Workout Derek Ansell,2008 Among the great American modern jazz saxophonists, Hank Mobley has been the most unjustly neglected - the truly forgotten man. Yet he played and recorded prolifically with the greatest legends of his era such as Miles Davis, John Coltrane, Dizzy Gillespie, Lee Morgan, Johnny Griffin and Art Blakey, helping to create some of their finest work. His best recordings are classics, characterized by an instantly identifiable sound and style, and constant musical inventiveness. But his loner personality made him his own worst enemy, many of his records remained unissued in his lifetime, and he died forgotten and destitute. Now, at last, most of his recorded legacy is available on CD and he is increasingly recognized as one of the major figures of modern jazz. In this book, the first to be published about Hank Mobley, Derek Ansell provides a detailed critical introduction to his music and a timely reassessment of his contribution to the jazz art.

We are the Champions: The Politics of Sports and Popular Music Ken McLeod,2016-02-11 Sports and popular music are synergistic agents in the construction of identity and community. They are often interconnected through common cross-marketing tactics and through influence on each other's performative strategies and stylistic content. Typically only studied as separate entities, popular music and sport cultures mutually 'play' off each other in exchanges of style, ideologies and forms. Posing unique challenges to notions of mind - body dualities, nationalism, class, gender, and racial codes and sexual orientation, Dr Ken McLeod illuminates the paradoxical and often conflicting relationships associated with these modes of leisure and entertainment and demonstrates that they are not culturally or ideologically distinct but are interconnected modes of contemporary social practice. Examples include how music is used to enhance sporting events, such as anthems, chants/cheers, and intermission entertainment, music that is used as an active part of the athletic event, and music that has been written about or that is associated with sports. There are also connections in the use of music in sports movies, television and video games and important, though critically under-acknowledged, similarities regarding spectatorship, practice and performance. Despite the scope of such confluences, the extraordinary impact of the interrelationship of music and sports on popular culture has remained little recognized. McLeod ties together several influential threads of popular culture and fills a significant void in our understanding of the construction and communication of identity in the late twentieth and early twenty-first centuries.

Even if you can't swim, it's for you -- a fitness center that comes without embarrassment because you are doing something sensible that looks sensible! Use the pool as a gym for: ü general day-by-day fitness ü body building -- using even only old socks on your hands or feet! ü sports training and injury recovery ü pregnancy -- gentle yet great-flexibility help ü aches and pains relief -- no matter what your age Or, simply to feel good. Or, going one step further: to get back to feeling good! Water exercising is also great fun: Do it to music. Do it in pairs or groups, or just indulge yourself. Get strong or try slimming with it. If you push against water, you will meet a smooth resistance that gives back what you put in. You feel that special 'soft' resistance that only water gives so soothingly and relaxingly. So, use it to benefit yourself or your loved ones or friends. Water is the only fitness 'apparatus' you need have. Be your own coach in your own pool.
