

Wicked Sick Defence

Clemens Wendtner

Evil or Ill? Lawrie Reznick,2005-06-20 Lawrie Reznick addresses these questions and more in his controversial investigation of the insanity defense in *Evil or Ill?* Drawing from countless intriguing case examples, he aims to understand the concept of an excuse, and explains why the law excuses certain actions and not others. In his easily accessible and elegant style, he explains that in law, there exists two excuses derived from Aristotle: the excuses of ignorance and compulsion. Reznick, however proposes a third excuse – the excuse of character change. In introducing this third excuse, Reznick raises a controversial possibility – the abolition of the insanity defence.

Army of Evil Adrian Weale,2013-09-03 In Nazi Germany, they were called the Schutzstaffeln. The world would know them as the dreaded SS—the most loyal and ruthless enforcers of the Third Reich. It began as a small squad of political thugs. Yet by the end of 1935, the SS had taken control of all police and internal security duties in Germany—ranging from local village “gendarmes” all the way up to the secret political police and the Gestapo. Eventually, its ranks would grow to rival even Germany’s regular armed forces, the Wehrmacht. Going beyond the myths and characterizations, *Army of Evil* reveals the reality of the SS as a cadre of unwavering political fanatics and power-seeking opportunists who slavishly followed an ideology that disdained traditional morality—an ideology that they were prepared to implement to the utmost murderous extreme, which ultimately resulted in the Holocaust. This is a definitive historical narrative of the birth, legacy, and demise of one of the most feared political and military organizations ever known—and of those twisted, cruel men who were responsible for one of the most appalling crimes against humanity in history. INCLUDES RARE PHOTOGRAPHS

Defences to Crime ,1885

Servants of Evil: Voices from Hitler's Army , History is always written by the victors. . . this is the other side of the coin. This is the front line perspective on World War II as seen through the eyes of the losing side, the men who fought for Hitler. These are the recollections of the men of the Kriegsmarine, the Luftwaffe and the Heer. Altogether they formed the Wehrmacht which in 1940 was the most efficient fighting force the world had ever seen. By 1942 the tide had begun to turn and the men of the once mighty Wehrmacht fought in vain at Stalingrad, El Alamein, Monte Cassino, Caen and Berlin. These are the U-boat men, the Panzer crews and the air aces. This is military history at its best and most enlightening as told from primary sources. Written by Emmy award winning author Bob Carruthers, this unique publication documents the primary accounts of many of those who fought in Hitler's army.

The Many Faces of Evil (Revised and Expanded Edition) John S. Feinberg,2004-05-06 In this examination of the questions posed by the problem of evil, John Feinberg addresses the intellectual and theological framework of theodicy. Beginning with a discussion of the logical problem of evil, he interacts with leading thinkers who have previously written on these themes.

American Evil Eric Cullen,2020-09-30 American Evil deals with the ‘sordid’ world of serial killers, their calculating methods and distorted thinking, based around the author’s ground-breaking work as a prison psychologist, government advisor and consultant to three TV series including *Voice of a Serial Killer*. Based on clinical experience of killers. Includes a selection of USA/UK serial killer studies. Exposes police and other failings and shortcomings and the perversity of ‘defences’, ‘excuses’, etc. Strongly critical of USA gun laws and attitudes or perspectives making for an unhealthy environment, moral vacuum and lack of official/individual awareness and responsibility. The book describes how the author was ‘so profoundly moved’ by his inescapable conclusions about how serial killers are ‘made’ that he was compelled to set out his findings. Bemoaning the serial killer ‘growth industry’, ‘unhealthy interest’ and ill-informed comment he sets the record straight. Serial killers are made not born. But his central polemic is that serial killers are one of several malign human by-products of a dysfunctional modern permissive society, overwhelmingly American, brought about by modern-day culture in the USA, lax moral standards as also reflected in other countries to the extent that they pursue a comparable way of life.

Chesterton and Evil Mark Knight,2004 Here, Knight crafts a portrait of Chesterton – the Fleet Street newspaperman who was able to entertain vast audiences as well as the thinker who could illuminate serious questions about justice, fairness, and faith, and who helped confront the new evils of the new century by creating works that gave vivid form to enduring truths about the good.--BOOK JACKET.

???? **“Huang Di Nei Jing”; The Yellow Emperor's Internal Canon** Huang Di, The Yellow Emperor's Internal Canon is the earliest extant TCM (Traditional Chinese Medicine) theory book, which has far-reaching influence on the establishment of the later Chinese medical theory. According to the book , it is the account of the Yellow Emperor and Qi Bo , Lei Gong , Bo Gao , Shao Shi , Shao Yu and many other ministers discussing medicine. The Yellow Emperor's Internal Canon has accumulated rich medical experience obtained by the ancestors, sublimated into rational understanding, formed a systematic medical theory, and further controlled medical practice, established a clinical standard of Chinese medicine, and became a system for exploring the laws of life and its medical applications in traditional Chinese health science.

Wicked Sick Scott T. Goudsward,2023-04 TBD

The Future Life: a Defence of the Orthodox View ... Future life,A. G. M.,1878

Talking with Serial Killers: World's Most Evil Christopher Berry-Dee,2023-08-22 A deep dive into the murders and minds of John Wayne Gacy, Kenneth Bianchi, William Heirens, John Cannan, and Patricia Wright from the bestselling author. In *Talking with Serial Killers: World's Most Evil*, bestselling author and criminologist Christopher Berry-Dee delves deeper into the gloomy underworld of killers and their crimes. He examines, with shocking detail and clarity, the lives and lies of people who have killed and shines a light on the motives behind their horrific crimes. Through interviews with the killers, the police, and key members of the prosecution, alongside careful analysis of the cases themselves, the reader is given unprecedented insight into the most diabolical minds that humanity has to offer. Extending from lonesome outsiders to upstanding members of the community, *Talking with Serial Killers: World's Most Evil* shows that the world's most monstrous killers may be far closer than you think.

Perspectives on Evil ,2019-10-07 This interdisciplinary study takes a real-life look at evil deeds and evil nature, from the Global Financial Crisis to the Rwanda Genocide and beyond. The authors share their personal and poignant views on evil.

The Problem of Evil in Early Modern Philosophy Elmar J. Kremer,Michael John Latzer,2001-01-01 Many distinct, controvertial issues are to be found within the labyrinthine twists and turns of the problem of evil. For philosophers of the seventeenth and early eighteenth centuries, evil presented a challenge to the consistency and rationality of the world-picture disclosed by the new way of ideas. In dealing with this challenge, however, philosophers were also concerned with their positions in the theological debates about original sin, free will, and justification that were the legacy of the Protestant Reformation to European intellectual life. Emerging from a conference on the problem of evil in the early modern period held at the University of Toronto in 1999, the papers in this collection represent some of the best original work being done today on the theodicies of such early modern philosophers as Leibniz, Suarez, Spinoza, Malebranche, and Pierre Bayle.

A History of Modern Liberty James Mackinnon,1908

Axis of Evil and Rogue States Glen Segell,2005 The legendary spy thriller from bestselling author Robert Littell—whose newest book, *The Company*, is receiving rave reviews and acclaim—is finally back in print. Fans, reviewers, and booksellers will cheer. This first novel, originally published in 1973, established Littell as a master and immediately elevated him to the ranks of John le Carré, Len Deighton, and Graham Greene. The Defection of A. J. Lewinter is a masterpiece of irony and intrigue, an unconventional and gripping anatomy of a defection. A. J. Lewinter is an American scientist, for years an insignificant cog in America's complex defense machinery. While

at an academic conference in Tokyo, he contacts the KGB station chief and tells him he wants to defect. He tantalizes the Russians with U.S. military secrets he claims to possess, but is his defection genuine? Neither the Russians nor the Americans are sure and Lewinter is swept up in a terrifying political chess match of deceit and treachery. Each side struggles to anticipate its opponent's next move and the superpowers are locked in a deadly contest that exploits friendships, destroys loyalties, and manipulates human beings as expendable pawns. Deft and dazzlingly plotted, this is the book that introduced Robert Littell-the opening shot of a brilliant career.

Man—the Measure of Good and Evil Leonid Goutsalenko,2011-02-24 The readers: a Fellow of the National Academy of Sciences of Belarus, PhD, professor A.N. Danilov, PhD, professors Y.A. Gousev, A.N. Elsukov, P.G. Martysuk. An eternally actual problem of Good and Evil is considered in the context of a great idea of an ancient Greek thinker Protagoras, the author of the Constitution of one of the first world democracies, a founder of social philosophy, a contemporary of Socrates. Unfortunately, the sense of his doctrine, enclosed in the formula “man is the measure of all things”, has not yet investigated enough and estimated at its true worth in proportion to significance for the fate of man and the mankind. In the suggested publication this idea is being uncovered as a measured principle of a social reality construction, and internal antipathy of man’s measure- as the main source of self-movement of individual and social forms of people’s life, the main reason of their achievements and failure. The book is intended for researchers in the humanities and natural sciences, teachers, graduate students, students - everyone who is interested in what is happening in our extremely unsettled world and why.

The Many Faces of Evil Amélie Rorty,2001 The first anthology to present the range of the forms of evil, from vice, sin, cruelty and crime to disobedience and wilfulness. The readings are drawn from an array of perspectives and each one is introduced and set in context by the author.

Portuguese Modernisms Steffen Dix,2017-07-05 For a more encompassing and stimulating picture of Modernism seen as a movement of the 20th century, a broad spectrum of work across many countries we must explore its diversity. Portuguese Modernism manifested itself both in visual art and in literature, and made a vigorous contribution to this time of profound cultural change. Indeed, the sociocultural transformations that marked the early 20th century in Portugal are still current. This volume provides a critical guide for students and teachers, contributed by an array of scholars with unparalleled knowledge of the period, its artists and its writers. Steffen Dix is Research Fellow at the Institute of Social Science, University of Lisbon; Jeronimo Pizarro is Research Fellow at the Linguistics Centre, University of Lisbon.

Everyday Psychic Defense Cassandra Eason,2017-06-08 Protect Yourself and Your Loved Ones with Easy and Effective Magic Discover how to detect and deflect free-floating negativity, send deliberate malice back to its source, and cast protections around your home, family, workspace, and valuables—all without damaging your karma. Everyday Psychic Defense provides everything you need to feel more confident and secure against negative influences, including curses, evil or restless spirits, and emotionally draining people or situations. Providing helpful spells, methods to devise your own spells, and techniques for using household items, this accessible book shows how you can push back with the powers of the mind and spirit. Each chapter explains how a particular form of defensive magic works and suggests simple but powerful harm-repelling spells and daily defenses. Psychic protection can also be a springboard that opens new opportunities for spiritual growth and improved relationships.
