**When Islam and Democracy Meet: Muslims in Europe and in the United States** Jocelyne Cesari, 2004-12-09 Exploring the woefully neglected reality of Islam as a major cultural and religious facet of American and European politics and societies, Cesari examines how Muslims in the West are challenging the notion of an inevitable clash or confrontation. With nearly twelve million Muslims living in the larger countries of Western Europe and almost six million in America, the challenges of integrating newcomers within different countries, and the place of Islam in democratic and secular context in the post 9/11 context, have become more pertinent. Comparing the interaction of Muslims with their new countries, this book addresses the implications of increased Islamic visibility, violent clashes, beneficial cooperation, and questions within the Muslim community about their role and the role of Islam in democratic states. Pursuing a holistic approach to Muslims as a new minority within western democracy, Cesari provides important insights.

*Sports around the World [4 volumes]* John Nauright, 2012-04-06 This multivolume set is much more than a collection of essays on sports and sporting cultures from around the world: it also details how and why sports are played wherever they exist, and examines key charismatic athletes

from around the world who have transcended their sports. *Sports Around the World: History, Culture, and Practice* provides a unique, global overview of sports and sports cultures. Unlike most works of this type, this book provides both essays that examine general topics, such as globalization and sport, international relations and sport, and tourism and sport, as well as essays on sports history, culture, and practice in world regions—for example, Latin America and the Caribbean, the Middle East and North Africa, Europe, and Oceania—in order to provide a more global perspective. These essays are followed by entries on specific sports, world athletes, stadiums and arenas, famous games and matches, and major controversies. Spanning topics as varied as modern professional cycling to the fictional movie *Rocky* to the deadly ball game of the ancient Mayans, the first three volumes contain overview essays and entries for specific sports that have been and are currently practiced around the world. The fourth volume provides a compendium of information on the winners of major sporting competitions from around the world. Readers will gain invaluable insights into how sports have been enjoyed throughout all of human culture, and more fully comprehend their cultural contexts. The entries provide suggestions for further reading on each topic—helpful to general readers, students with school projects, university students and academics alike. Additionally, the four-volume *Sports Around the World* spotlights key charismatic athletes who have changed a sport or become more than just an outstanding player.

**Second Language Acquisition of Articles** María del Pilar García Mayo, Roger Hawkins, 2009-07-29 The studies in this collection address a topic that has recently become the focus of considerable interest in second language acquisition (SLA) research: the acquisition of articles. Languages appear to vary in whether they have articles (English, German, Norwegian do, but Chinese, Japanese, Russian do not). Languages that have articles also appear to divide into those that realise definiteness (e.g. English) and those that realise specificity (e.g. Samoan). When speakers of one type of language learn an L2 of a different type, issues of central concern to SLA research arise: the nature of L1 influence, the time course of development, ultimate attainment, the relationship between performance and competence, and the role of Universal Grammar. These issues are considered in nine studies, written by researchers whose work is at the forefront of enquiry, that offer new data, new perspectives and new insights into the way L2 speakers acquire articles.

**Late Jurassic Margin of Laurasia—A Record of Faulting** Thomas H. Anderson, Alexei N. Didenko, Cari L. Johnson, Alexander I. Khanchuk, James H. MacDonald Jr., 2015 The objective of this volume is to characterize geologic relationships and settings at the margin of the Laurasia plate from Middle Jurassic to the Early Cretaceous, overlapping the time of the opening of the central Atlantic basin, with the intent of assessing the compatibility of the features with contemporaneous, sinistral fault movement--Introduction, page v.

**Rethinking Reduction** Francesco Cangemi, Meghan Clayards, Oliver Niebuhr, Barbara Schuppler, Margaret Zellers, 2018-06-25 Phonetically reduced forms are plentiful, theoretically interesting, and a key challenge for automatic speech recognition systems. Yet canonical forms are still central to models of production and perception. Drawing from different fields and diverse languages, this volume brings new insights to the debate on abstractions and canonical forms in linguistics: their psychological reality, descriptive adequacy, and technical implementability.

**Ancestral North** Ross Hagen, Mathias Nordvig, 2024-05-15 This book explores the world of Nordic ritual folk music, including Viking reenactments, neopagan spiritualities, and creative musical anachronisms.

**The Pirate Queen** Barbara Sjöholm, 2015-04-07 The Pirate Queen begins in Ireland with the notorious Grace O'Malley, scourge to the most powerful fleets of sixteenth-century Europe. This Irish clan chieftain and pirate queen was a contemporary of Elizabeth I, and a figure whose life is the stuff of myth. Regularly raiding English ships caught off Ireland's west coast, she commanded two hundred men (and a couple of husbands), and acquired lands and castles that still dot the Irish coastline today. But Grace O'Malley was not alone—especially in the waters of the North Atlantic, where author Barbara Sjöholm traveled through coastal communities and seafaring ports to collect these little-known stories. Since ancient times, women have rowed and sailed, commanded and fished, built boats, and owned fleets. The Pirate Queen brings some of these extraordinary heroines back to life, including Leif Eiríksson's explorer sister Freydís, and Trouser-Beret, the Norwegian fishing captain. Sjöholm takes readers on an unforgettable journey from the wild Irish coast through the lonely Shetlands and Faroes to the haunting fjords of Iceland and Norway, in this meticulously researched, colorfully written, and truly original work.

**Taliban and Anti-Taliban** Farhat Taj, 2011-05-25 Federally Administered Tribal Areas (FATA) of Pakistan has been in the spotlight since 9/11. This tiny piece of land is crucial to all: a determinant of the military outcome in Afghanistan for international community; a strategic space for its hostile ally, Pakistan, for its ambitions in Afghanistan and beyond; a home to al-Qaeda, a special place in its mythology. Prospects of international and regional peace hinge on the situation in FATA; understanding its people and their ground reality has, thus, been more important than ever. Based on extensive ground research in FATA, Taliban and Anti-Taliban reveals the indigenous tribal people's blood-soaked relationships with the Taliban, Al-Qaida and the Pakistani military establishment and its intelligence apparatus. The book uncovers the heroic armed and non-violent struggle of the local population against the Taliban and Al-Qaida. It also documents the tribesmen's feedback on some of the high profile literature authored in relation to FATA since 9/11 and exposes serious drawbacks in the writings of some of the famous FATA "experts" in the world. Tribal resistance to the Taliban and Al-Qaida has been widely ignored in international academic and policy discourse, and in media reporting on the war on terror. Knowledge and understanding of this resistance is immensely important for people in the wider world to determine friends and foes in the global war on terror. Taliban and Anti-Taliban fills the void for the first time since 9/11. This book is a must read for anyone and everyone interested in knowing what is going on inside FATA, the region dubbed as "the most dangerous place in the world" by the US.
