*Shake Strain Done* J. M. Hirsch, 2020-11-03 Revolutionize the way you drink at home with simple recipes and common ingredients -- no obscure liquors or fussy techniques needed -- from the editorial director of Milk Street, J.M. Hirsch. Are you done with generic gin and tonics, mediocre Manhattans and basic martinis? You can use pantry staples and basic liquors to produce more than 200 game-changing craft cocktails worthy of a seat at the bar. Many cocktail books call for hard-to-find ingredients and complicated techniques that can frustrate home cocktail makers. *Shake Strain Done* shows a better way: If you can shake, strain, stir and turn on a blender, you can make great cocktails. No tedious secondary recipes hidden between the lines. No mysteries. You'll know what each drink will taste like before you pick up a bottle. No fancy equipment needed. A shaker, strainer and spoon are as exotic as it gets. The ingredients are mostly pantry and bar staples-- things you already have on hand. Every drink is rated by its characteristics -- Warm, Refreshing, Sweet, Sour, Bitter, Fruity, Herbal, Creamy, Spicy, Strong and Smoky -- to help expand your horizons and find more drinks to love. These are drinks with the sophistication of a high-end speakeasy, minus the fuss, like: The Sazerac 2.0 - a spice cabinet update that takes the classic back to its origins A new White Russian that lightens the load with coconut water instead of cream A grownup Singapore Sling that's fruity without tasting like fruit punch A Scorched Margarita that uses the broiler to char those lemons and limes A feisty new Gin and Tonic in which black pepper is the star ingredient And plenty of originals, like the Pooh Bear. Butter, honey and bourbon? Yes, please! And Mistakes Were Made, for tiki time

**Abandoned Vehicles of New Hampshire** Jerry Lofaro, 2021-02-22 In *Abandoned Vehicles of New Hampshire: Rust in Peace*, renowned illustrator and photographer, Jerry LoFaro, takes us on an inspiring photographic journey through the wilds of New Hampshire as he uncovers the automotive relics of a not-too-distant past. It's a breathtaking, peaceful, and sometimes sobering look at the remains of a wide variety of cars, trucks and buses that are both enhanced and softened by nature's blanket. What began for the author as purely an exploration of color and dramatic abstract compositions slowly and unexpectedly evolved into a very personal odyssey as he shares stories and humor about his own history and family. To take it a step further, music, art and cinematic references abound enrich the photos in a surprising and entertaining fashion. This

approach is further accented by the words of many notable musicians, artists, and others who were invited to contribute captions to the images in the author's added bonus approach to the subject matter. An unusual and creatively imagined book on rusty stuff, readers will enjoy finding a few extra thrills and shocks. Step inside!

**Small Change** Michael Edwards, 2010-01-11 A new movement is afoot that promises to save the world by applying the magic of the market to the challenges of social change. But in this hard-hitting, controversial exposé, Michael Edwards shows that business is ill-equipped to attack the causes of poverty, inequality, violence, and discrimination. Achieving fundamental social transformation requires cooperation rather than competition, collective action more than individual effort, and support for long-term, systemic solutions instead of immediate results. With a vested interest in the status quo, business can promise only limited advances: small change. It's time to turn away from the false promise of the market and reassert the independence of global citizen action.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith, 2011 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Charged Emily Bazelon, 2020-05-05 NEW YORK TIMES BESTSELLER • A renowned journalist and legal commentator exposes the unchecked power of the prosecutor as a driving force in America's mass incarceration crisis—and charts a way out. "An important, thoughtful, and thorough examination of criminal justice in America that speaks directly to how we reduce mass incarceration."—Bryan Stevenson, author of *Just Mercy* "This

harrowing, often enraging book is a hopeful one, as well, profiling innovative new approaches and the frontline advocates who champion them.”—Matthew Desmond, author of *Evicted* FINALIST FOR THE LOS ANGELES TIMES BOOK PRIZE • SHORTLISTED FOR THE J. ANTHONY LUKAS BOOK PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The New York Public Library • Library Journal • Publishers Weekly • Kirkus Reviews

The American criminal justice system is supposed to be a contest between two equal adversaries, the prosecution and the defense, with judges ensuring a fair fight. That image of the law does not match the reality in the courtroom, however. Much of the time, it is prosecutors more than judges who control the outcome of a case, from choosing the charge to setting bail to determining the plea bargain. They often decide who goes free and who goes to prison, even who lives and who dies. In *Charged*, Emily Bazelon reveals how this kind of unchecked power is the underreported cause of enormous injustice—and the missing piece in the mass incarceration puzzle. *Charged* follows the story of two young people caught up in the criminal justice system: Kevin, a twenty-year-old in Brooklyn who picked up his friend’s gun as the cops burst in and was charged with a serious violent felony, and Noura, a teenage girl in Memphis indicted for the murder of her mother. Bazelon tracks both cases—from arrest and charging to trial and sentencing—and, with her trademark blend of deeply reported narrative, legal analysis, and investigative journalism, illustrates just how criminal prosecutions can go wrong and, more important, why they don’t have to. Bazelon also details the second chances they prosecutors can extend, if they choose, to Kevin and Noura and so many others. She follows a wave of reform-minded D.A.s who have been elected in some of our biggest

cities, as well as in rural areas in every region of the country, put in office to do nothing less than reinvent how their job is done. If they succeed, they can point the country toward a different and profoundly better future.

**Prepare for Crisis - Plan to Thrive** Tom Raffio,Diane Schmalensee,2022-01-10

Managing during a crisis is much easier if your organization has a foundation that supports, rather than diverts, time and resources from your response to the pandemic. Emerging successfully is much more likely if the foundation you have built speeds up your actions rather than slows them down. It all comes down to good common sense. If you go into a crisis in a strong position, you are much more likely to handle it well, be resilient, and emerge strong. If you go into a crisis weak or off balance, you will have a much bigger challenge and may be lucky to merely survive. This book is organized in three sections:- Before the Crisis: Build a Strong Foundation Based on the Best Management Principles- During the Crisis: Use the Foundation to Act Wisely- Emerging from the Crisis: Renew the Foundation with Lessons Learned

**Stormy Weather** D. Scala,2003-12-04 In the coming presidential primaries, no state is as important in setting the stage - or affecting the odds - as New Hampshire. This small, mountainous, proudly distinctive state holds the first primary and the results, both real and in comparison to expectations, can greatly influence the competition for the highest office in the land. Candidates who do well can create momentum and gain support, while those who do worse than expected can be counted out. Scala explains the distinctiveness

of New Hampshire politics and how the candidates create strategies to appeal to the state's voters. New Hampshire's sympathy for reformist candidates has the paradoxical affect of jumpstarting the campaigns of those candidates least representative of Democratic voters nationally. The implications for Democratic chances to win the presidency in 2004 are discussed.
