Birds of Maryland, Delaware, and the District of Columbia Bruce M. Beehler,2019-03-26 More than 600 lush, stunning photos grace this comprehensive handbook to the birdlife of the Mid-Atlantic region. A Great Blue Heron wades in the shallows of the Potomac River, scanning for unsuspecting prey. Sunlight turns the water translucent as a small school of fish rises to the water's surface. The heron strikes and moments later is swallowing its quarry—predation in action! This handsome Great Blue Heron is but one of the more than 400 bird species found in Delaware, Maryland, and the District of Columbia. It shares the mid-Atlantic with kingfishers, eagles, mergansers, wood warblers, and many more. Exploring backyard birds, birds of prey, and birds of the open ocean, Smithsonian ornithologist Bruce Beehler and premier nature photographer Middleton Evans have crafted a comprehensive volume unparalleled in its beauty and captivating storytelling. *Birds of Maryland, Delaware, and the District of Columbia* invites readers to experience the birds' lives as they live them: where they nest, how they forage, their various behaviors, and the natural environments they need to survive. Beehler offers practical advice on bird-watching, including how to find, attract, and even garden for birds, as well as the best places to see them in season. He also discusses the best birding apps, websites, and gear; provides advice on planning a birding field trip; and recommends ornithological institutions that will help you cultivate a lifelong birding hobby. Finally, Beehler challenges the reader to think about conservation efforts to preserve local bird populations. With striking color photographs of more than 400 species, this book is a bonanza for nature lovers. A wealth of images immerse the reader in the world of these wonderful creatures. Marvel at the majesty of Ospreys, navigate the ocean with storm-petrels, and nest with Mourning Doves, all while learning about the richness of the birds' lives, the complexities of their habits, and how we can help keep their populations vibrant and aloft for generations to come.

Clipped Wings Deborah Ancell,2016-10-04 Within the developed world, airlines have responded to the advice of advocates for corporate social and environmental responsibility (CSER) to use the intertwined dimensions of economics, society and environment to guide their business activities. However, disingenuously, the advocates and regulators frequently pay insufficient attention to the economics which are critical to airlines' sustainability and profits. This omission pushes airlines into the unprofitable domain of CSERplus. The author identifies alleged market inefficiencies and failures, examines CSERplus impacts on international competition and assesses the unintended consequences of the regulations. She also provides innovative ideas for future-proofing airlines. *Clipped Wings* is a treatise for business professionals featuring academic research as well as industry anecdotes. It is written for airlines (including their owners, employees, passengers and suppliers), airports, trade associations, policy makers, educators, students, consultants, CSERplus specialists and anyone who is concerned about the future of competitive airlines.

The Bird Almanac David Michael Bird,2004 Observing birds often raises many intriguing questions. Such as what is the incubation time for those robin eggs sitting in the nest above the porch light? What kinds of flowers attract humming birds? What are the migratory distances of various species? What are the major causes of bird deaths? The Bird Almanac is an invaluable resource, impressive in scope and depth and complemented with tables and illustrations. This Second Edition has been reformatted for easier use and now features quick-find tabs and an index. The first section of the book comprehensively covers the history, biology and behavior of birds. Bird physiology, biological systems and anatomy are explained in easy-to-understand terms and annotated illustrations. Other topics include: Fossil history of birds Reproduction and mortality Threatened and endangered species Major birding festivals and competitions How to attract specific species to the backyard Extensive resources for bird-lovers including the top birding locations in America Birding code of ethics The second section consists of an authoritative world checklist of bird species. The birds are organized by taxonomic order and listed by common and Latin name. The valuable information in *The Bird Almanac* fills in the gaps in knowledge of even the most seasoned birder.

Understanding Peace Cultures Rebecca L. Oxford,2014-03-01 Understanding Peace Cultures is exceptionally practical as well as theoretically grounded. As Elise Boulding tells us, culture consists of the shared values,

ideas, practices, and artifacts of a group united by a common history. Rebecca Oxford explains that peace cultures are cultures, large or small, which foster any of the dimensions of peace – inner, interpersonal, intergroup, international, intercultural, or ecological – and thus help transform the world. As in her earlier book, *The Language of Peace: Communicating to Create Harmony*, Oxford contends here that peace is a serious and desirable option. Excellent educators help build peace cultures. In this book, Shelley Wong and Rachel Grant reveal how highly diverse public school classrooms serve as peace cultures, using activities and themes founded on womanist and critical race theories. Yingji Wang portrays a peace culture in a university classroom. Rui Ma’s model reaches out interculturally to Abraham’s children: Jewish, Christian, and Muslim youth, who share an ancient heritage. Children’s literature (Rebecca Oxford et al.) and students’ own writing (Tina Wei) spread cultures of peace. Deep traditions, such as African performance art, Buddhism, Daoism, Confucianism and Islam, give rise to peace cultures, as shown here by John Grayzel, Sister Jewel (a colleague of Thich Nhat Hanh), Yingji Wang et al., and Dian Marissa et al. Peace cultures also emerge in completely unexpected venues, such as gangsta rap, unveiled by Charles Blake et al., and a prison where inmates learn Lois Liggett’s “spiritual semantics.” Finally, the book includes perspectives from Jerusalem (by Lawrence Berlin) and North Korea and South Korea (by Carol Griffiths) to help us envision – and hope for – new, transformative peace cultures where now there is strife.
