Ghost Wineries of Napa Valley Irene W. Haynes,1999-10-01 Extensively researched by a resident grape grower and historian, this is the fascinating photographic tour of historic Napa wineries. The historical details and photographs of more than 65 wineries bring vision of the vibrant California wine industry of more than 100 years ago and the roots of many of today's great vintners are exposed in these photos and historical vignettes.

Seasons of a Finger Lakes Winery John C. Hartsock,2011-04-15 June is a time when the vineyardist thins and trains shoots, which seem to grow inches a day. During thinning and training one learns intimately about the personality of the grapevine. It is a strange creature, and one can see why in ancient Greece and Rome it represented the cycles of life. The bark on the main trunk tends to be cracked and crumpled, hanging in threads in some places, and reminiscent of a withered old man. It's not pretty to look at. But the vine comes to life in the smooth brown canes that were young growth the year before, and then in the tender, rubbery green shoots of the current season. In 1998, Gary and Rosemary Barletta purchased seven acres of land on the eastern shore of Cayuga Lake. Descending to the west from the state route that runs along on the ridge overlooking the lake, the land was fertile, rich with shalestone and limestone bedrock, and exposed to moderating air currents from the lake. It was the perfect place to establish a vineyard, and the Barlettas immediately began to plant their vines and build the winery about which they had dreamed for years. The Barlettas' story, as John C. Hartsock tells it, is a window onto the world of contemporary craft winemaking, from the harsh realities of business plans, vineyard pests, and brutal weather to the excitement of producing the first vintage, greeting enthusiastic visitors on a vineyard tour, and winning a gold medal from the American Wine Society for a Cabernet Franc. Above all, Seasons of a Finger Lakes Winery describes the connection forged among the vintner, the vine, and terroir. This ancient bond, when tended across the cycle of seasons, results in excellent wines and the satisfaction, on the part of the winemaker and the wine enthusiast, of tasting a perfect harvest in a single glass. Today, Long Point Winery sits on seventy-two acres (eight of which are under cultivation with vinifera grapes) and produces sixteen varieties of wine, a number of which are estate wines made from grapes grown on their property. With interest in winemaking continuing to grow, the Barlettas' experience of making award-winning wines offers both practical advice for anyone running (or thinking of running) their own winery, whether in the Finger Lakes or elsewhere, as well as insights into the challenges and joys of pursuing a dream.

Local Vino James R Pennell,2017-02-15 The art and craft of winemaking has put down roots in Middle America, where enterprising vintners coax reds and whites from the prairie earth while their businesses stand at the hub of a new tradition of community and conviviality. James R. Pennell tracks among the hardy vines and heartland terroir of wineries across Illinois, Iowa, Indiana, and Ohio. Blending history and observation, Pennell gives us a ground-up view of the business from cuttings and cultivation to sales and marketing. He also invites entrepreneurs to share stories of their ambitions, hard work, and strategies. Together, author and subjects trace the hows and whys of progress toward

that noblest of goals: a great vintage that puts their winery on the map.

Sonoma County Wineries Thomas Maxwell-Long, 2001 As early as the California Gold Rush of the mid-19th century, the first settlers of Sonoma County recognized that the rich soil and unique array of climates of the region's valleys were particularly conducive for the ages-old livelihood of viticulture. Beginning in 1857 with Buena Vista Winery, Sonoma became one of the preeminent winemaking regions in the world. Chronicled here in over 200 vintage images is Sonoma's wine producing history, covering its many wineries, vineyards, towns, and townsfolk that grew up alongside the development of this fantastic agricultural enterprise. The first Sonoma Country venture was Buena Vista Winery, founded in 1857 by the eccentric Count Agoston Haraszthy. Since then, and over the course of the next 150 years, hundreds of wineries would dot the landscape; while some succeeded and lasted through the years, others fell in the face of life's trials, including earthquakes, wildfires, and Prohibition. Covering three centuries of award-winning winemaking, this new book captures in photographs the history of some of the world's most famous wineries, their proprietors, workers, and families, including those from Korbel, Geyser Peak, Simi, Sebastiani, Pedroncelli, Orr, Seghesio, and Ravenswood.

The Vineyard Louisa Thomas Hargrave, 2003 In the tradition of Peter Mayle and Frances Mayes, *The Vineyard* is a charming memoir of starting the first Long Island winery, and the bittersweet story of how one couple fulfilled their dream.

Wineries of Santa Clara Valley Bev Stenehjelm, 2015 The Santa Clara Valley was the first premier wine production region in California. The valley's history of winemaking dates back to 1777, when Spanish padres founded Mission Santa Clara and planted their grape cuttings in order to make wine for religious purposes. Immigrants from around the world, following the American dream, were soon lured to the Santa Clara Valley for its rich soil and ideal growing climate. These immigrants brought centuries of winemaking traditions, passed down through the generations.

A Sense of Place Steven Kolpan, 2013-02-01 In *A Sense of Place*, renowned wine expert and writer Steven Kolpan tells the story of how Francis Ford Coppola brought California's

most distinguished and historic vineyard back to life. Gustave Niebaum's Inglenook Estate, started in 1879, was one of the Napa Valley's first established vineyards and the birthplace of its premium wine industry. Generations after Niebaum's death, the vineyard was sold to Heublein, the wine and spirits monolith, who broke up the land and changed the Inglenook brand from a premium, connoisseur wine to a mass-market jug wine. In 1975, Francis Coppola bought the Niebaum residence and the surrounding estate. Along with the original estate's reputation, he also brought back some of its original workers, including Rafael Rodriguez, who, in his late seventies, now serves as the vineyard manager and historian. Coppola overcame naysayers, red tape, and financial turmoil to reestablish the winery as a defender of quality, producing wine under four different labels, including the revered wine Rubicon. In 1995, Coppola purchased the Inglenook Chateau and its adjacent vineyards, fulfilling his dream of reuniting the original Napa Valley estate. Kolpan's luscious, flavorful narrative is worth enjoying now and keeping for later.

A Perfect Score Kathryn Hall, Craig Hall, 2016-09-13 A lively husband and wife team recounts their twenty-year climb from amateur winemakers to recipients of an almost unheard-of perfect score from Robert Parker's *Wine Advocate*. Kathryn and Craig Hall launched themselves head first into Napa Valley 20 years ago with the purchase of an 1885 winery and never looked back. Since the couple's purchase of their debut winery, their critically acclaimed HALL Wines and WALT Wines have become fixtures of the California wine industry, winning numerous accolades including a coveted 100-point perfect score. A PERFECT SCORE weaves a vibrant tale of the HALL brand's meteoric rise to success, Napa Valley's tug-of-war between localism and tourism, and the evolving nature of the wine industry as a whole. Readers who love a good glass of wine will find much to savor in the Halls' expert account of the art, soul, and business of a modern winery.

Wineries of the Texas Hill Country Plus One Fine Brewery John F. Aceti, Many people who visit wineries in the Texas Hill Country know and enjoy the social aspect of drinking a glass of exquisite wine along with some delicious food. Friends, spouses and even family members consider wineries as a sophisticated place to interact and socialize in a comfortable setting. Many of the owners have designed their tasting areas as places of enjoyment and cheerfulness. While drinking quality wines one can also view pieces of art on the walls, a great variety of wine related gifts, clothing and books. Many tour vehicles for "special groups" can be seen in parking areas at all the wineries. On some days one needs to drive around awhile to find an open space. For those who have not visited a winery, I can assure you that it is a unique experience and you will probably make some repeated visits. People who drink wine and travel in the United States or abroad tend to visit wineries wherever they travel. You may even walk out with a bottle or two of your

favorite wine!!

Sonoma County Wineries Gail G. Unzelman, 2006 Sonoma County, where California's state flag first flew, is also the birthplace of Northern California's wine industry. This vintage postcard journey reveals some of that rich history in its trek through Sonoma County's fertile plains and sun-drenched hillsides, from the vintners' cradle in the town of Sonoma, to its northernmost frontier near Cloverdale. Stops along the route include Glen Ellen and the Valley of the Moon, the Russian River valleys, and such industry giants as Italian-Swiss Colony and the California Wine Association. Once boasting the world's largest vineyard, wine tank, and grape arbor, Sonoma County has long bested its more famous neighbor in number of wineries and grape acreage. Texas Hill Country Wineries Russell D. Kane, 2015-01-19 The Texas Hill Country wineries have roots as old as any around. Texas grapes grow in soils made from ancient sea deposits, similar to the grape-growing regions of Europe. Texas wine culture arrived in the 1600s with Spanish missionaries who settled and planted vineyards in El Paso del Norte. The 1800s brought German and Italian immigrant farmers to Texas; they considered wine a staple of everyday life. In what is now America's No. 5 wine-producing state, the Texas Hill Country was named by Wine Enthusiast magazine to its 2014 list of best international wine destinations. It may surprise some, but not the wine aficionados who have visited the Texas Hill Country's 50 or more wineries, that wine-and-culinary tourism is currently the Texas Hill Country's fastest growing sector. This book is your guide to the Texas Hill Country winery experience. It is time to sip and savor Texas for yourself.

Concepts in Wine Technology: Small Winery Operations Yair Margalit, 2012-10-01 Following up on his bestselling Winery Technology and Operations, physical chemist and winemaker Yair Margalit comes out with the successive, Concepts in Wine Technology, fully updated and revised to meet the advances of modern winemaking. Among the extended topics are fermentation, skin contact, acid balance, phenolics, bottling, the use of oak and quality control. He begins in the vineyard discussing proper maturation, soil and climate, bunch health, vineyard disease states, and grape varieties. Next he tackles the preharvest with a careful look at vineyard management and preparing the winery for harvest. Dr. Margalit then outlines the entire process of harvesting, from destemming, crushing, and skin contact as it applies to both red and white grapes to pressing, must correction, and temperature control. Fermentation is examined fully and

includes a lengthy look at the factors affecting malo-lactic fermentation and its pros and cons. There is a chapter on cellar operations that deals with racking, stabilization, fining, filtration, blending, and maintaining winery hardware, followed by sections on barreling and bottling. The final chapter pulls together the more general aspects of wine technology, covering sulphur-dioxides, different forms of wine spoilage and ways to ward them off, legal regulations and, one of the most important and enigmatic compounds in wine, phenolics.

The Vineyard Years Susan Sokol Blosser, 2017-10-10 This book chronicles the personal journey of pioneering female winery owner Susan Sokol Blosser, from deciding on a whim to grow wine grapes in the early 1970s, to the trials and tribulations of starting her family-owned winery, Sokol Blosser, in the then little-known Willamette Valley, to the transfer of leadership from the first generation to the present. The themes of feminism, love, and loss are woven throughout the candidly rendered tale, which is interspersed with delicious recipes representing key moments in the author's life.
