

Who Do Housework

Karen Sternheimer

Fair Play Eve Rodsky, 2021-01-05 AN INSTANT NEW YORK TIMES BESTSELLER • A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the “shefault” parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family—and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is *Fair Play*: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, *Fair Play* helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. “Winning” this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space—the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try *Fair Play*? Let's deal you in.

The Second Shift Arlie Hochschild, Anne Machung, 2012-01-31 An updated edition of a standard in its field that remains relevant more than thirty years after its original publication. Over thirty years ago, sociologist and University of California, Berkeley professor Arlie Hochschild set off a tidal wave of conversation and controversy with her bestselling book,

The Second Shift. Hochschild's examination of life in dual-career households finds that, factoring in paid work, child care, and housework, working mothers put in one month of labor more than their spouses do every year. Updated for a workforce that is now half female, this edition cites a range of updated studies and statistics, with an afterword from Hochschild that addresses how far working mothers have come since the book's first publication, and how much farther we all still must go.

Dividing the Domestic Judith Treas, Sonja

Drobnič, 2010-02-25 In *Dividing the Domestic*, leading international scholars roll up their sleeves to investigate how culture and country characteristics permeate our households and our private lives. The book introduces novel frameworks for understanding why the household remains a bastion of traditional gender relations—even when employed full-time, women everywhere still do most of the work around the house, and poor women spend more time on housework than affluent women. Education systems, tax codes, labor laws, public policies, and cultural beliefs about motherhood and marriage all make a difference. Any accounting of who does what needs to consider the complicity of trade unions, state arrangements for children's schooling, and new cultural prescriptions for a happy marriage. With its cross-national perspective, this pioneering volume speaks not only to sociologists concerned with gender and family, but also to those interested in scholarship on states, public policy, culture, and social inequality.

The Mental Load Emma, 2018-12-18 A new voice in comics is incisive, funny, and fiercely feminist. The mental load. It's incessant, gnawing, exhausting, and disproportionately falls to women. You know the scene--you're making dinner, calling the plumber/doctor/mechanic, checking homework and answering work emails--at the same time. All the while, you are being peppered with questions by your nearest and dearest 'where are my shoes?', 'do we have any cheese?...' --Australian Broadcasting Corp on Emma's comic In her first book of comic strips, Emma reflects on social and feminist issues by means of simple line drawings, dissecting the mental load, ie all that invisible and unpaid organizing, list-making and planning women do to manage their lives, and the lives of their family members. Most of us carry some form of mental load--about our work, household responsibilities, financial obligations and personal life; but what makes up that burden and how it's distributed within households and understood in offices is not always equal or fair. In her strips Emma deals with themes ranging from maternity leave (it is not a vacation!), domestic violence, the clitoris, the violence of the medical world on women during childbirth, and other feminist issues, and she does so in a straightforward way that is both

hilarious and deadly serious.. If you're not laughing, you're probably crying in recognition. Emma's comics also address the everyday outrages and absurdities of immigrant rights, income equality, and police violence. Emma has over 300,000 followers on Facebook, her comics have been. shared 215,000 times, and have elicited comments from 21,000 internet users. An article about her in the French magazine L'Express drew 1.8 million views--a record since the site was created. And her comic has just been picked up by The Guardian. Many women will recognize themselves in THE MENTAL LOAD, which is sure to stir a wide ranging, important debate on what it really means to be a woman today.

Here's the Plan. Allyson Downey,2016-04-26 Today's Corporate America appears family friendly, but even the most focused, productive women can lose out on promotions, key assignments, and inclusion in office dynamics when they have children. Downey offers an inventive and inspiring roadmap for working mothers steering their careers through the parenting years. She provides a practical how-to for negotiating leave and flex time, along with visionary advice for the difficult challenges that can arise for mothers with careers.

Gone Is Gone or the Story of a Man Who Wanted to Do Housework ,1935 The story of a man who wanted to do housework.

The Lazy Husband Joshua Coleman,2006-02-21 A hands-on guide to understanding and overcoming male reticence in the areas of housekeeping and child care defines specific problematic husband personalities, explaining how to overcome such challenges as male neediness, perfectionism, chauvinism, and workaholism.

The Sociology of Housework (Reissue) Oakley, Ann,2019-09-01 In this ground-breaking book, acclaimed sociologist Ann Oakley undertook one of the first serious sociological studies to examine women's work in the home. She

interviewed 40 urban housewives and analysed their perceptions of housework, their feelings of monotony and fragmentation, the length of their working week, the importance of standards and routines, and their attitudes to different household tasks. Most women, irrespective of social class, were dissatisfied with housework – an important finding which contrasted with prevailing views. Importantly, too, she showed how the neglect of research on domestic work was linked to the inbuilt sexism of sociology. This classic book challenged the hitherto neglect of housework as a topic worthy of study and paved the way for the sociological study of many more aspects of women's lives.

How Not to Hate Your Husband After Kids Jancee

Dunn, 2017-03-21 Get this for your pregnant friends, or yourself (People): a hilariously candid account of one woman's quest to bring her post-baby marriage back from the brink, with life-changing, real-world advice. Recommended by Nicole Cliffe in Slate Featured in People Picks A Red Tricycle Best Baby and Toddler Parenting Book of the Year One of Mother magazine's favorite parenting books of the Year How Not To Hate Your Husband After Kids tackles the last taboo subject of parenthood: the startling, white-hot fury that new (and not-so-new) mothers often have for their mates. After Jancee Dunn had her baby, she found that she was doing virtually all the household chores, even though she and her husband worked equal hours. She asked herself: How did I become the 'expert' at changing a diaper? Many expectant parents spend weeks researching the best crib or safest car seat, but spend little if any time thinking about the titanic impact the baby will have on their marriage – and the way their marriage will affect their child. Enter Dunn, her well-

meaning but blithely unhelpful husband, their daughter, and her boisterous extended family, who show us the ways in which outmoded family patterns and traditions thwart the overworked, overloaded parents of today. On the brink of marital Armageddon, Dunn plunges into the latest relationship research, solicits the counsel of the country's most renowned couples' and sex therapists, canvasses fellow parents, and even consults an FBI hostage negotiator on how to effectively contain an explosive situation. Instead of having the same fights over and over, Dunn and her husband must figure out a way to resolve their larger issues and fix their family while there is still time. As they discover, adding a demanding new person to your relationship means you have to reevaluate -- and rebuild -- your marriage. In an exhilarating twist, they work together to save the day, happily returning to the kind of peaceful life they previously thought was the sole province of couples without children. Part memoir, part self-help book with actionable and achievable advice, *How Not To Hate Your Husband After Kids* is an eye-opening look at how the man who got you into this position in this first place is the ally you didn't know you had.

Never Done Susan Strasser, 2000-11 Finally back in print, with a new Preface by the author, this lively, authoritative, and pathbreaking study considers the history of material advances and domestic service, the women's separate sphere, and the respective influences of advertising, home economics, and women's entry into the workforce. *Never Done* begins by describing the household chores of nineteenth-century America: cooking at fireplaces and on cast-iron stoves, laundry done with boilers and flatirons, endless water-hauling and fire-tending, and so on. Strasser goes on to explain and explore how industrialization transformed the nature of women's work. Easing some tasks and eliminating others, new commercial processes inexorably altered women's daily lives and relationships—with each other and with those they served.

All the Rage Darcy Lockman, 2019-05-07 Why do men do so little at home? Why do women do so much? Why don't our egalitarian values match our lived experiences? Journalist-turned-psychologist Darcy Lockman offers a clear-eyed look at the most pernicious problem facing modern parents—how progressive relationships become traditional ones when children are introduced into the household. In an era of seemingly unprecedented feminist activism, enlightenment, and change, data shows that one area of gender inequality stubbornly persists: the disproportionate amount of parental work that falls to women, no matter their background, class, or professional status. *All the Rage* investigates the cause of this pervasive inequity to answer why, in households where both parents work full-time and agree that tasks should be equally shared, mothers' household management, mental labor, and childcare contributions still outweigh fathers'. How, in a culture that pays lip service to women's equality and lauds the benefits of father involvement—benefits that extend far beyond the well-being of the kids themselves—can a commitment to fairness in marriage melt away upon the arrival of children? Counting on male partners who will share the burden, women today have been left with what political scientists call unfulfilled, rising expectations. Historically these unmet expectations lie at the heart of revolutions, insurgencies, and civil unrest. If so many couples are living this way, and so many women are angered or just exhausted by it, why do we remain so stuck? Where is our revolution, our insurgency, our civil unrest? Darcy Lockman drills deep to find answers, exploring how the feminist promise of true domestic partnership almost never, in fact, comes to pass. Starting with her own marriage as a ground zero case study, she moves outward, chronicling the experiences of a diverse cross-section of women raising children with men; visiting new mothers' groups and pioneering co-parenting specialists; and interviewing experts across academic fields, from gender studies

professors and anthropologists to neuroscientists and primatologists. Lockman identifies three tenets that have upheld the cultural gender division of labor and peels back the ways in which both men and women unintentionally perpetuate old norms. If we can all agree that equal pay for equal work should be a given, can the same apply to unpaid work? Can justice finally come home?

Wanted, a Young Woman to Do Housework Clara Barker, 2008-07 In her 1917 work, Clara Barker applies business principles to the domestic sphere, helping women to free themselves of doing the housework by turning the running of the household into an efficient business model.

Wages Against Housework Silvia Federici, 1975
The Time Use of Mothers in the United States at the Beginning of the 21st Century Rachel Connelly, Jean Kimmel, 2010 This book focuses on the time use of mothers of pre-teenaged children in the United States from 2003 to 2006.

The Changing Rhythms of American Family Life Suzanne M. Bianchi, John P. Robinson, Melissa A. Milke, 2006-07-13 Over the last forty years, the number of American households with a stay-at-home parent has dwindled as women have increasingly joined the paid workforce and more women raise children alone. Many policy makers feared these changes would come at the expense of time mothers spend with their children. In *Changing Rhythms of American Family Life*, sociologists Suzanne M. Bianchi, John P. Robinson, and Melissa Milkie analyze the way families spend their time and uncover surprising new findings about how Americans are balancing the demands of work and family. Using time diary data from surveys of American parents over the last four decades, *Changing Rhythms of American Family Life* finds that—despite increased workloads outside of the home—mothers today spend at least as much time interacting with their children as mothers did decades ago—and perhaps even more. Unexpectedly, the authors find mothers' time at work

has not resulted in an overall decline in sleep or leisure time. Rather, mothers have made time for both work and family by sacrificing time spent doing housework and by increased multitasking. *Changing Rhythms of American Family Life* finds that the total workload (in and out of the home) for employed parents is high for both sexes, with employed mothers averaging five hours more per week than employed fathers and almost nineteen hours more per week than homemaker mothers. Comparing average workloads of fathers with all mothers—both those in the paid workforce and homemakers—the authors find that there is gender equality in total workloads, as there has been since 1965. Overall, it appears that Americans have adapted to changing circumstances to ensure that they preserve their family time and provide adequately for their children. *Changing Rhythms of American Family Life* explodes many of the popular misconceptions about how Americans balance work and family. Though the iconic image of the American mother has changed from a docile homemaker to a frenzied, sleepless working mom, this important new volume demonstrates that the time mothers spend with their families has remained steady throughout the decades.

How to Keep House While Drowning KC Davis, 2022-04-26
If you're tired of staring at the same mess every day, but struggling to find the time and willpower to clean it, you probably have a very good reason: anxiety, fatigue, depression, ADHD, or lack of support. Designed by therapist KC Davis, this revolutionary method of cleaning and organizing helps end the stress-mess cycle. After KC Davis gave birth to her second child, she didn't fold a single piece of laundry for seven months. Between postpartum depression and ADHD, she felt numb and overwhelmed. She regained her sanity--and the functionality of her home--after one life-changing realization: You don't work for your home; your home works for you. In other words, messiness is not a moral failing. A new sense of calm washed over her as she

let go of the shame-based messaging that interpreted a pile of dirty laundry as I can never keep up and a chaotic kitchen as I'm a bad mother. Instead, she looked at unwashed clothes and thought, I am alive, and at stacks of dishes and thought, I cooked my family dinner three nights in a row. Building on this foundation of self-compassion, KC devised the powerful practical approach that has exploded in popularity through her TikTok account, @domesticblisters. The secret is to stop following perfectionist rules that don't make sense for you--like folding clothes that don't wrinkle anyway, or thinking that every room has to be clean at the same time--and to find creative solutions that accommodate your needs, pet peeves, daily rhythms, and attention span. Inside, you'll learn exactly how to customize your approach and rebuild your relationship with your home, including: -How to stop seeing care tasks as a reflection of your worth, but rather as kindnesses to your future self -How to use calming rituals to keep you from feeling overwhelmed when you look at a big mess -How to stagger tasks that are easy to procrastinate throughout the week and month -How to quickly transform a room from messy to fully functional through the 5 Things tidying method, and other shortcuts requiring minimal energy Read this book to make home feel like a sanctuary again: where you can move with ease, where guilt, self-criticism, and endless checklists have no place, and where you always have permission to rest, even when things aren't finished.
