Cups Up George T. Malvaney,2018-04-30 George T. Malvaney's life epitomizes the old maxim that You cannot make this stuff up. Combine a young Klansman from Mississippi, an armed coup attempt in the Caribbean, a stay in prison, and a life-changing epiphany, and you have but half of this swashbuckling tale. Throw in the worst man-made ecological disaster in the history of the United States, and you have unleashed Malvaney's full life story. The Klansman, the soldier of fortune, the wild-eyed prisoner transforms into a renowned leader of the Mississippi Gulf Coast cleanup effort in the wake of the BP Deepwater Horizon oil spill. In his too-crazy-not-to-be-true memoir, Malvaney chronicles what easily should be several lifetimes of adventure--and misadventure. Growing up in a close-knit family in Jackson, Mississippi, the young Malvaney preferred woods and swamps to the drudgery of high school. He dropped out, enlisted in the Navy, and shortly afterwards joined the Ku Klux Klan. While onboard, he organized a branch of the Klan, corrupting and endangering his crewmen. After his discharge, he answered a mercenary call to take part in an invasion of Dominica, a Caribbean fiasco known as the Bayou of Pigs. That madness landed him in a federal penitentiary. And there, somehow, he vowed to turn his life around. *Cups Up*, a title drawn from the wake-up call shouted at prisoners, is a story of perseverance, cleansing, and redemption. It chronicles the roller coaster life of a high school dropout, ex-Klansman, ex-mercenary, ex-felon, and ex-con, who went on to become a college graduate, a hardnosed environmental regulator, and a widely respected top executive in a company with more than a thousand employees.

Mississippi Whispers Alexis Heflin,2018-02-03 A bullet riddled car, a torn-up hotel room, and a phone call from a former friend testifying to the murder of John Lloyd Buddy Heflin all point to foul play in his disappearance from Jackson, Mississippi on a cold New Years Day in 1969. Despite the evidence, no official investigation was ever done, leaving his family with only whispers of what may have led to the reports of him being thrown into the unfeeling waters of the Mississippi river. A conspiracy of silence and a coverup? The persistent whispers concerning Buddy's disappearance have haunted his wife and children for forty-nine years and only the truth can finally quiet them forever.

Walker Evans Svetlana Alpers,2023-11-07 A magisterial study of celebrated photographer Walker Evans Walker Evans (1903–75) was a great American artist photographing people and places in the United States in unforgettable ways. He is known for his work for the Farm Security Administration, addressing the Great Depression, but what he actually saw was the diversity of people and the damage of the long Civil War. In *Walker Evans*, renowned art historian Svetlana Alpers explores how Evans made his distinctive photographs. Delving into a lavish selection of Evans's work, Alpers uncovers rich parallels between his creative approach and those of numerous literary and cultural figures, locating Evans within the wide context of a truly international circle. Alpers demonstrates that Evans's practice relied on his camera choices and willingness to edit multiple versions of a shot, as well as his keen eye and his distant straight-on view of visual objects. Illustrating the vital role of Evans's dual love of text and images, Alpers places his writings in conversation with his photographs. She brings his techniques into dialogue with the work of a global cast of important artists—from Flaubert and Baudelaire to Elizabeth Bishop and William Faulkner—underscoring how Evans's travels abroad in such places as France and Cuba, along with his expansive literary and artistic tastes, informed his quintessentially American photographic style. A magisterial account of a great twentieth-century artist, *Walker Evans* urges us to look anew at the act of seeing the world—to reconsider how Evans saw his subjects, how he saw his photographs, and how we can see his images as if for the first time.

In the Sanctuary of Outcasts Neil White,2009-06-02 White tells his emotional, incredible true story of crime and redemption, vanity and spirituality, as he discovers happiness and fulfillment in an unlikely place--imprisonment in The Long Center, the last leper colony in the U.S. 30 color photos.

Factory Physics Wallace J. Hopp,Mark L. Spearman,2011-08-31 Our economy and future way of life depend on how well American manufacturing managers adapt to the dynamic, globally competitive landscape and evolve their firms to keep pace. A major challenge is how to structure the firms environment so that it attains the speed and low cost of high-volume flow lines while retaining the flexibility and customization potential of a low-volume job shop. The books three parts are organized according to three categories of skills required by managers and engineers: basics, intuition, and synthesis. Part I reviews traditional operations management techniques and identifies the necessary components of the science of manufacturing. Part II presents the core concepts of the book, beginning with the structure of the science of manufacturing and a discussion of the systems approach to problem solving. Other topics include behavioral tendencies of manufacturing plants, push and pull production systems, the human element in operations management, and the relationship between quality and operations. Chapter conclusions include main points and observations framed as manufacturing laws. In Part III, the lessons of Part I and the laws of Part II are applied to address specific manufacturing management issues in detail. The authors compare and contrast common problems, including shop floor control, long-range aggregate planning, workforce planning and capacity management. A main focus in Part III is to help readers visualize how general concepts in Part II can be applied to specific problems. Written for both engineering and management students, the authors demonstrate the effectiveness of a rule-based and data driven approach to operations planning and control. They advance an organized framework from which to evaluate management practices and develop useful intuition about manufacturing systems.

Where There's Hope Elizabeth Smart,2018-03-27 In her fearless memoir, *My Story*, Elizabeth Smart related, for the first time, the horrific experiences she went through as a fourteen-year-old girl, when she was abducted from her home and held captive for nine months. Since then, she's travelled the world as the president of the Elizabeth Smart Foundation, sharing her story in the hopes of helping others along the way.Over and over, Elizabeth hears the same question from women who've gone through horrible experiences: How do you find the hope to go on? In this powerful book, she seeks out others who have overcome adversity to help

find the answers. Through conversations with victims of violence, disease, war, and the loss of loved ones, Elizabeth explores the meaning and power of hope to heal our lives. Through discussions with well-known figures like Anne Romney and Diane Von Furstenburg, spiritual leaders like Archbishop John C. Wester and Elder Richard Hinckley, and her own parents, Ed and Lois Smart, Elizabeth gives readers the tools they need to take control and embrace life.

Homesick Sela Ward, 2009-03-17 The vibrant and beloved star of *Once and Again* and *Sisters* offers a story about her journey home to recapture the magic of youth in the deep South for her children and to make peace with the death of her mother. "This is the story of a girl who grew up in a gentle town in the Deep South, cradled by family and friends, worshiping Bear Bryant on Saturday night and Jesus Christ on Sunday morning..." At a time when much of America is yearning to recapture the spirit and feelings of a more innocent era, comes this extraordinary memoir from one of our most beloved actresses: a story of reconnecting with the most important things in life. Millions of TV and film viewers know Sela Ward as the Emmy-winning star of the series *Sisters* and *Once & Again*. But before she became a successful actress, Sela was first and foremost a small-town girl, the daughter of a family that lived for generations in a Mississippi homestead they called "Homeward." It was there, within a tightly knit community of neighbors and kin, that Sela learned ways that would remain with her through life-humble virtues, like generosity, selflessness, and respect, that are "forged in the hearth of a loving home." Now she has woven together nostalgic reminiscences, stories from throughout her life and career, and lessons on drawing strength and wisdom from a simpler place and time, to give us *Homesick*: a very special book on the challenge of raising a family, maintaining perspective, and carving away time for happiness amid the challenges of modern life.

Up North, Down South Katina L. Rankin, 2016-07-22 Many children anticipate and even long for a summer vacation to an exciting destination that they have never visited. This book takes children on a journey across Mississippi, while addressing still-to-common misconceptions about the state in an age-appropriate manner. This book entertains the reader while showing Mississippi is a wonderful state with wonderful people. I believe this book will instill pride in Mississippi's children, as well as help the children outside of our state gain an appreciation for Mississippi. - Marcus L. Thompson, Chief Administrative Officer at the Mississippi Institute of Higher Learning

Bigger Than Bravery Valerie Boyd, 2022-09-20 An anthology of Black resilience and reclamation, with contributions by Pearl Cleage, Aunjanue Ellis, Honorée Fanonne Jeffers, Tayari Jones, Kiese Laymon, Imani Perry, Deesha Philyaw, Khadijah Queen, Jason Reynolds, Alice Walker, and more Born of a desire to bring together the voices of those most harshly affected by the intersecting pandemics of Covid-19 and systemic racism, *Bigger Than Bravery* explores comfort and compromise, challenge and resilience, throughout an unprecedented time--the Great Pause that became the Great Call. Award-winning author and scholar of the Black archive Valerie Boyd curates this anthology of original essays and poems, placed alongside some of the most influential nonfiction published on the subject, inviting readers into a conversation of restorative joy and enduring wisdom. Karen Good Marable cranks Whip My Hair from the car windows during quarantine joyrides with her daughter. Deesha Philyaw ponders loneliness as she sorts Zoom meetings into those that require a bra and those that don't. Writing in the moment though not of it, Pearl Cleage reflects on what has and hasn't changed since the AIDS epidemic. And Jason Reynolds harnesses heat and flavor to carry on his father's legacy. While sorrow and outrage have their say, the stories in these pages are bright with family, music, food, and home, teaching us how to nourish ourselves and our communities. Looking ahead as much as it looks back, *Bigger Than Bravery* offers a window into a hopeful, complex present and establishes an essential record of how Black people in America insist on joy as an act of resistance.
