The Bluegrass Conspiracy Sally Denton,2001 When Kentucky Blueblood Drew Thornton parachuted to his death in September 1985—carrying thousands in cash and 150 pounds of cocaine—the gruesome end of his startling life blew open a scandal that reached to the most secret circles of the U.S. government. The story of Thornton and “The Company” he served, and the lone heroic fight of State Policeman Ralph Ross against an international web of corruption is one of the most portentous tales of the 20th century.

One Man Band Phil Pendleton,2014-01 Phil Pendleton grew up liking to talk and tell stories. But a competition in Junior High told Phil Pendleton he should pursue a career in broadcasting. Years later he would take up a camera and microphone and cover news in a part of Kentucky some call one of the most interesting areas in the nation, all as a one man band. This is his story. How he got where he is, who helped him, and why doing it all has been a journey he'll never forget.

Southernmost Silas House,2019-06-04 “A novel for our time, a courageous and necessary book.” –Jennifer Haigh, author of *Heat and Light* In this stunning novel about judgment, courage, heartbreak, and change, author Silas House wrestles with the limits of belief and the infinite ways to love. In the aftermath of a flood that washes away much of a small Tennessee town, evangelical preacher Asher Sharp offers shelter to two gay men. In doing so, he starts to see his life anew—and risks losing everything: his wife, locked into her religious prejudices; his congregation, which shuns Asher after he delivers a passionate sermon in defense of tolerance; and his young son, Justin, caught in the middle of what turns into a bitter custody battle. With no way out but ahead, Asher takes Justin and flees to Key West, where he hopes to find his brother, Luke, whom he'd turned against years ago after Luke came out. And it is there, at the southernmost point of the country, that Asher and Justin discover a new way of thinking about the world, and a new way of understanding love. *Southernmost* is a tender and affecting book, a meditation on love and its consequences.

American Criminal Law Paul H. Robinson,Sarah M. Robinson,2022-08-12 This coursebook offers an exciting new approach to teaching criminal law to graduate and undergraduate students, and indeed to the general public. Each well-organized and student-friendly chapter offers historical context, tells the story of a principal historic case, provides a modern case that contrasts with the historic, explains the legal issue at the heart of both cases, includes a unique mapping feature describing the range of positions on the issue among the states today, examines a key policy question on the topic, and provides an aftermath that reports the final chapter to the historic and modern case stories. By embedding sophisticated legal doctrine and analysis in real-world storytelling, the book provides a uniquely effective approach to teaching American criminal law in programs on criminal justice, political science, public policy, history, philosophy, and a range of other fields.

Twilight in Hazard Alan Maimon,2021-06-08 “Twilight in Hazard paints a more nuanced portrait of Appalachia than Vance did...[Maimon] eviscerates Vance's bestseller with stiletto precision.” –Associated Press From investigative reporter and Pulitzer Prize finalist Alan Maimon comes the story of how a perfect storm of events has had a devastating impact on life in small town Appalachia, and on the soul of a shaken nation . . . When Alan Maimon got the assignment in 2000 to report on life in rural Eastern Kentucky, his editor at the Louisville Courier-Journal told him to cover the region “like a foreign correspondent would.” And indeed, when Maimon arrived in Hazard, Kentucky fresh off a reporting stint for the New York Times's Berlin bureau, he felt every bit the outsider. He had landed in a place in the vice grip of ecological devastation and a corporate-made opioid epidemic—a place where vote-buying and drug-motivated political assassinations were the order of the day. While reporting on the intense religious allegiances, the bitter, bareknuckled political rivalries, and the faltering attempts to emerge from a century-long coal-based economy, Maimon learns that everything—and nothing—you have heard about the region is true. And far from being a foreign place, it is a region whose generations-long struggles are driven by quintessentially American forces. Resisting the easy cliches, Maimon's *Twilight in Hazard* gives us a profound understanding of the region from his years of careful reporting. It is both a powerful chronicle of a young reporter's immersion in a place, and of his return years later—this time as the husband of a Harlan County coal miner's daughter—to find the area struggling with its identity and in the thrall of Trumpism as a political ideology. *Twilight in Hazard* refuses to mythologize Central Appalachia. It is a plea to move past the fixation on coal, and a reminder of the true costs to democracy when the media retreats from places of rural distress. It is an intimate portrait of a people staring down some of the most pernicious forces at work in America today while simultaneously being asked: How could you let this happen to yourselves? *Twilight in Hazard* instead tells the more riveting, noirish, and sometimes biting humorous story of how we all let this happen.

Mitch, Please! Matt Jones,2020-03-31 NEW YORK TIMES BESTSELLER THE WALL STREET JOURNAL BESTSELLER From the founder of Kentucky Sports Radio and attorney Matt Jones, a withering, humorous look at how Mitch McConnell has been bad for Kentucky—and why he needs to be voted out in 2020. They say all politics is local. In 2020, Mitch McConnell will have served five full terms as a US Senator. Thirty years. The Senate Majority leader's power is as undeniable as it is infuriating, and the people of Kentucky have had enough. Led by Matt Jones, they (and they alone) have the power to oust him from office. How did Jones, a local boy turned attorney turned sports radio host come to shine the brightest light on McConnell's ineptitude? Simple—he knows Kentucky inside and out, and has used the state's love of sports as an entry point for showcasing how McConnell has failed his fellow citizens both economically and socially for three decades. Entertaining, maddening, yet ultimately inspiring, these stories from Kentuckians in each of its 120 counties illustrate the Senate Majority leader's stunning shortcomings. Jones infuses his trademark wit and wisdom throughout, while also offering a beautiful portrait of a state with arguably the most untapped potential in our country. Ultimately, the white-hot hatred for McConnell on the coasts is just white noise. Only the people of Kentucky can remove him from office. Here, Matt Jones demonstrates he has the influence, charisma, and institutional knowledge to lead the charge. He and his fellow Kentuckians have had enough—and they're ready for a fight.

Strike for the Common Good Rebecca Kolins Givan,Amy Schrager Lang,2020-10-08 In February 2018, 35,000 public school educators and staff walked off the job in West Virginia. More than 100,000 teachers in other states—both right-to-work states, like West Virginia, and those with a unionized workforce—followed them over the next year. From Arizona, Kentucky, and Oklahoma to Colorado and California, teachers announced to state legislators that not

only their abysmal wages but the deplorable conditions of their work and the increasingly straitened circumstances of public education were unacceptable. These recent teacher walkouts affirm public education as a crucial public benefit and understand the rampant disinvestment in public education not simply as a local issue affecting teacher paychecks but also as a danger to communities and to democracy. Strike for the Common Good gathers together original essays, written by teachers involved in strikes nationwide, by students and parents who have supported them, by journalists who have covered these strikes in depth, and by outside analysts (academic and otherwise). Together, the essays consider the place of these strikes in the broader landscape of recent labor organizing and battles over public education, and attend to the largely female workforce and, often, largely non-white student population of America's schools.

The Boy Who Delivered Joy Marvin Bartlett, 2019-03-25 A rare bone cancer robbed Jarrett Mynear of a normal childhood when he was two years old, but it didn't steal his spirit. This extraordinary boy captivated crowds with his courage, faith, and humor in the face of adversity. Instead of feeling sorry for himself, Jarrett got busy. Book Review 1: "If you're looking for inspiration, look no further." -- Kentucky Living Magazine Book Review 2: "Marvin's words will stay with you long after you finish reading these pages. Managing Future Challenges for Safety Hervé Laroche, Corinne Bieder, Jesús Villena-López, 2022-09-30 This open access book addresses the future of work and industry by 2040—a core interest for many disciplines inspiring a strong momentum for employment and training within the industrial world. The future of industrial safety in terms of technological risk-management, although of obvious concern to international actors in various industries, has been quite sparsely addressed. This brief reflects the viewpoints of experts who come from different academic disciplines and various sectors such as oil and gas, energy, transportation, and the digital and even the military worlds, as expressed in debates and discussions during a two-day international seminar. The contributors address such questions as: What influence will ageing and lack of digital skills in the workforce of the occidental world have on safety culture? What are the likely impacts of big data, artificial intelligence and autonomous technologies on decision-making, and on the roles and responsibilities of individual actors and whole organizations? What role have human beings in a world of accelerating changes? What effects will societal concerns and the entrance of new players have on technological risk management and governance? *Managing Future Challenges for Safety* will interest and influence researchers considering the future effects of a number of currently developing technologies and their practitioner counterparts working in industry and regulation.

The Primary Rules Caitlin E. Jewitt, 2019-01-08 Reflecting on 2016, it might seem that the national parties have little control over how the presidential nominations unfold and who becomes their presidential candidate. Yet the parties wield more influence than voters in determining who prevails at the National Conventions. Although the reforms of the late 1960s and 1970s gave rank-and-file party members a clear voice in the selection of presidential candidates, the parties retain influence through their ability to set the electoral rules. Despite this capability, party elites do not always fully understand the consequences of the rules and therefore often promote a system that undermines their goals. *The Primary Rules* illuminates the balance of power that the parties, states, and voters assert on the process. By utilizing an original, comprehensive data set that details the electoral rules each party employed in each state during every nomination from 1976 to 2016, Caitlin E. Jewitt uncovers the effects of the rules on the competitiveness of the nomination, the number of voters who participate, and the nomination outcomes. This reveals how the parties exert influence over their members and limit the impact of voters. *The Primary Rules* builds on prior analyses and extends work highlighting the role of the parties in the invisible primary stage, as it investigates the parties' influence once the nominations begin. *The Primary Rules* provides readers with a clearer sense of what the rules are, how they have changed, their consequences, and practical guidance on how to modify the rules of the nomination system to achieve their desired outcomes in future elections.

Media Market Fouad Sabry,2024-04-07 What is Media Market A market, also known as a media market, broadcast market, media region, designated market area (DMA), television market area, or simply market, is a region in which the population has access to the same (or comparable) television and radio station offerings. Markets may also include other forms of media, such as newspapers and content from the internet. It is possible for them to correspond with or overlap with one or more metropolitan areas; however, rural regions that have a limited number of large population centers can also be recognized as markets. The opposite is also true: extremely big metropolitan areas can occasionally be divided into a number of different pieces. It is possible for market regions to overlap, which means that individuals who live on the periphery of one media market may be able to get information from other markets that are conveniently located nearby. These measurements are compiled in the United States by Nielsen Media Research, and they are utilized extensively in the process of audience measurement. Since the completion of its acquisition of Arbitron in September 2013, Nielsen has been doing audience measurements for both radio and television.
