Captain America and the American Journey, 1940-2022 Richard A. Hall, 2024-02-16 Captain America made his debut in 1940, just two years behind the first comic book superheroes and five years before the United States' emergence as the world's primary superpower at the end of World War II. His journey has been intertwined with America's progress throughout the decades. Known as the Sentinel of Liberty, he has frequently provided socio-political commentary on current events as well as inspiration and warnings concerning the future. This work explores the

interconnected histories of the United States and Captain America, decade-by-decade, from the character's origins to Chris Evans' portrayal of him in the Marvel Cinematic Universe. It examines how Captain America's story provides a guide through America's tenure as a global superpower, holds a mirror up to American society, and acts as a constant reminder of what America can and should be.

Popular Science ,1996-06 Popular Science gives our readers the information and tools to improve their technology and their world. Silent Films/Loud Music Phillip Johnston,2021-08-12 Silent Films/Loud Music discusses contemporary scores for silent film as a rich vehicle for experimentation in the relationship between music, image, and narrative. Johnston offers an overview of the early history of music for silent film paired with his own first-hand view of the craft of creating new original scores for historical silent films: a unique form crossing musical boundaries of classical, jazz, rock, electronic, and folk. As the first book completely devoted to the study of contemporary scores for silent film, it tells the story of the historical and creative evolution of this art form and features an extended discussion and analysis of some of the most creative works of contemporary silent film scoring. Johnston draws upon his own career in both contemporary film

music (working with directors Paul Mazursky, Henry Bean, Philip Haas and Doris Dörrie, among others) and in creating new scores for silent films by Browning, Méliès, Kinugasa, Murnau & Reiniger. Through this book, Johnston presents a discussion of music for silent films that contradicts long-held assumptions about what silent film music is and must be, with thought-provoking implications for both historical and contemporary film music.

The Sacred Band Janet Morris, Chris Morris, 2010-06-10

On the Inconvenience of Other People Lauren Berlant, 2022-07-11 In *On the Inconvenience of Other People* Lauren Berlant continues to explore our affective engagement with the world. Berlant focuses on the encounter with and the desire for the other of other people and objects, showing that to be driven toward attachment is to desire to be inconvenienced. Drawing on a range of sources, including *Last Tango in Paris*, Ralph Waldo Emerson, Claudia Rankine, Christopher Isherwood, Bhanu Kapil, the Occupy movement, and resistance to anti-Black state violence, Berlant poses inconvenience as an affective relation and considers how we might loosen our attachments in ways that allow us to build new forms of life. Collecting strategies for breaking apart a world in need of disturbing, the book's experiments in thought and writing cement Berlant's status as one of the most inventive and influential thinkers of our time.

Whiplash Joi Ito, Jeff Howe, 2016-12-06 This brilliant and provocative (Walter Isaacson) guide shares nine principles to adapt and survive the

technological changes shaping our future from the director of the MIT Media Lab and a veteran Wired journalist. The world is more complex and volatile today than at any other time in our history. The tools of our modern existence are getting faster, cheaper, and smaller at an exponential rate, transforming every aspect of society, from business to culture and from the public sphere to our most private moments. The people who succeed will be the ones who learn to think differently. In Whiplash, Joi Ito and Jeff Howe distill that logic into nine organizing principles for navigating and surviving this tumultuous period: Emergence over Authority Pull over Push Compasses over Maps Risk over Safety Disobedience over Compliance Practice over Theory Diversity over Ability Resilience over Strength Systems over Objects Filled with incredible case studies and cutting-edge research and philosophies from the MIT Media Lab and beyond, Whiplash will help you adapt and succeed in this unpredictable world./DIV

Fun City Cinema Jason Bailey, 2021-10-26 A visual history of 100 years of filmmaking in New York City, featuring exclusive interviews with NYC filmmakers Fun City Cinema gives readers an in-depth look at how the rise, fall, and resurrection of New York City was captured and chronicled in ten iconic Gotham films across ten decades: The Jazz Singer (1927), King Kong (1933), The Naked City (1948), Sweet Smell of Success (1957), Midnight Cowboy (1969), Taxi Driver (1976), Wall Street (1987), Kids (1995), 25th Hour (2002), and Frances Ha (2012). A visual history of a great American city in flux, Fun City Cinema reveals how

these classic films and legendary filmmakers took their inspiration from New York City's grittiness and splendor, creating what we can now view as "accidental documentaries" of the city's modes and moods. In addition to the extensively researched and reported text, the book includes both historical photographs and production materials, as well as still-frames, behind-the-scenes photos, posters, and original interviews with Noah Baumbach, Larry Clark, Greta Gerwig, Walter Hill, Jerry Schatzberg, Martin Scorsese, Susan Seidelman, Oliver Stone, and Jennifer Westfeldt. Extensive Now Playing sidebars spotlight a handful of each decade's additional films of note.

The Film and Media Creators' Guide to Music
Vasco Hexel,2018-09-28 Music plays an integral role in the experience of film, television, video games, and other media—yet for many directors, producers, and media creators, working with music can be a baffling and intimidating process. *The Film and Media Creators' Guide to Music* bridges the gap between musical professionals and the creators of film and other media projects, establishing a shared language while demystifying this collaborative journey. Organized with a modular chapter structure, the book covers fundamental topics including: Why (and when) to use music in a project How to talk about music Licensing existing music Commissioning original music Working with a composer Geared toward emerging and established creators alike, this book takes a practical approach to the process of finding the best music for all forms of moving image. *The Film and Media Creators' Guide to Music* offers hands-on advice for media creators, providing readers with the confidence to approach the planning, commissioning, creation, and placement of music in their projects with the awareness, understanding, and vocabulary that will enable them to be better collaborators and

empowered storytellers. For students and professionals working across film and media, this book is the essential guide to using music creatively and effectively.

Temporomandibular Disorders Andrew S. Kaplan, Leon A. Assael, 1991 An authoritative overview of this complex subspecialty of dentistry and oral surgery. Expert contributors provide scientifically sound coverage of diagnostic and treatment regimens in these difficult patients.

Ritwik Ghatak and the Cinema of Praxis Diamond Oberoi Vahali, 2020-04-24 In a significant departure from other works on Ritwik Ghatak, this book establishes him as an auteur and a maestro on par with some of the great film directors, like Sergei Eisenstein, Satyajit Ray, Ingmar Bergman, Federico Fellini, Kenji Mizoguchi and Luis Bunuel. Based on in-depth research that follows Ghatak's journey within the context of the Indian People's Theatre Association, it fills an important gap in the scholarship around Ghatak by offering crucial insights into Ghatak's unique vision of cinema embedded as it is in the cultural psychic configurations of the people. It analyses Ghatak's practice by minutely tracing formal similarities across the language of his cinematic oeuvre in the domain of cinematography, lighting, music, and sound. The book develops the way in which cinematic technique enters the domain of conceptual constructs and abstractions. It moves on to chronicle Ghatak's political odyssey as reflected in his cinema. Moreover, it charts the manner in which Ghatak, through his cinematic idiom, offers a polemic of cinema that further

adds to his notion of praxis – a thoughtful Marxist paradigm organically associated with the culture and context of India. By locating Ghatak within the discourse of nationalism, the book brings to the surface Ghatak's critical insights related to the independence of the nation and the trauma of the partition of Bengal. Ghatak's cinema served the crucial function of chronicling the mass tragedy of partition and its impact on the human psyche. This book appeals to scholars of film studies and filmmaking as well as to researchers and general readers interested in debates pertaining to culture, politics, art, psychoanalysis, partition and refugee studies, cinema, theatre, and ideology.
