The Wine Cellar Manual Keith Power,Joyce Power,1991

*The Complete Wine Cellar System* Perseus,2003-10-02 Enables the user to organize a wine collection and create a restaurant-style wine list using the parchment paper provided in the binder.

Bacchus and Me Jay McInerney,2002-03-12 Jay McInerney on wine? Yes, Jay McInerney on wine! The best-selling novelist has turned his command of language and flair for metaphor on the world of wine, providing this sublime collection of untraditional musings on wine and wine culture that is as fit for someone looking for “a nice Chardonnay” as it is for the oenophile. On champagne: “Is Dom Pérignon worth four bottles of Moët & Chandon? If you are a connoisseur, a lover, a snob, or the owner of a large oceangoing craft, the answer . . . is probably yes.” On the difficulty of picking a wine for a vegetarian meal: “Like boys and girls locked away in same-sex prep schools, most wines yearn for a bit of flesh.” On telling the difference between Burgundy and Bordeaux: “If it’s red, French, costs too much, and tastes like the water that’s left in the vase after the flowers have died, it’s probably Burgundy.” On the fungus responsible for the heavenly flavor of the dessert wine called Sauternes: “Not since Baudelaire smoked opium has corruption resulted in such beauty.” Includes new material plus recommendations on the world’s most romantic wines and the best wines to pair with a meal

How and Why to Build a Wine Cellar Richard Gold,2008-10-01 This popular classic, which is based on the author's personal experiences of building a wine cellar in his home and collecting wines for fun and investment, is now completely updated for the modern wine collector. All of the essential construction specifications to maintain the ideal temperature and humidity conditions for long-term storage of wine are provided for the home craftsman or professional contractor. Insulation, refrigeration, and passive systems are detailed and the construction of racks and storage bins is also explained with helpful illustrations. A practical guide to selecting, recording, tracking, and enjoying your wines at their peak performance is included.

Wine, the Vine and the Cellar Thomas George Shaw,1863

Stalin's Wine Cellar John Baker,Nick Place,2020-08-18 In the late 1990s, John Baker was known as a purveyor of quality rare and old wines. Always entrepreneurial and up for adventure, he was the perfect person for an occasional business partner to approach with a mysterious wine list that was foreign to anything John, or his second-in-command, Kevin Hopko, had ever come across. The list was discovered to be a comprehensive catalogue of the wine collection of Nicholas II, the last Tsar of

Russia. The wine had become the property of the state after the Russian Revolution of 1918, during which Nicholas and his entire family were executed. Now owned by Stalin, the wine was discreetly removed to a remote Georgian winery when Stalin was concerned the advancing Nazi army might overrun Russia, and inevitably loot artefacts and treasures. Half a century later, the wine was rumoured to be hidden underground and off any known map. John and Kevin embarked on an audacious, colourful and potentially dangerous journey to Georgia to discover if the wines actually existed; if the bottles were authentic and whether the entire collection could be bought and transported to a major London auction house for sale. Stalin's Wine Cellar is a wild, sometimes rough ride in the glamorous world of high-end wine. From Double Bay Sydney to Tbilisi Georgia, via the streets of Paris, the vineyards of Bordeaux and iconic Château d'Yquem. A multimillion dollar cellar and a breathtaking collection of wine (and one very expensive broken bottle) is the elusive treasure. The cast of characters include Stalin, Hitler, Tsar Nicholas II and a motley bunch of Georgian businessmen/cowboys toting handguns, in the early days of Russian business development that led to the world of Putin and oligarchs.

Winemaking Richard P. Vine, Bruce Bordelon, Ellen M. Harkness, Theresa Browning, 2013-06-29

During the past several decades considerable interest has developed in the United States for the wines that are produced in small wineries across our nation. This interest continues to intensify, especially for the truly good wines that are reasonably priced. Consumers are unforgiving. Second-class wines will not be acceptable just because a vintner may be newly established. The functions that must take place in the small estate-type wine cellar and the controls that can be realistically exercised by winemasters are essential in the creation of superior products. Although wine can be a comparatively simple food to produce, it is a very vast topic. Perhaps much the same as with other art forms, it is the infinite variability of factors at the root of the subject that renders it so complex. There are hundreds of different vine varieties cultivated around the world, and doubtlessly an even greater number of fruit and berry cultivars. Combined with such factors as soils, climates and mesoclimates (which may change with each vintage season), cultivation techniques, harvesting criteria, and overall operational philosophy, one can easily understand the enormous breadth and depth of variation which exists. This diversity, along with more than 5 years of enological development, generates a number of different wine possibilities that can only be conceived as something vastly exponential.

**How and Why to Build a Wine Cellar** Richard M. Gold, Ph. D.,1985 This popular classic, which is based on the author's personal experiences of building a wine cellar in his home and collecting wines for fun and investment, is now completely updated for the modern wine collector. All of the essential construction specifications to maintain the ideal temperature and humidity conditions for long-term storage of wine are provided for the home craftsman or professional contractor. Insulation, refrigeration, and passive systems are detailed and the construction of racks and storage bins is also explained with helpful illustrations. A practical guide to selecting, recording, tracking, and enjoying your wines at their peak performance is included.

**Wine Cellars** Tina Skinner,Melissa Cardona,2004 This thorough and inspiring book provides a vicarious tour of the best in wine bottle storage. Visit more than 100 absolutely stunning, private wine cellars in over 200 beautiful color photographs. Peruse racking systems, tasting tables, and artful touches, created by leading wine cellar designers, including Paul Wyatt, Kathleen Valentini, Gary LaRose, and Doug Smith. Additionally, this is a guidebook to wine cellars in some of the world's most renowned hotels and restaurants, where private parties can reserve a table and dine amidst coveted vintages. The book also visits handsome displays in restaurants that showcase wine programs to customers. The result is thousands of wonderful ideas for wine storage and display. This is the first work of its kind, making it an invaluable guide for architects, designers, and discerning homeowners and restaurateurs.

Wine Cellar Design Tina Skinner,2007-11 Over 300 images of wine cellars immerse you into the stylish and impressive world of today's vintage connoisseur. A wine cellar is becoming a standard feature of today's luxury home. The ability to invest in fine wines, to age them properly, and to have

them on hand for entertaining is a luxury more people can afford. This book is packed with ideas and technical information for designing safe, stylish, beautiful wine cellars. Essays by leading designers and a section detailing the proper construction of a wine cellar make this an invaluable reference.

A Hedonist in the Cellar Jay McInerney,2006 The popular novelist and wine connoisseur brings together five years of essays on fine wine, examining what's new, what's enduring, and what's surprising in an idiosyncratic, anecdotal guide to the world of wine. 25,000 first printing.
