Handbook on the Economics of Women in Sports Michael Leeds, Eva Marikova Leeds, 2013-01-01 'In the Handbook on the Economics of Women in Sports, Leeds and Leeds put together an impressive list of heavy hitters in the sociology and economics literature on sports to produce a tour de force volume. The entire spectrum of international perspectives is covered, from US, Korean, and Australian sports to world competition at the highest level of the Olympics and international championships. Whether your interest is attendance at women's events, performance and rewards in women's pro sports, gender issues in US college sports, or international performance and how women compete, this handbook is a must read for any serious fan, and for all serious scholars interested in the impacts of being female on sports performance and competitiveness.' Rodney Fort, University of Michigan, US 'Leeds and Leeds have filled a gaping hole in sports economics with this revealing collection of essays. The economics of women in sports has been too long neglected. By covering everything from women as sports spectators, to women as participants in individual and team sports at the collegiate and professional levels, to women's sports internationally, Title IX, and women's differential response to incentives, this volume not only demonstrates that there is much fertile ground to be studied, but also that the subject matter is both interesting and important.' Andrew Zimbalist, Smith College, US Women's sports have received much less attention from economists than from other social scientists. This Handbook fills that gap with a comprehensive economic analysis of women's sports. It also analyzes how the behavior and treatment of female athletes reflect broad economic forces. Contributors to this volume use current theoretical models and econometric tools to examine the legal, social, and economic forces that affect the experiences of female athletes. They address such traditional topics as discrimination against female athletes and coaches and the effect of athletic events on the economies of host countries. They also apply theory and estimation to new settings, such as how women respond to tournaments in skiing and figure skating or how the growing dominance of Korean women on the LPGA tour is a form of immigration. This groundbreaking book is a valuable resource for professors, students, and researchers in sports economics, sports management, and women's studies.

Bird at the Buzzer Jeff Goldberg, 2019-05-07 On March 6, 2001, the top two women's college basketball teams in the nation, UConn and Notre Dame, played what was arguably the greatest game in the history of the sport. When UConn's Sue Bird hit a twelve-foot pull-up jumper at the buzzer over national player of the year Ruth Riley in the Big East Tournament championship game, it marked the end of an epic contest that featured five future Olympians and eight first-round WNBA selections. Bird at the Buzzer re-creates this unique season with a detailed account of the games that led up to--and beyond--the tournament final: profiles of the two coaches, UConn's Geno Auriemma and Notre Dame's Muffet McGraw; close-ups of the players who made the year so memorable; and, finally, an in-depth recap of the game worthy of being designated ESPN's first-ever women's basketball Instant Classic. Author Jeff Goldberg shows us the drama on the court and behind the scenes as the big game pitted Riley and the upstarts from Notre Dame against what many believed was the most talented team in UConn history, under Hall of Fame coach Auriemma. A see-saw affair in which neither team led by more than eight points, the 2001 Big East championship game encapsulates the quintessential inside story of the individual talents and skills, team spirit and smarts, and the moment-by-moment realities of college athletics that made this season a snapshot of sports at its finest.

Hoops Nation is the result of former college-basketball player Chris Ballard's six-month quest by van to find the best pick-up basketball games in the country. Entries from all forty-eight mainland states break down the key points of each game site, including level of play, number of hoops, playing surface, whether women play, average age of players, and whether night play is an option. Ballard also gives the entertaining lowdown on local basketball culture, lore, and etiquette. At-a-glance symbols for each court make for easy reference, and interspersed

throughout are lively sections and sidebars on topics such as dunking technique, the pick-up court hall of fame, slang, and more. From the Venice Beach courts of *White Men Can't Jump*, through hallowed heartland hoops, to the legendary rims rocked on New York City's West 4th Street, anyone who wants to lace up and play will find all they need to know about the court next door or across the country in *Hoops Nation*.
