Accessories to Modernity Susan Hiner,2010-06-10 Accessories to Modernity explores the ways in which feminine fashion accessories, such as cashmere shawls, parasols, fans, and handbags, became essential instruments in the bourgeois idealization of womanhood in nineteenth-century France. Considering how these fashionable objects were portrayed in fashion journals and illustrations, as well as fiction, the book explores the histories and cultural weight of the objects themselves and offers fresh readings of works by Balzac, Flaubert, and Zola, some of the most widely read novels of the period. As social boundaries were becoming more and more fluid in the nineteenth century, one effort to impose order over the looming confusion came, in the case of women, through fashion, and the fashion accessory thus became an ever more crucial tool through which social distinction could be created, projected, and maintained. Looking through the lens of fashion, Susan Hiner explores the interplay of imperialist expansion and domestic rituals, the assertion of privilege in the face of increasing social mobility, gendering practices and their relation to social hierarchies, and the rise of commodity culture and woman's paradoxical status as both consumer and object within it. Through her close focus on these luxury objects, Hiner reframes the feminine fashion accessory as a key symbol of modernity that bridges the erotic and proper, the domestic and exotic, and mass production and the work of art while making a larger claim about the accessory status—in terms of both complicity and subordination—of bourgeois women in nineteenth-century France. Women were not simply passive bystanders but rather were themselves accessories to the work of modernity from which they were ostensibly excluded.

Victorian Fashion Accessories Ariel Beaujot,2013-08-15 In Victorian England, women's accessories were always much more than incidental finishing touches to their elaborate dress. Accessories helped women to fashion their identities.Victorian Fashion Accessories explores how women's use of gloves, parasols, fans and vanity sets revealed their class, gender and colonial aspirations. The colour and fit of a pair of gloves could help a middle-class woman indicate her class aspirations.The sun filtering through a rose-colored parasol would provide a woman of a certain age with the glow of youth. The use of a fan was a socially acceptable means of attracting interest and flirting.Even the choice of vanity set on a woman's bedroom dresser reflected her complicity with colonial expansion. By paying attention to the particular details of women's accessories we discover the beliefs embedded in these artefacts and enhance our understanding of the culture at large. Beaujot's engaging prose illuminates the complex identities of the women who used accessories in the Victorian culture that created and consumed them. Victorian Fashion Accessories is essential reading for students and scholars of, history, gender studies, cultural studies, material culture and fashion studies, as well as anyone interested in the history of dress.
