**The Last Lecture** Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his

lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

*Where Land and Water Meet* Nancy Langston, 2009-11-23  
Water and land interrelate in surprising and ambiguous ways, and riparian zones, where land and water meet, have effects far outside their boundaries. Using the Malheur Basin in southeastern Oregon as a case study, this intriguing and nuanced book explores the ways people have envisioned boundaries between water and land, the ways they have altered these places, and the often unintended results. The Malheur Basin, once home to the largest cattle empires in the world, experienced unintended widespread environmental degradation in the late nineteenth and early twentieth centuries. After establishment in 1908 of Malheur National Wildlife Refuge as a protected breeding ground for migratory birds, and its expansion in the 1930s and 1940s, the area experienced equally extreme intended modifications aimed at restoring riparian habitat. Refuge managers ditched wetlands, channelized rivers, applied Agent Orange and rotenone to waterways, killed beaver, and cut down willows. *Where Land and Water Meet* examines the reasoning behind and effects of these interventions, gleaned lessons from their successes and failures. Although remote and specific, the Malheur Basin has myriad ecological and political connections to much larger places. This detailed look at one tangled history of riparian restoration shows how—through appreciation of the complexity of environmental and social influences on land use, and through effective handling of conflict—people can learn to practice a style of pragmatic adaptive resource management that avoids rigid adherence to single agendas and fosters improved relationships with the land.

**Where The Water Meets The Sand** Tyra

Manning, 2016-05-10 IBPA Benjamin Franklin Award GOLD  
Winner in Autobiography & Memoir A remarkable story of love, loss, and hope Author Tyra Manning learned that her husband had been killed in the Vietnam War from her psychiatrist at the

Menninger Clinic, where she had been hospitalized for clinical depression. After years of battling addiction and depression, and coping with the tragic loss of her father at a very early age, Tyra's worst fear had come true. Larry had been shot down over the Laotian jungle while flying a top-secret mission, just two weeks before their daughter's second birthday. In this beautifully written, poignant memoir, Tyra Manning recounts how she was able to persevere in the face of devastating loss. With courage, love, and determination, she overcame her grief and fulfilled promises she made to Larry before he left for Vietnam. She ultimately earned a doctorate of education from the University of Kansas and became one of the nation's top school superintendents. When Tyra received a call from the air force in 2006, she was able to keep one last promise to Larry. His remains had finally been excavated after thirty-five years, and she was able to honor his wish to be buried at Arlington National Cemetery. *Where the Water Meets the Sand* explores themes of loss, depression, addiction, courage, and love and offers hope to individuals and families who have also dealt with the loss of someone close to them.

### **Where the Water Goes** David Owen, 2018-04-10

"Wonderfully written...Mr. Owen writes about water, but in these polarized times the lessons he shares spill into other arenas. The world of water rights and wrongs along the Colorado River offers hope for other problems." —Wall Street Journal An eye-opening account of where our water comes from and where it all goes. The Colorado River is an essential resource for a surprisingly large part of the United States, and every gallon that flows down it is owned or claimed by someone. David Owen traces all that water from the Colorado's headwaters to its parched terminus, once a

verdant wetland but now a million-acre desert. He takes readers on an adventure downriver, along a labyrinth of waterways, reservoirs, power plants, farms, fracking sites, ghost towns, and RV parks, to the spot near the U.S.-Mexico border where the river runs dry. Water problems in the western United States can seem tantalizingly easy to solve: just turn off the fountains at the Bellagio, stop selling hay to China, ban golf, cut down the almond trees, and kill all the lawyers. But a closer look reveals a vast man-made ecosystem that is far more complex and more interesting than the headlines let on. The story Owen tells in *Where the Water Goes* is crucial to our future: how a patchwork of engineering marvels, byzantine legal agreements, aging infrastructure, and neighborly cooperation enables life to flourish in the desert—and the disastrous consequences we face when any part of this tenuous system fails.

**Where Did All the Water Go?** Carolyn Stearns, 2009-07 A young boy worries about the lack of water in the bay after a storm.

### **Where Water Comes Together with Other Water**

Raymond Carver, 2015-05-25 Winner of Poetry Magazine's Levinson Prize • An illuminating collection of poems from the middle of Carver's career that "function as distilled, heightened versions of his stories, offering us fugitive glimpses of ordinary lives on the edge" (The New York Times). The stories poems tell are so wonderfully self-contained, so self-evident, so gracefully metaphorical. —The Village Voice There is a severity of language, an understatement of emotion, that endows the poems of his first major collection with the feel of extraordinary experience. To read them is to have the sense this man has lived more than most of us. We trust him because of the plainly conversational diction and the lapel-grabbing rhythms.... They are very moving, very memorable. —Poetry

This Is Water Kenyon College, 2014-05-22 Only once did David Foster Wallace give a public talk on his views on life, during a

commencement address given in 2005 at Kenyon College. The speech is reprinted for the first time in book form in THIS IS WATER. How does one keep from going through their comfortable, prosperous adult life unconsciously' How do we get ourselves out of the foreground of our thoughts and achieve compassion' The speech captures Wallace's electric intellect as well as his grace in attention to others. After his death, it became a treasured piece of writing reprinted in The Wall Street Journal and the London Times, commented on endlessly in blogs, and emailed from friend to friend. Writing with his one-of-a-kind blend of causal humor, exacting intellect, and practical philosophy, David Foster Wallace probes the challenges of daily living and offers advice that renews us with every reading.

Nothing Much Happens Kathryn Nicolai, 2020-10-06 Soothing stories to help you fall and stay asleep, based on the popular podcast *Busy minds need a place to rest*. Whether you find yourself struggling to sleep, awake in the middle of the night, or even just anxious as you move through the day, in *Nothing Much Happens*, Kathryn Nicolai offers a healthy way to ease the mind before bed: through the timeless appeal of classic bedtime stories. Already beloved by millions of podcast listeners, the stories in *Nothing Much Happens* explore and expose small sweet moments of joy and relaxation: Sneaking lilacs from an abandoned farm in the spring. Watching fireflies from the deck in the summer. Visiting the local cider mill in the autumn. Watching the tree lighting in the park with friends in the winter. You'll also find sixteen new stories never before featured on the podcast, along with whimsical illustrations, recipes, and meditations. Using her decades of experience as a meditation and yoga teacher, Kathryn Nicolai creates a world for you to slip into, one rich in sensory experience that quietly teaches mindfulness and self-compassion, soothes frayed nerves, and builds solid habits for nurturing sleep. A PENGUIN LIFE TITLE

*PostSecret* Frank Warren, 2005-11-29 The project that captured a nation's imagination. The instructions were simple, but the results were extraordinary. You are invited to anonymously contribute a secret to a group art project. Your secret can be a regret, fear, betrayal, desire, confession, or childhood humiliation. Reveal anything -- as long as it is true and you have never shared it with anyone before. Be brief. Be legible. Be creative. It all began with an idea Frank Warren had for a community art project. He began handing out postcards to strangers and leaving them in public places -- asking people to write down a secret they had never told anyone and mail it to

him, anonymously. The response was overwhelming. The secrets were both provocative and profound, and the cards themselves were works of art -- carefully and creatively constructed by hand. Addictively compelling, the cards reveal our deepest fears, desires, regrets, and obsessions. Frank calls them graphic haiku, beautiful, elegant, and small in structure but powerfully emotional. As Frank began posting the cards on his website, PostSecret took on a life of its own, becoming much more than a simple art project. It has grown into a global phenomenon, exposing our individual aspirations, fantasies, and frailties -- our common humanity. Every day dozens of postcards still make their way to Frank, with postmarks from around the world, touching on every aspect of human experience. This extraordinary collection brings together the most powerful, personal, and beautifully intimate secrets Frank Warren has received -- and brilliantly illuminates that human emotions can be unique and universal at the same time.
