Wildfire Alianor True,2013-04-10 During the summer of 2000, Americans from coast to coast witnessed the worst fire season in recorded history. Daily news reports brought dramatic images of vast swaths of land going up in smoke, from the mountains of Montana and Wyoming, to the scrublands of Texas, to Los Alamos, New Mexico, where a controlled burn gone awry threatened forests, homes, and even our nation's nuclear secrets. As they have for centuries, wildfires captured our attention and our imagination, reminding us of the power of the natural forces that shape our world. In *Wildfire: A Reader* nature writer and wildland firefighter Alianor True gathers together for the first time some of the finest stories and essays ever written about wildfire in America. From Mark Twain to Norman Maclean to Edward Abbey, writers featured here depict and record wildfires with remarkable depth and clarity. An ecological perspective is well represented through the works of John Muir, Aldo Leopold, and John McPhee. Ed Engle, Louise Wagenknecht, and Gretchen Yost, firefighters from the front lines, give us exciting first-person perspectives, reliving their on-the-ground encounters with forest fires. The works gathered in *Wildfire* not only explore the sensory and aesthetic aspects of fire, but also highlight how much attitudes have changed over the past 200 years. From Native Americans who used fire as a tool, to early Americans who viewed it as a frightening and destructive force, to Aldo Leopold and other conservationists whose ideas caused us to rethink the value and role of fire, this rich collection is organized around those shifts in thinking. Capturing the fury and the heat of a raging inferno, or the quiet emergence of wildflowers sprouting from ashes, the writings included in *Wildfire* represent a vital and compelling addition to the nature writing and natural history bookshelf.

Lies Like Wildfire Jennifer Lynn Alvarez,2022-06-07 An intense high-stakes story about five friends and the deadly secret that could send their lives up in flames, perfect for fans of Karen McManus and E. Lockhart. “Five fiery stars for this bingeable, edge-of-your-seat, twisty thriller.”—NATASHA PRESTON, New York Times bestselling author of *The Lake In Gap Mountain*, California, everyone knows about fire season. And no one is more vigilant than 18-year-old Hannah Warner, the sheriff's daughter and aspiring FBI agent. That is until this summer. When Hannah and her best friends accidentally spark an enormous and deadly wildfire, their instinct is to lie to the police and the fire investigators. But as the blaze roars through their rural town and towards Yosemite National Park, Hannah's friends begin to crack and she finds herself going to extreme lengths to protect their secret. Because sometimes good people do bad things. And if there's one thing people hate, it's liars.

Wildfire Taylor Morrison,2006 Takes a comprehensive look at forest fires, their causes and the methods used to control them.

Redwood and Wildfire Andrea Hairston,2022-02-01 Andrea Hairston's alternate history adventure, *Redwood and Wildfire*, is the winner of the Otherwise Award and the Carl Brandon Kindred Award. At the turn of the 20th century, minstrel shows transform into vaudeville, which slides into moving pictures. Hunkering together in dark theatres, diverse audiences marvel at flickering images. Redwood, an African American woman, and Aidan, a Seminole Irish man, journey from Georgia to Chicago, from haunted swampland to a city of the future. They are gifted performers and hoodoo conjurors, struggling to call up the wondrous world they imagine, not just on stage and screen, but on city streets, in front parlors, in wounded hearts. The power of hoodoo is the power of the community that believes in its capacities to heal. Living in a system stacked against them, Redwood and Aidan's power and talent are torment and joy. Their search for a place to be who they want to be is an exhilarating, painful, magical adventure. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Wildfire Scott Thybony,2002 Wildfire is a natural phenomenon that has crept closer to humans as humans have moved into its natural habitat. Now we live with its threat every long, hot summer. Learn about wildfire's natural place in the environment, how we fight it, and how we live with it.

Wildfire Heather Hansen,2018-02-07 The author was embedded with one of the busiest wildfire crews in the United States Reveals wildfires through the experiences of the people who go face-to-face with them Focuses on challenges faced in Western states. Every year wildfires ravage forests, destroy communities, and devastate human lives, with only the bravery of dedicated firefighters creating a barrier against even greater destruction. Throughout the 2016 wildfire season, journalist Heather Hansen witnessed firsthand the heroics of the Station 8 crew in Boulder, Colorado. She tells that story here, layered with the added context of the history, science, landscape, and human behavior that, year-by-year, increases the severity, frequency, and costs of conflagrations in the West. She examines the changes in both mindset and activity around wildfires and tracks the movement from wildfire as something useful, to something feared, to something necessary but roundly dreaded. Wildfire shares the drama, hardships, and experiences of the firefighters who try, sometimes in vain, to prevent destruction when a spark flares out of control. Hansen tells the rich and frightening stories of the firefighters themselves and the challenges they face: a safety system struggling to keep up with fire seasons that are lengthening, fires that are becoming more extreme, and agencies that are struggling to cover the bills.

Paradise Lizzie Johnson,2022-08-16 The definitive firsthand account of California's Camp Fire, the nation's deadliest wildfire in a century, *Paradise* is a riveting examination of what went wrong and how to avert future tragedies as the climate crisis unfolds. “A tour de force story of wildfire and a terrifying look at what lies ahead.”—San Francisco Chronicle (Best Books of the Year) On November 8, 2018, the people of Paradise, California, awoke to a mottled gray sky and gusty winds. Soon the Camp Fire was upon them, gobbling an acre a second. Less than two hours after the fire ignited, the town was engulfed in flames, the residents trapped in their homes and cars. By the next morning, eighty-five people were dead. As a reporter for the San Francisco Chronicle, Lizzie Johnson was there as the town of Paradise burned. She saw the smoldering rubble of a historic covered bridge and the beloved Black Bear Diner and she stayed long afterward, visiting shelters, hotels, and makeshift camps. Drawing on years of on-the-ground reporting and reams of public records, including 911 calls and testimony from a grand jury investigation, Johnson

provides a minute-by-minute account of the Camp Fire, following residents and first responders as they fight to save themselves and their town. We see a young mother fleeing with her newborn; a school bus full of children in search of an escape route; and a group of paramedics, patients, and nurses trapped in a cul-de-sac, fending off the fire with rakes and hoses. In Paradise, Johnson documents the unfolding tragedy with empathy and nuance. But she also investigates the root causes, from runaway climate change to a deeply flawed alert system to Pacific Gas and Electric's decades-long neglect of critical infrastructure. A cautionary tale for a new era of megafires, Paradise is the gripping story of a town wiped off the map and the determination of its people to rise again.
