Large-Scale Visual Geo-Localization Amir R. Zamir, Asaad Hakeem, Luc Van Gool, Mubarak Shah, Richard Szeliski, 2016-07-05 This timely and authoritative volume explores the bidirectional relationship between images and locations. The text presents a comprehensive review of the state of the art in large-scale visual geo-localization, and discusses the emerging trends in this area. Valuable insights are supplied by a pre-eminent selection of experts in the field, into a varied range of real-world applications of geo-localization. Topics and features: discusses the latest methods to exploit internet-scale image databases for devising geographically rich features and geo-localizing query images at different scales; investigates geo-localization techniques that are built upon high-level and semantic cues; describes methods that perform precise localization by geometrically aligning the query image against a 3D model; reviews techniques that accomplish image understanding assisted by the geo-location, as well as several approaches for geo-localization under practical, real-world settings.

Graph Drawing Patrick Healy, 2006-01-25 This book constitutes the thoroughly refereed post-proceedings of the 13th International Symposium on Graph Drawing, GD 2005, held in Limerick, Ireland in September 2005. The 38 revised full papers and 3 revised short papers presented together with 3 software demos, 8 posters and a report on the graph drawing contest were carefully selected during two rounds of reviewing and improvement from 101 submissions. All current aspects in graph drawing are addressed ranging from foundational and methodological issues to applications for various classes of graphs in a variety of fields. Also included is a report on the Workshop on Network Analysis and Visualisation held in conjunction with the conference.

Creating and Animating the Virtual World Nadia Magnenat Thalmann, Daniel Thalmann, 2012-12-06 This book contains invited papers and a selection of research papers submitted to Computer Animation '92, the fourth international workshop on computer animation held in Genova on May 20-22, 1992. This workshop, now an annual event, is organized by the Computer Graphics Society,

the University of Genova, and the Swiss Federal Institute of Technology in Lausanne. Original research results and applications experience to the various areas of computer animation are represented in the book. This year most contributions are related to physics-based animation, human animation, and geometric modelling for animation.
