The Core Connection Chris Robinson, 2008-12-30 A revolutionary fitness book by Chris Robinson that will change your body and your life. Personal trainer Chris Robinson has helped celebrities, athletes, top executives, and ordinary people from coast to coast tone their muscles and melt away pounds in a matter of weeks with a simple workout philosophy: train from your core. To most, the core is synonymous with washboard abs, but it also encompasses twenty-nine muscles in and around your trunk, pelvis, hips, buttocks, and lower back. A strong core gives you the stability and mobility you need for better posture and balance, reduced back pain, and a more effective overall workout. In *The Core Connection*, Chris invites a team of five brave men and women with busy, stressful lives to follow his life-changing regimen for six weeks. The result -- a combined total weight loss of 78 pounds! Chris's unique program integrates the important principles of Pilates -- emphasis on core strength, muscle control, breathing, and correct posture -- into standard cardio and weight-bearing exercises for a total

body workout. By learning to engage all the muscles in your core, you also increase your calorie burn and reduce your risk of injury. The Core Connection is a safe, effective, portable workout that is perfect for people of all ages and fitness levels. Chris's explicit, easy-to-understand instructions are accompanied by clear illustrations that will help you check your form as he focuses on the specific aspects of alignment, muscle control, and breath that are essential for achieving the maximum benefit from each exercise. He offers a plan for simple, total body workouts that include mat work to help you find and feel your core muscles, cardio, and strength training -- with the option of using weight machines or your own body weight. He also shares important tips for improving your diet without completely giving up the foods you love. The Core Connection is more than just a workout plan. It's a totally new approach to your life. Your body is only as strong as its core. With Chris Robinson's help, you can look and feel better than ever.

The Core Program Peggy Brill, Gerald Secor Couzens, 2008-12-10 Introducing the fitness program designed by a physical therapist exclusively for women – proven to increase strength, tone muscles and reduce aches and pains in just 15 minutes a day! Few women realize that most popular fitness regimens are designed for men. Yet women have their own unique fitness needs – and using a program developed with men's bodies in mind is not only ineffective, but can actually result in injury. Renowned physical therapist Peggy Brill has devoted her life to developing an exercise program specifically for women. Based on her understanding of movement dynamics and body structure, these exercises focus on developing and balancing the muscles in the anatomical center of the body – the core – which includes the back, hip and abdominal muscles. Peggy's remarkable head-to-toe workout targets the "hot spot" areas – neck, back, pelvis, hips, knees – that cause problems for even the healthiest women. In just 15 minutes a day, The Core Program's easy-to-learn exercises will help women: • Strengthen their bodies to achieve balance and alignment • Eliminate everyday aches and pains • Prevent bone loss • Protect against osteoarthritis • Improve sleep, digestion and circulation • Enjoy better sex • Feel energized all day long • Overcome the effects of aging With inspirational case histories, detailed photographs illustrating each exercise and self-tests for rating balance, flexibility and strength, The Core Program is an owner's manual for the naturally strong, healthy body every woman should have.
