Work from Home Serge Chapter,2019-01-12 Every weekday morning, working people leave the comfort of their homes to head to work. Some of them live so close to their places of employment, they're able to walk. Others commute on trains, in cars and even on bicycles.Many of these people dream of working from home. They reflect on the joys of awakening and walking with their coffee from the kitchen to their home office (even if it's the kitchen table). They sigh ruefully, not believing that the work from home dream could be theirs, if only they were to think a little outside the box.I'm writing this brief book to let you know that the work from home dream is for anyone who's willing to reach for it. It's not an impossible dream, either.As I write, there are millions of people all over the world, working from home. They're in their pajamas at the kitchen table. They're sitting in the park. The Future of the Office Peter Cappelli, 2021-08-10 A GLOBE & MAIL BEST BUSINESS BOOK OF 2021 The COVID-19 pandemic forced an unprecedented experiment that reshaped white-collar work and turned remote work into a kind of new normal. Now comes the hard part. Many employees want to continue that normal and keep working remotely, and most at least want the ability to work occasionally from home. But for employers, the benefits of employees working from home or hybrid approaches are not so obvious. What should both groups do? In a prescient new book, *The Future of the Office: Work from Home, Remote Work, and the Hard Choices We All Face*, Wharton professor Peter Cappelli lays out the facts in an effort to provide both employees and employers with a vision of their futures. Cappelli unveils the surprising tradeoffs both may have to accept to get what they want. Cappelli illustrates the challenges we face by in drawing lessons from the pandemic and deciding what to do moving forward. Do we allow some workers to be permanently remote? Do we let others choose when to work from home? Do we get rid of their offices? What else has to change, depending on the approach we choose? His research reveals there is no consensus among business leaders. Even the most high-profile and forward-thinking companies are taking divergent approaches: --Facebook, Twitter, and other tech companies say many employees can work remotely on a permanent basis. --Goldman Sachs, JP Morgan, and others say it is important for everyone to come back to the office. --Ford is redoing its office space so that most employees can work from home at least part of the time, and --GM is planning to let local managers work out arrangements on an ad-

hoc basis. As Cappelli examines, earlier research on other types of remote work, including telecommuting offers some guidance as to what to expect when some people will be in the office and others work at home, and also what happened when employers tried to take back offices. Neither worked as expected. In a call to action for both employers and employees, Cappelli explores how we should think about the choices going forward as well as who wins and who loses. As he implores, we have to choose soon.

Other books, blogs, and articles will direct you to the link to find the job, and then you have to figure out if it is for you. The goal of my book is to cut out some of that guesswork for you by supplying you with as much information as possible so that you can start your process without having to wade through all the internet muck. I have done the heavy lifting for you. You will find at least one chapter that seems like it was written especially for you in your situation. This book is set up into chapters divided by how you would go about finding a job you love. The first part is about finding what work you might want to do, establishing what you're good at, and giving general advice about job hunting and working from home. The bulk of the book is dedicated to practical guidance for finding that job in the real world. You can peruse the jobs that can be done remotely and how you might perform the job you love. Conversely, I have provided you with a list of over 60 companies that are actively hiring remote, work-from-home workers. Out of the 100+ ways to work from home, you're sure to find something you never thought of doing. Finally, I wrap up by addressing places to find freelance or gig work and suggesting some job opportunities you might take advantage of working from your house as a base of operations. While these jobs might not be done completely at home, you can still work out of your house without stepping into a corporate office.
