Xango Music Geoffrey Philp, 2001 Jamaican born, Miami resident, Geoffrey Philp finds in Xango a powerful metaphor for the rich, syncretic diversity, the multiple connections of the African person in the New World. In these poems, the god of cross-roads is both a prophetic voice of the fire to come and the creator who hammers out sweet sound from the iron drum.

Your Aging Body Can Talk Susan Levy, 2017-06-12
Written by a chiropractor and alternative health practitioner with over 30 years of experience, this book addresses health and wellbeing of body, mind and spirit for an aging population (50+). Uniquely, this material is presented through the lens of Clinical Kinesiology. This simple self-help tool of muscle-testing allows readers to find out what their own body knows and needs. They learn that the body “speaks” through either strong or weak muscle responses to questions asked or situations presented, and are instructed in how to do this simple self-testing for a variety of health issues. Stories of other seniors who have used this methodology to their benefit provide a platform for acceptance and motivation, and each chapter contains specific recommendations for its use. How to become a “wise elder” is another unique emphasis of this book. The author encourages us to learn from many different cultures and traditions a more life-positive view of aging. In fact, she coins the word “Youthing” to describe such a re-orienting of mind, purpose and activity toward optimum vibrancy and flexibility, leading to longevity. Stories of successful transitions into elderhood give hope to those who are confused or anxious about becoming older. Since the body’s health is intimately related to that of mind and emotions, a Youthing approach will be characterized by equanimity, gratitude, forgiveness and dynamic relationship with others.

Her many exercises and suggestions are designed to encourage readers to value themselves as worthwhile wisdom contributors. "You can assume the stance of a respected elder," she declares, "even if the surrounding culture does not immediately support that." In other words, readers are invited to "be the change" they want to effect. Far from being a scholarly or scientific text, *Your Aging Body Can Talk* is written for immediate use by maturing practitioners or laypersons. Throughout the book, the concerns of an aging population are consistently placed in the forefront: How to develop an anti-inflammation diet and lifestyle The factors that affect longevity How to build cognitive health and brain vibrancy How to find or refine your life's purpose, no matter what your age Why detoxification is so essential, at any age.

Phenolic Compounds in Food Leo M.L. Nollet,Janet Alejandra Gutierrez-Urbe,2018-01-29 Phenolic compounds, one of the most widely distributed groups of secondary metabolites in plants, have received a lot of attention in the last few years since the consumption of vegetables and beverages with a high level of such compounds may reduce risks of the development of several diseases. This is partially due to their antioxidant power since other interactions with cell functions have been discovered. What's more, phenolic compounds are involved in many functions in plants, such as sensorial properties, structure, pollination, resistance to pests and predators, germination, processes of seed, development, and reproduction. Phenolic compounds can be classified in different ways, ranging from simple molecules to highly polymerized compounds. *Phenolic Compounds in Food: Characterization and Analysis*

deals with all aspects of phenolic compounds in food. In five sections, the 21 chapters of this book address the classification and occurrence of phenolic compounds in nature and foodstuffs; discuss all major aspects of analysis of phenolic compounds in foods, such as extraction, clean-up, separation, and detection; detail specific analysis methods of a number of classes of phenolic compounds, from simple molecules to complex compounds; describe the antioxidant power of phenolic compounds; and discuss specific analysis methods in different foodstuffs.

The Seed Thief Jacqui L'Ange,2015-08-05 Sometimes the thing you find is not the one you were looking for. When botanist Maddy Bellani is asked to travel to Brazil to collect rare seeds from a plant that could cure cancer, she reluctantly agrees. Securing the seeds would be a coup for the seed bank in Cape Town where she works, but Brazil is the country of her birth and home to her estranged father. Her mission is challenging, despite the help of alluring local plant expert Zé. The plant specimen is elusive, its seeds guarded by a sect wary of outsiders. Maddy must also find her way in a world influenced by unscrupulous pharmaceutical companies and the selfish motives of others. Entrancing and richly imagined, *The Seed Thief* is a modern love story with an ancient history, a tale that moves from flora of Table Mountain to the heart of Afro-Brazilian spiritualism.

Black Atlantic Religion J. Lorand Matory, 2009-02-09

Black Atlantic Religion illuminates the mutual transformation of African and African-American cultures, highlighting the example of the Afro-Brazilian Candomblé religion. This book contests both the recent conviction that transnationalism is new and the long-held supposition that African culture endures in the Americas only among the poorest and most isolated of black populations. In fact, African culture in the Americas has most flourished among the urban and the prosperous, who, through travel, commerce, and literacy, were well exposed to other cultures. Their embrace of African religion is less a survival, or inert residue of the African past, than a strategic choice in their circum-Atlantic, multicultural world. With counterparts in Nigeria, the Benin Republic, Haiti, Cuba, Trinidad, and the United States, Candomblé is a religion of spirit possession, dance, healing, and blood sacrifice. Most surprising to those who imagine Candomblé and other such religions as the products of anonymous folk memory is the fact that some of this religion's towering leaders and priests

have been either well-traveled writers or merchants, whose stake in African-inspired religion was as much commercial as spiritual. Moreover, they influenced Africa as much as Brazil. Thus, for centuries, Candomblé and its counterparts have stood at the crux of enormous transnational forces. Vividly combining history and ethnography, Matory spotlights a so-called folk religion defined not by its closure or internal homogeneity but by the diversity of its connections to classes and places often far away. Black Atlantic Religion sets a new standard for the study of transnationalism in its subaltern and often ancient manifestations.

Letters from Brazil Mark J. Curran, 2017-11-09 Letters from Brazil: A Cultural-Historical Narrative Made Fiction recounts the adventures of young researcher Mike Gaherty in Brazil in the turbulent 1960s. It tells the story of his research on Brazilian folklore and folk-popular literature (with inevitable amorous moments along the way) while dodging encounters and threats from agents of the DOPS, Brazil's chief espionage and anti-communist, anti-subversion agency. The nation's military revolution of 1964 and subsequent evolution to dictatorship are the background for Gaherty's ups and downs in Brazil's Northeast, the Northeast Interior, Salvador da Bahia, Rio de Janeiro, Brasília, the Amazon, and a final harrowing time in Recife. The thread of the narrative is the series of letters requested of Gaherty by James Hansen of the New York Times (international section) and his later involvement with Stanley Iverson of the INR (Bureau of Intelligence and Research of the United States Department of State)-WHA (Western Hemisphere Affairs) reporting on Gaherty's own research activities in Brazil and his discoveries of political and social sentiment in northeastern Brazil. The young American researcher reports as well on meetings with major Brazilian cultural figures,

encounters with Brazilian Afro-Brazilian phenomena like Xango, Candomble, and Capoeira, impressive times during New Years Eve and the Carnival in Rio de Janeiro, and cultural-travel highlights throughout Brazil. The fly in the ointment was the DOPS.

Hold Onto the Night Shauna Michaels, 2000-07

Geologist Kathleen Dawson went to the South American jungle in search of oil, but her guides are terrified of the Jaguar Man. Kathleen doesn't believe in the mythical shape-shifter who, according to legend, rules the jungle both as beast and man, protecting his territory against the outside world. Then Kathleen is drugged and awakens to find

herself in a cave with a man named Guerriro who claims to be the Jaguar Man. He warns her to leave before it's too late. When morning arrives, Kathleen's back in camp and convinces herself the man and the cave were only a dream. However, her guides find a jaguar's skull on a pole, which is the Jaguar Man's warning that to stay means death. The frightened natives abandon Kathleen. Stranded in a rainstorm that quickly escalates into a flood, Kathleen fights for her life. She's saved by a black jaguar and again finds herself in Guerriro's cave. But as the days pass, Kathleen begins to wonder if Guerriro, who is both her captor and her savior, is really cursed to live his life as a black jaguar by day and a man by night. All Kathleen knows for sure is that Guerriro's ensnared her heart, and she'll do anything she can to stay by his side, even if doing so means she must...Hold Onto the Night.
