International Protection of Investments August

Reinisch,Christoph Schreuer,2020-07-16 This book outlines the
protection standards typically contained in international
investment agreements as they are actually applied and
interpreted by investment tribunals. It thus provides a basis for
analysis, criticism, and stocktaking of the existing system of
investment arbitration. It covers all main protection standards,
such as expropriation, fair and equitable treatment, full
protection and security, the non-discrimination standards of
national treatment and MFN, the prohibition of unreasonable and
discriminatory measures, umbrella clauses and transfer
guarantees. These standards are covered in separate chapters
providing an overview of textual variations, explaining the origin
of the standards and analysing the main conceptual issues as
developed by investment tribunals. Relevant cases with
quotations that illustrate how tribunals have relied upon the
standards are presented in depth. An extensive bibliography
guides the reader to more specific aspects of each investment

standard permitting the book's use as a commentary of the main investment protection standards.
