Jabali - A Kansas City Legend David Thomas, 2019-06 This book tells the story of Warren (Armstrong) Jabali, a remarkably gifted person who played basketball in Kansas City in the early 1960s. It does not tell the entire story of his life but it does tell the story of his career, and to a considerable extent, the story of his intellectual life and the impact he had on others. After high school, Warren starred at Wichita State University where, at 6'2, he ranks among its all-time leaders in points, rebounds and assists. In the American Basketball Association (ABA), he was Rookie of the Year, four times an All-Star, and Most Valuable Player in the 1973 ABA All-Star game. Jabali, in Swahili, means a large, conspicuous rock. It is the name Warren adopted in announcing his commitment to the African-American community. His principal concern from the time he left college was, in his words, the standing of African-American people in the human community. This book is an effort to keep alive his memory in the Kansas City area and beyond. It is rare that a young man in high school so electrifies a community. Rare, also, that he should go on a journey that--through trails and tribulations--rendered him a hero to so many.

*Netting Out Basketball 1936* Rich Hughes, 2011-11 1936 was the most significant year in basketball's first half century. For the first time, Olympic basketball ended with a gold medal game. Dr. James Naismith was honored at the Berlin Olympics for his wonderful invention, as basketball achieved widespread international acceptance in a short period of time. 45 years after creating an exciting indoor sport for a physical education class, Naismith watched 23 countries vie for the gold. Boycotts protested Hitler's policies within the Olympic host country of Germany, and as a result, politics and sports were forever linked. Other meaningful firsts for the 1935-36 playing season included controversy in the US Olympic Tryout system, a problematic lack of funding for US Olympians, and the actualization of new basketball strategies. Fast breaking offenses, dunking the ball, and full court zone pressure were important new techniques that radically changed the game. This book tells the little known story of the 1936 team which transformed basketball. The mishaps and fortunes of the Refiners and three other AAU teams who placed men on Berlin's muddy clay court will be the focus of the book.

Fathers, sons, and grandsons have worn the purple and gold colors, winning and losing but always striving to represent the university in a most positive manner.
