Graham Robson

The Complete Book of the World Rally Championship Henry Hope-Frost, John Davenport, 2004 For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

Ford Focus WRC Graham Robson, 2017-10-15 When world rallying introduced a new formula for "World Rally Cars", Ford seized the opportunity. Malcolm Wilson's M-Sport organization was contracted to do the job, completed the design in less than a year, and spent the next 12 years campaigning this turbocharged, four-wheel-drive car all round the world. Working from state-of-the-art facilities, M-Sport built 97 Focus WRCs, all of which proved to be worthy of World level action when they won 44 World Championship events. Stellar drivers like Colin McRae, Carlos Sainz, Markko Märtin, Marcus Grönholm and Mikko Hirvonen all added to the mystique of an ultra-professional organization, along with substantial support and sponsorship from the likes of Martini, BP, and the state of Abu Dhabi. By building its in-house technical expertise, M-Sport not only engineered and developed the entire car on behalf of Ford, but gradually took over development of the 300bhp, 2.0-litre, turbocharged engine, and led the design of the complex four-wheel-drive transmissions provided by Xtrac. M-Sport's reputation exploded to the point that when regulations changed, the company immediately produced a new-generation Fiesta WRC, and kept the winning days rolling.

The Cutting Edge Rod Millen, 2014-08-15 One of New Zealand's greatest rally drivers and a hill-climbing superstar tells his inspiring story for the very first time. Rod Millen was a hero of New Zealand rallying in the 1970s. Having won several championships he quickly established himself as New Zealand's number one driver. But thereafter Millen went on to do what very few Kiwis have achieved, finding podium success in American motorsport. He won the North American Race and Rally Championship in 1979, 1980 and 1981, then in 1989 Millen achieved perhaps his greatest feat, winning the Pikes Peak International Hill Climb, America's second oldest motor-racing event. Writing his name into history, he went on to win the race more times than any driver. The hill-climb is often referred to as 'Millen's Mountain'. Rod Millen is also a highly successful businessman. As a continuation of his off-road driving interests, he founded Millenworks in California in 1980, specializing in cutting-edge light tactical vehicles,

armored and off-road vehicles and subsystems for the US military and theme parks. Millen has recently returned to New Zealand, building a 140-acre, ocean-front estate at Hahei with a racetrack as a driveway, modeled on his favourite hill-climb corners around the world. He's also established Leadfoot Festival, a unique weekend held every two years at the estate, bringing together a mix of classic cars, vintage motorcycles and motorsport legends, inspired by the famous British Goodwood Festival of Speed. Aside from rallying, Rod is well known for other forms racing such as super touring, drifting and extreme off-road races like the Baja 1000 (often considered the most dangerous race in the world) and Transsyberia rally (which he won in 2007). Rod also won the Race to the Sky hill-climb in New Zealand in 2002 and posted the fastest time at the 2002 Goodwood Festival of Speed in England - and he still has the record up his own front driveway. The Cutting Edge is Rod's story, in his own words, of a life lived pushing the boundaries, of record-breaking off-road driving, working at the forefront of motorsport technology, and of creating the ultimate petrol-head heaven, right in his own backyard.

Driven: My Story Hayden Paddon,2019-08-20 Hayden Paddon was just a boy growing up in Geraldine - in love with racing and dreaming big. Starting with nothing, and wholly determined to beat the odds, he set out on a remarkable 20-year pathway to the World Rally Championship, where he footed it with the best rally drivers on the planet. But it didn't come easy. In *Driven*, Paddon details the many highs and lows along the road to the top. He opens up about his struggles with bullying, depression and loss as a young man, and goes on public record for the first time about the 2017 accident in which a spectator was killed and his controversial dismissing from the Hyundai Motorsport team in 2018. It's the real account from Paddon himself, in his own words, as he sets the record straight about his dramatic life on and off the road. *Driven* is captivating, complex and inspirational - a mile-a-minute biography that celebrates self-belief, hard work, and turning dreams into a reality.

Ford Escort RS Cosworth & World Rally Car Graham Robson,2008-12-15 The Escort RS Cosworth, which started rallying in 1993, was one of the most ingenious designs of all time, and eventually became Ford's most successful since the legendary Escorts of the 1970s. Because it was smaller, lighter, and more nimble than any of the Sierras, the combination of Cosworth power, four-wheel-drive transmission, and an effective aerodynamic package made it a Rally Giant in all conditions. With five World victories in its first season, and success all around the world in later years, it was seen in every continent, in all conditions. To meet a change in regulations, the Escort World Rally Car took over in 1997, and also enjoyed years of success.

Rally Yearbook 2007 Philippe Joubin,2008-02-15 The WRC World Rally Championship take place on public roads not on the race track, with 16 rounds worldwide this is one of the most impressive forms of motor racing in the world. Includes a season analysis, team and driver descriptions and the full story of all the rally rounds. A section at the beginning of the book features stories about the world champion as well as other historical and technical topics. The Rally championship has become more and more popular as the races have been modified to better fit with TV coverage requirements. This book is all about the magic of the WRC, with many pictures illustrating the wonderful landscapes which are the background of the championship, from Australia to Argentina. It is published immediately after the last Rally in Britain.

Peugeot 205 T16 Graham Robson,2016-01-21 Four-wheel-drive was authorised in rallying from 1979, but for a time no serious car-manufacturer even tried to harness it to their cars. Soon, though, it was Audi who produced the world's first rally-winning four-wheel-drive car the Quattro. However it was Peugeot who designed, developed, campaigned and won with the first truly sophisticated four-wheel-drive Group B Car the 205 Turbo 16. It was the first truly great, purpose-designed, Group B car. Determined to win at almost any cost, Peugeot hired Jean Todt (who would later

transform the fortunes of the Ferrari F1 organisation) in 1981, and set him an ambitious target. His dream car had to be running in 1983, homologated in 1984, and capable of winning World Championships by 1985. Nothing, no excuses and no lack of application, was to get in the way of that. Apart from being obliged to use the silhouette of the still-secret new 205 road car, Todt was able to ask for anything. Getting approval for whatever he needed and fast-tracking the engineering of the four-wheel-drive rally was not an issue in reaching one simple objective: victory. This is precisely what was achieved. This book tells the detailed story, and lists all the cars, the influences, and the personalities behind a magnificent success story. No sooner had the new turbocharged, transverse-mid-engined car started competing than it was ready to win, yet its dominant career was cut short at the end of 1986 by an abrupt change in rallying regulations. Not only is the engineering story laid out in great detail, but the interaction between company personalities, super-star drivers (including Ari Vatanen) and the highly-charged atmosphere of motorsport at this time is all analysed. Because Group B was cancelled even before the 205 T16 had reached maturity, it went on to have a successful career in desert Raid rallies, and at Pike Peak in the USA, all of which is described in this amazingly authoritative study. Packed with illustrations, technical details, facts, figures and successes of this innovative car, this book is a must for any rally fan.
