisely wield the most powerful gadget of human connection ever unleashed.

Our Changing Menu Michael P. Hoffmann,Carrie Koplinka-Loehr,Danielle L. Eiseman,2021-04-15 Our Changing Menu unpacks the increasingly complex relationships between food and climate change. Whether you're a chef, baker, distiller, restaurateur, or someone who simply enjoys a good pizza or drink, it's time to come to terms with how climate change is affecting our diverse and interwoven food system. Michael P. Hoffmann, Carrie Koplinka-Loehr, and Danielle L. Eiseman offer an eye-opening journey through a complete menu of before-dinner drinks and salads; main courses and sides; and coffee and dessert. Along the way they examine the escalating changes occurring to the flavors of spices and teas, the yields of wheat, the vitamins in rice, and the price of vanilla. Their story is rounded out with a primer on the global food system, the causes and impacts of climate change, and what we can all do. Switch Chip Heath,Dan Heath,2010-02-16 Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results: • The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients • The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping • The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on how we can effect transformative change. *Switch* shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

Floods in a Changing Climate Giuliano Di Baldassarre,2012-11-22 Flood inundation models enable us to make hazard predictions for floodplains, mitigating increasing flood fatalities and losses. This book provides an understanding of hydraulic modelling and floodplain dynamics, with a key focus on state-of-the-art remote sensing data, and methods to estimate and communicate uncertainty. Academic researchers in the fields of hydrology, climate change, environmental science and natural hazards, and professionals and policy-makers working in flood risk mitigation, hydraulic engineering and remote sensing will find this an invaluable resource. This volume is the third in a collection of four books on flood disaster management theory and practice within the context of anthropogenic climate change. The others are: *Floods in a Changing Climate: Extreme Precipitation* by Ramesh Teegavarapu, *Floods in a Changing Climate: Hydrological Modeling* by P. P. Mujumdar and D. Nagesh Kumar and *Floods in a Changing Climate: Risk Management* by Slodoban Simonović.

Your Body is Changing Jack Pendarvis,2011-07-27 A new collection of stories from the Pushcart Prize-winning author of *The Mysterious Secret of the Valuable Treasure*. Glittering with mischief and perversity, Jack Pendarvis’s latest collection of short fiction introduces readers to a world of losers poised on the brink of all sorts of disaster - a world only a wink and a nod away from our own. In the title novella a fundamentalist teenager must single-handedly confront the horrors of a spiritual quest filled with secular humanists, an apocalyptic folk artist, and a couple of movie stars. The other stories deal poignantly with - among other things - a young millionaire pretending to be a detective, Alabamians getting violent in a New York bar, the good folks who invented diarrhea-inducing chewing gum, a man who becomes an impromptu drug mule, magnetic healers, and a candidate making a sad speech for office. Underlying each comedic gem and neurotic twist is an intelligence and empathy rarely found in modern satire. Like the best guidebooks, *Your Body is Changing* will invite you in with its zany humor and indict you with its moving truths.
