Critical Perspectives on Teachers and Teaching Jessica Holloway,2024-02-08 This book draws attention to the new ways the field of education is problematising the emerging and evolving conditions that shape the work, lives and identities of teachers. It offers geographically diverse accounts of 'the teacher' and 'teaching', demonstrating what it means to do critical research well. Teachers and their practice have been, and continue to be, important sites of critical research. This book offers varied perspectives from diverse geographies to examine how teacher subjectivities are shaped by conditions of possibility. Collectively, they show how critiquing conditions (rather than the teachers themselves) provide a means for problematising 'the teacher', while also advocating the well-being of teachers as humans. Contributions offer compelling examples of how critical scholars can emphasise teaching as a political and value-laden exercise, and therefore treat the teacher subject as also being constituted through political and value-laden discourses. *Critical Perspectives on Teachers and Teaching* offers a provocation to inspire new questions moving forward. That is, critical researchers have an obligation to challenge taken-for-granted assumptions – not only by looking outwards at the policymakers, edu-businesses, and intergovernmental agencies (e.g., OECD), but also by looking inwards and challenging their assumptions about power, discourse and subjectivity. This book was originally published as a special issue of *Critical Studies in Education*.

50 Greatest Professional Wrestlers of All Time Larry Matysik,2013-03-14 No-holds-barred, honest, and objective, this is a definitive look at the greatest pro wrestlers who ever stepped through the ropes. Blending the old and the new and delving into what made these 50 remarkable performers the best in their sport, this

guide illustrates their contributions to the massively popular spectacle of the wrestling world. The antidote to the marketing-motivated claims made by World Wrestling Entertainment (WWE) is provided here, sweeping aside the corporate profit motive of listing standouts who can sell DVDs and dolls and instead shooting from the hip, revealing who sincerely belongs among the cream of the crop. The complexity of choosing the 50 finest ever from a strong group of talented candidates also spins a secondary tale about the evolution of pro wrestling and how this unique sport operates. Revealing these stars' compelling stories in detail, this collection adds up to an entertaining and enlightening description of a monumental business through the history of its legends.

A sequel to *The Art of the Accident* (1998), Machine Times includes essays, interviews and projects by Francisco Varela, Detlef Linke, Isabelle Stengers, Peter Weibel, Perry Hoberman, Cybernetic Culture Research Unit, Helga Nowotny, Woody Vasulka, Eduardo Kac, tx-transform, Atau Tanaka and several others.
