Winter Sun Shi Zhi,2012-09-04 Shi Zhi has been a major force in Chinese poetry since 1968, when several of his poems were circulated as secret handwritten manuscripts in the midst of China's Cultural Revolution. He gave voice to the aspirations of dispirited youth, and although once relegated to obscurity, he is today celebrated as one of China's most important cultural influences, having spawned the modern Chinese poetry revolution of the 1980s. This collection of Shi Zhi's most significant poems, featuring an afterword by the poet himself, is the first book-length publication of his work in English. Born as Guo Lusheng in 1948, at the height of the Chinese Civil War, Shi Zhi joined the People's Liberation Army at the age of twenty-three. Discharged early, he entered into a period of severe depression and spent much of the next three decades living in mental hospitals under harsh conditions. Taking the pen name of Shi Zhi, meaning "index finger," to evoke the image of people pointing at his back, he continued to write poetry through these tumultuous years, chronicling his journey from the heights of fame to the depths of institutionalism and ultimately to a final redemptive return to society in 2005. The voice of this besieged poet, burdened with exile and illness, captured the spirit of his generation and now inspires young readers. By presenting Shi Zhi's poems in chronological order, *Winter Sun* allows readers to appreciate the evolution of his poetry from his earliest work to his most recent poems. Masterfully translated by Jonathan Stalling, and with an introduction by leading

poetry critic Zhang Qinqia, this landmark collection ensures that Shi Zhi's poetry—so important to Chinese readers during the most challenging of times—will engage the hearts and minds of new readers the world over for years to come.

Dark Winter John L. Casey, 2014-08-19 Climate change has been a perplexing problem for years. In *Dark Winter*, author John L. Casey, a former White House national space policy advisor, NASA headquarters consultant, and space shuttle engineer tells the truth about ominous changes taking place in the climate and the Sun. Casey's research into the Sun's activity, which began almost a decade ago, resulted in discovery of a solar cycle that is now reversing from its global warming phase to that of dangerous global cooling for the next thirty years or more. This new cold climate will dramatically impact the world's citizens. In *Dark Winter*, he provides evidence of the following: • The end of global warming • The beginning of a "solar hibernation," a historic reduction in the energy output of the Sun • A long-term drop in Earth's temperatures • The start of the next climate change to decades of dangerously cold weather • The high probability of record earthquakes and volcanic eruptions A sobering look at Earth's future, *Dark Winter* predicts worldwide, crop-destroying cold; food shortages and riots in the United States and abroad; significant global loss of life; and social, political, and economic upheaval.

The Winter Sun Shines In Donald Keene, 2013-08-20 Rather than resist the vast social and cultural changes sweeping Japan in the nineteenth century, the poet Masaoka Shiki (1867–1902) instead incorporated new Western influences into his country's native haiku and tanka verse. By reinvigorating these traditional forms, Shiki released them from outdated conventions and made them more responsive to newer trends in artistic expression. Altogether, his reforms made the haiku Japan's most influential modern cultural export. Using extensive readings of Shiki's own writings and accounts of the poet by his contemporaries and family, Donald Keene charts Shiki's revolutionary (and often contradictory) experiments with haiku and tanka, a dynamic process that made the survival of these traditional genres possible in a globalizing world. Keene particularly highlights random incidents and encounters in his impressionistic portrait of this tragically young life, moments that elicited significant shifts and discoveries in Shiki's work. The push and pull of a profoundly changing society is vividly felt in Keene's narrative, which also includes sharp observations of other recognizable characters, such as the famous novelist and critic Natsume Soseki. In addition, Keene reflects on his own personal relationship with Shiki's work, further developing the nuanced, deeply felt dimensions of its power.

Winter Sunshine. By: John Burroughs John Burroughs, 2016-12-10 John Burroughs (April 3, 1837 - March 29, 1921) was an American naturalist and nature essayist, active in the U.S. conservation movement. The first of his essay collections was *Wake-Robin* in 1871. In the words of his biographer Edward Renahan, Burroughs' special identity was less that of a scientific naturalist than that of a literary naturalist with a duty to record his own unique perceptions of the natural world. The result was a body of work whose resonance with the tone of its cultural moment explains both its popularity at that time, and its relative obscurity since. Burroughs was the seventh of Chauncy and Amy Kelly Burroughs' ten

children. He was born on the family farm in the Catskill Mountains, near Roxbury in Delaware County, New York. As a child he spent many hours on the slopes of Old Clump Mountain, looking off to the east and the higher peaks of the Catskills, especially Slide Mountain, which he would later write about. As he labored on the family farm he was captivated by the return of the birds each spring and other wildlife around the family farm including frogs and bumblebees. In his later years he credited his life as a farm boy for his subsequent love of nature and feeling of kinship with all rural things. During his teen years Burroughs showed a keen interest in learning. Among Burroughs's classmates was future financier Jay Gould. Burroughs' father believed the basic education provided by the local school was enough and refused to support the young Burroughs when he asked for money to pay for the books or the higher education he wanted. At the age of 17 Burroughs left home to earn the money he needed for college by teaching at a school in Olive, New York. From 1854 to 1856 Burroughs alternated periods of teaching with periods of study at higher education institutions including Cooperstown Seminary; he left the Seminary and completed his studies in 1856. He continued to teach until 1863. In 1857 Burroughs left a teaching position in the small village of Buffalo Grove in Illinois to seek employment closer to home, drawn back by the girl I left behind me. On September 12, 1857, Burroughs married Ursula North (1836-1917). Burroughs later became an atheist with an inclination towards pantheism.
