One of Those Days Yehuda Devir, Maya Devir, 2020-11-10 Based on the wildly popular webcomic, One of Those Days chronicles the life and love of Yehuda and Maya Devir as they take on the minutiae of marriage, the ups and downs of daily life, and the paradigm shift of new parenthood. "Bursting with life . . . We get to know them through one-panel installments as though they've walked straight into the room, introduced themselves, and moved in."—Kate Beaton, #1 New

York Times bestselling author of *Hark! A Vagrant* Yehuda and Maya Devir began illustrating their life in comics when they moved into their first apartment together in Tel Aviv as newlyweds. In the years since, *One of Those Days* has become one of the biggest webcomics on the Internet, with millions of followers around the world. Yehuda Devir grew up on superhero comic books, and the Devirs' visual style is downright kinetic and bursting with life. In this collection—the first time that the Devirs' comics have been compiled in one volume—they share stories that are heartwarming, hilarious, and universally recognizable. So even for those who don't feel like pulling out an assault rifle to wage war on a kitchen cockroach, the Devirs' challenges and triumphs are instantly familiar to anyone who's had one of those days.

Life After Life Kate Atkinson, 2013-04-02 What if you could live again and again, until you got it right? On a cold and snowy night in 1910, Ursula Todd is born to an English banker and his wife. She dies before she can draw her first breath. On that same cold and snowy night, Ursula Todd is born, lets out a lusty wail, and embarks upon a life that will be, to say the least, unusual. For as she grows, she also dies, repeatedly, in a variety of ways, while the young century marches on towards its second cataclysmic world war. Does Ursula's apparently infinite number of lives give her the power to save the world from its inevitable destiny? And if she can -- will she? Darkly comic, startlingly poignant, and utterly original: this is Kate Atkinson at her absolute

best.

Silver Spoon, Vol. 4 Hiromu Arakawa, 2019-12-24

By purchasing Pork Bowl, Hachiken takes a step forward in reconciling a farmer's care and concern for livestock that will ultimately be eaten. But Pork Bowl has yielded a whole lot more than a pork bowl's worth-or even a dozen pork bowls' worth!-of meat, and all of Ezo Ag is more than happy to help with the surplus! Hachiken may raise a lot of tough questions, but he sure knows how to make a mean batch of bacon...

"Yellow Kid" Weil J.R. Weil, 2011-02-22

Bilked bankers, grifted gamblers, and swindled spinsters: welcome to the world of confidence men. You'll marvel at the elaborate schemes developed by The Yellow Kid and cry for the marks who lost it all to his ingenuity—\$8,000,000 by some estimations. Fixed horse races, bad real-estate deals, even a money-making machine—all were tools of the trade for the Kid and his associates: the Swede, the Butterine Kid, the Harmony Kid, Fats Levine, and others. The Sting (1973), starring Paul Newman and based largely on the story of the Yellow Kid, is entertaining, but is no match for the real deal.

Emotions Explained with Buff Dudes Andrew

Tsyaston, 2018-10-16 You know how, since the dawn of humanity, great philosophers and poets have dedicated their entire lives to exploring concepts like love, life itself, logic, and sorrow? Well, those great philosophers and poets are dead now, so I win. — Shen *Emotions Explained With Buff Dudes* is your fully illustrated guide to the hyper-conflicted, tragicomic feelings of our age. Featuring the resilient, shaggy-haired Shen, this

debut collection of Owlurd Comix is a tale of triumph and survival – of getting your ass kicked by sleep deprivation and student loans, but never losing hope. Most of all, it's an amusing, instructive journey through a vast array of emotions, including those best explained with dudes who are buff.

The Language Instinct Steven Pinker, 2010-12-14 A brilliant, witty, and altogether satisfying book. – New York Times Book Review The classic work on the development of human language by the world's leading expert on language and the mind In *The Language Instinct*, the world's expert on language and mind lucidly explains everything you always wanted to know about language: how it works, how children learn it, how it changes, how the brain computes it, and how it evolved. With deft use of examples of humor and wordplay, Steven Pinker weaves our vast knowledge of language into a compelling story: language is a human instinct, wired into our brains by evolution. *The Language Instinct* received the William James Book Prize from the American Psychological Association and the Public Interest Award from the Linguistics Society of America. This edition includes an update on advances in the science of language since *The Language Instinct* was first published.

Arrowsmith Sinclair Lewis, 1925

The Central Intelligence Agency and Overhead Reconnaissance Gregory Pedlow, Donald Welzenbach, 2016-03-15 The CIA's 2013 release of its book *The Central Intelligence Agency and Overhead Reconnaissance 1954–1974* is a fascinating and important historical document. It contains a significant amount of newly declassified material with respect to the U-2 and Oxcart programs, including names of pilots; codenames and cryptonyms; locations, funding, and cover arrangements; electronic countermeasures equipment; cooperation with foreign governments; and overflights of the Soviet Union, Cuba, China, and other countries. Originally published with a Secret/No Foreign Dissemination classification, this detailed study describes not only the program's technological and bureaucratic aspects, but also its political and international context, including the difficult choices faced by President Eisenhower in authorizing overflights of the Soviet Union and the controversy surrounding the shoot down there of U-2 pilot Francis Gary Powers in 1960. The authors discuss the origins of the U-2, its top-secret testing, its specially designed high-altitude cameras and complex life-support systems, and even the possible use of

poison capsules by its pilots, if captured. They call attention to the crucial importance of the U-2 in the gathering of strategic and tactical intelligence, as well as the controversies that the program unleashed. Finally, they discuss the CIA's development of a successor to the U-2, the Oxcart, which became the world's most technologically advanced aircraft. For the first time, the more complete 2013 release of this historical text is available in a professionally typeset format, supplemented with higher quality photographs that will bring alive these incredible aircraft and the story of their development and use by the CIA. This edition also includes a new preface by author Gregory W. Pedlow and a foreword by Chris Pocock. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

The fifth and fully updated edition offers: highly accessible and engaging writing contemporary references to all types of media familiar to students substantial discussion of theories and research, including interpretations of original research studies a balanced approach to covering the breadth and depth of the subject

discussion of work from both psychology and media disciplines.
