The Art of Embroidered Butterflies Jane E. Hall, 2021-04-01 With gorgeous photos, a renowned textile artist guides you through the details of her creative process—and twelve amazing projects. The embroidery of Jane E. Hall is breathtaking, and in this book she combines her love of butterflies with her outstanding talent as a textile artist to produce three-dimensional renditions of exquisitely worked butterflies almost indistinguishable from the real thing. Using the finest of silk threads and needles, Jane lovingly creates her butterflies' wings using the tiniest of stitches worked on to silk. They are then carefully cut away and the edges strengthened with hair-fine wire before being attached to the

bodies, crafted from air-drying modelling medium and brushed with whisper-thin threads to resemble hairs. The butterflies are then placed within a setting of silk leaves and flowers, all made with the same painstaking attention to detail and expert skill as the butterflies themselves. This book provides a fascinating introduction to butterflies in nature, reflecting Jane's love and admiration for these exquisite creatures, and goes on to describe the materials and methods Jane uses to produce her incredible creations. Twelve projects, each based on a different butterfly including the Painted Lady, Small Tortoiseshell, and Brimstone, present the finished piece along with the materials Jane used, and the photographs, swatches, drawings, and paintings that inspired it.

*The Perversion of Normality* Kerry Bolton, 2021-07-12 In *The Perversion of Normality*, with full and reliable documentation, Kerry Bolton examines the anti-life character of the 'progressive' era. While arising from an historical process, certain movements and ideologies have been deliberately constructed to take advantage of the West's social decay to create a brave new world. Some people flourish amidst decay, and among those are a global oligarchy and the dysfunctional types the former promotes in the name of 'human rights', 'social justice', and 'equality'. The main obstacles to their 'new world order' are what they call the 'primary ties': the traditional family bond, faith, homeland, culture and ethnicity. In order to eliminate these, there is a well-financed assault, using feminism, identity politics, transgenderism, population control, sexology, 'human relations training', ad infinitum. Of particular service have been the social sciences, including what is called 'Cultural Marxism'. Turning normality on its head, what was until recently regarded as aberrant is now the 'new normal'. The final aim is to create a one-world state populated by 'transhuman', 'postgender' cybernetic drones in a scenario reminiscent of the most bizarre science-fiction film.

The Girl Who Doesn't Quit Victoria Quinn, 2021-06-15 The director of my clinic is retiring and the job is up for grabs. I'd be lying if I said I didn't want the job for myself, but I'd be happy if any of my colleagues got the promotion. But none of them get it. Neither do I. It's an outside hire. Atlas Beaumont. Super genius, but I think he's a super prick. Worst part of all? My father is the one who wrote his letter of recommendation, the one that impressed my boss so much that he hired him on the spot.
