Ghost Camera Darcy Coates,2014 A small number of cameras have the ability to capture ghosts on film. This gift comes at a steep price; the ghosts are resentful and hungry, and the cameras offer them a rare chance to reach their favourite prey... humans. Jenine doesn't know any of this when she finds an abandoned Polaroid camera in a lighthouse. At first she assumes the ghostly shapes in the photos are a glitch or a prank - but then the spirits begin to hunt her down, and she's forced into a deadly race to free herself from the camera's curse.

The Haunted Camera Drac Von Stoller,2012-05-23 Delbert Gray was an amateur photographer with a hunger for fame. The camera Delbert used was a cheap Kodak Instamatic. You can see why

Delbert dreamed of owning a Nikon like his rich friend Michael. Michael would let his friend Delbert develop his pictures in his dark room while he was developing his own. Delbert envied Michael's photographs and would often close his eyes and daydream about being a famous photographer someday. Delbert was only fifteen years old. He wasn't old enough to get a job like his friend Michael and bring in a big paycheck. As Michael was puffing on his cigarette in the dark room developing his film beside Delbert, Michael would often make remarks about Delbert's photographs and tell him if he wanted to take pictures like him he needed to throw that cheap camera in the trash and buy one like his. Delbert replied with a lump in his throat You know I don't have a job and my parents wouldn't even consider buying me a camera such as yours. Michael replied, You know something Delbert, either you get a good quality camera or I'm going to ask you to stop developing your photographs in my dark room. Your photographs are pathetic. Delbert answered back in a sad tone of voice, That wasn't a very nice thing to say to your friend. I know, but it's the truth and sometimes the truth hurts, exclaimed Michael. Well let me tell you something Michael, I'm going to own a camera like yours someday and when I do you'll be jealous of me, said Delbert in a stern voice. Delbert took his Instamatic camera and photographs with him and told Michael he wouldn't be back to see him until he found that special camera. Michael just laughed and said to Delbert, Looks like I'll be in the old folks home when that happens. Delbert exited the dark room and slammed the door behind him, walked home, and threw his Instamatic camera at his bedroom wall. Delbert said, What have I done, now I don't have a camera. What am I going to do now? Delbert sat on his bed crying because he knew he had no way of replacing the Instamatic camera he had just broken. Delbert made up a story about how the camera broke, but his father just laughed and said, Are you out of your mind? You'll be able to get a job in about a year then you can buy yourself a new camera. Delbert's father turned away and told Delbert he didn't want to hear any whining about how I should buy him a new camera. Delbert yelled at his father saying, But Dad it was an accident. Delbert's father turned back around and kicked him in his rear end and slammed the door behind him. Delbert lay down on his bed and cried his eyes out the rest of the night. Morning came and Delbert wiped the remaining tears from his cheeks. Delbert took a deep breath and said a prayer. Delbert decided instead of lying in bed all day sulking about why his friend Michael would be saying I told you so. Delbert got dressed and grabbed an apple from the kitchen and a soda headed down the road on foot in search of that special camera. As Delbert was walking around the town square he came across an Antique shop that had an old bellows camera in the display window. Delbert said to himself, If I could just have that camera I bet it would take better

pictures than Michael's. Delbert slumped over with tears again flowing down his cheeks knowing in reality there was no way he could afford such a beautiful camera. Just as Delbert was walking past the Antique shop, an old man opened the door came up to Delbert, and said, I noticed you were looking at that old camera in the window as if it belonged to you. Delbert answered, Yes, Sir, I was only wishing. I knew in my heart I could not afford such a beautiful camera. Besides, I don't even have a job or any money to give you and my father told me the only way I could buy a new camera was to get a job next year. By that time your camera would be gone and I would be heartbroken once more. Well, I better be on my way, because if I don't get home soon my dad is going to whoop me. Not so fast!" the old man said in a tender voice. I've never had anyone come by my shop and want any of my antiques like you have. I tell you what if you want the camera it's yours to keep. Don't worry about the money your money is no good to me. There's only one condition. Bring me a copy of the photos you take. I have a scrapbook that I would like to place them in. That's all I ask of you. What do you say? Delbert answered back eagerly, Yes, Sir, Delbert started crying because his prayer had been answered.

Ghost Photography 101 Fiona Broome, 2011-09-26 Ghost photos... are they real? * Is that orb just dust or pollen or fog? * Is that vortex actually a piece of hair? * Is that apparition really smoke? Chances are, the answer is no. Professional photographer (and paranormal researcher) Fiona Broome shows the results of over four years of experiments with a variety of cameras, testing the normal explanations for orbs, vortices, and eerie figures. Her conclusions...? She -- and many other experts -- have been wrong about anomalies: As the subtitle says, it's not just dust. Whether you're a believer or a skeptic, this book contains something to shock (or at least annoy) almost everyone who thought they understood ghost photos. Written for beginning and intermediate ghost hunters, this 180+ page book tells you: * How to select a camera. * What settings to use. * Where to take photos. * How to decide if they're really ghosts. However, even professionals will find some unsettling ideas and disturbing evidence in this book. Fiona invites you to try these same tests. Prove her wrong, if you can. You may never look at ghost photos the same way, again.
