The Laws of Cooking Justin Warner,2015-10-13 Foreword by Alton Brown. The Laws of Cooking . . . and How to Break Them encourages improvisation and play, while explaining Justin Warner's unique ideas about flavor theory-like color theory, but for your tongue. By introducing eleven laws based on familiar foods (e.g., The Law of Peanut Butter and Jelly; The Law of Coffee, Cream, and Sugar), the book will teach you why certain flavors combine brilliantly, and then show how these combinations work in 110 more complex and inventive recipes (Tomato Soup with Grilled Cheese Ravioli; Scallops with Black Sesame and Cherry). At the end of every recipe, Justin breaks the law by adding a seemingly discordant flavor that takes the combination to a new level.

Ensuring Quality to Gain Access to Global Markets Martin Kellermann,2019-04-09 In a modern world with rapidly growing international trade, countries compete less based on the availability of natural resources, geographical advantages, and lower labor costs and more on factors related to firms' ability to enter and compete in new markets. One such factor is the ability to demonstrate the quality and safety of goods and services expected by consumers and confirm compliance with international standards. To assure such compliance, a sound quality infrastructure (QI) ecosystem is essential. Jointly developed by the World Bank Group and the National Metrology Institute of Germany, this guide is designed to help development partners and governments analyze a country's quality infrastructure ecosystems and provide recommendations to design and implement reforms and enhance the capacity of their QI institutions.

Night Photography Gabriel Biderman,Tim Cooper,2013-11-13 Are you a night owl looking to make stunning images of streetscapes, fireworks, or the night sky? Do you like to bend time with long exposure photography? Do star trails or lightning strikes inspire you? Then this book is for you! In Night Photography: From Snapshots to Great Shots, photographer Gabriel Biderman brings you the basics of digital night photography—exposure, composition, and light—and how to scout and capture different nocturnal locations once the sun goes down. Gabriel will help you understand the fundamentals and bring your unique artistic expression to any night situation. In this beautifully illustrated guide you will: Focus in the dark and master basic composition rules—and know when to break them Understand metering and switch to manual mode for more control over your exposure Set white balance, understand color temperature, and add flash or slow sync Explore color, light painting, and creative ways to play with light in your images Learn what gear works best for your style of shooting and strategies for operating your equipment in the dark Discover expert techniques for post-processing your nighttime images in Lightroom and Photoshop Beautifully illustrated with large, compelling photos, this book teaches you how to take control of your photography to get the image you want every time. And once you have the shot, show it off and join the book's Flickr group: www.flickr.com/groups/night_fromsnapshotstogreatshots

Logical Reasoning Bradley Harris Dowden,1993 This book is designed to engage students' interest and promote their writing abilities while teaching them to think critically and creatively. Dowden takes an activist stance on critical thinking, asking students to create and revise arguments rather than simply recognizing and criticizing them. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course.

Assassin's Creed Valhalla: Sword of the White Horse Elsa Sjunneson,2022-04-26 A Celtic warrior defending her people from Viking raiders infiltrates an ancient sect to save her homeland, in this gripping original saga set in the world of Assassin's Creed® Valhalla Mercia, 878. Witch-warrior Niamh discovers a new order called the Hidden Ones is seeking to establish a foothold in Lunden. Her land is already scarred by Viking raiders, bloody wars, and clashing cultures. Determined to protect what remains of her homeland, she infiltrates this new group to discover whether they stand with her... or against her. Yet when Niamh learns the Hidden Ones have stolen an artifact sacred to her people, her own loyalties are challenged. Casting aside newfound alliances and friendships, Niamh soon discovers that betrayal comes with a heavy price and it will take everything in her power – her gods willing – to survive.

Migration and Hybrid Political Regimes Rustamjon Urinboyev,2020-12-01 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. While migration has become an all-important topic of discussion around the globe, mainstream literature on migrants' legal adaptation and integration has focused on case studies of immigrant communities in Western-style democracies. We know relatively little about how migrants adapt to a new legal environment in the ever-growing hybrid political regimes that are neither clearly democratic nor conventionally authoritarian. This book takes up the case of Russia—an archetypal hybrid political regime and the third largest recipients of migrants worldwide—and investigates how Central Asian migrant workers produce new forms of informal governance and legal order. Migrants use the opportunities provided by a weak rule-of-law and a corrupt political system to navigate the repressive legal landscape and to negotiate—using informal channels—access to employment and other opportunities that are hard to obtain through the official legal framework of their host country. This lively ethnography presents new theoretical perspectives for studying immigrant legal incorporation in similar political contexts.

Essentials of Business Analytics Bhimasankaram Pochiraju,Sridhar Seshadri,2019-07-10 This comprehensive edited volume is the first of its kind, designed to serve as a textbook for long-duration business analytics programs. It can also be used as a guide to the field by practitioners. The book has contributions from experts in top universities and industry. The editors have taken extreme care to ensure continuity across the chapters. The material is organized into three parts: A) Tools, B) Models and C) Applications. In Part A, the tools used by business analysts are described in detail. In Part B, these tools are applied to construct models used to solve business problems. Part C contains detailed applications in various functional areas of business and several case studies. Supporting material can be found in the appendices that develop the pre-requisites for the main text. Every chapter has a business orientation. Typically, each chapter begins with the description of business problems that are transformed into data questions; and methodology is developed to solve these questions. Data analysis is conducted using widely used software, the output and results are clearly explained at each stage of development. These are finally transformed into a business solution. The companion website provides examples, data sets and sample code for each chapter.

Protecting the right to freedom of expression under the European Convention on Human Rights Bychawska-Siniarska, Dominika,2017-08-04 European Convention on Human Rights – Article 10 – Freedom of expression 1. Everyone has the right to freedom of expression. This right shall include freedom to hold opinions and to receive and impart information and ideas without interference by public authority and regardless of frontiers. This article shall not prevent States from requiring the licensing of broadcasting, television or cinema enterprises. 2. The exercise of these freedoms, since it carries with it duties and responsibilities, may be subject to such formalities, conditions, restrictions or penalties as are prescribed by law and are necessary in a democratic society, in the interests of national security, territorial integrity or public safety, for the prevention of disorder or crime, for the protection of health or morals, for the protection of the reputation or rights of others, for preventing the disclosure of information received in confidence, or for maintaining the authority and impartiality of the judiciary. In the context of an effective democracy and respect for human rights mentioned in the Preamble to the European Convention on Human Rights, freedom of expression is not only important in its own right, but it also plays a central part in the protection of other rights under the Convention. Without a broad guarantee of the right to freedom of expression protected by independent and impartial courts, there is no free country, there is no democracy. This general proposition is undeniable. This handbook is a practical tool for legal professionals from Council of Europe member states who wish to strengthen their skills in applying the European Convention on Human Rights and the case law of the European Court of Human Rights in their daily work.

The Lisbon Portfolio Kirk Tuck,2014-06-13 The Lisbon Portfolio is an action-adventure story in which our hero, photographer Henry White, is drawn into a web of corporate intrigue and murder while on assignment for a major, multi-national corporation in Lisbon, Portugal in 1999. Henry White doesn't know who to trust in this action packed and richly textured tale of spies and meeting planners. From the Russian Mafia to the CIA to a Chinese organization that specializes in stealing technology secrets, the bad guys are thick on the ground and Henry has to depend on his previous years of experience working as an intelligence researcher, under cover as a corporate photographer, to make it out of Lisbon alive----and to save the world from an invention that may unlock the frightening promise of making miniature nuclear bombs.

Behind Photographs Tim Mantoani,Mark Murphy,2012 Behind Photographs began as the personal quest of photographer Tim Mantoani to document and preserve noted photographers together with their images. We have come to a point in history where we are losing both photographic recording mediumsphotographic recording mediums and iconic photographers, Mantoani comments. While many people are familiar with iconic photographs, the general public has no idea of who created them. This book became a means to do that, the photographer and their photograph in one image.--Publisher's website, https://www.channelphotographics.com/behdinphotographs.php, viewed February 6, 2012.

PoC or GTFO Manul Laphroaig,2017-10-31 This highly anticipated print collection gathers articles published in the much-loved International Journal of Proof-of-Concept or Get The Fuck Out. PoC||GTFO follows in the tradition of Phrack and Uninformed by publishing on the subjects of offensive security research, reverse engineering, and file format internals. Until now, the journal has only been available online or printed and distributed for free at hacker conferences worldwide. Consistent with the journal's quirky, biblical style, this book comes with all the trimmings: a leatherette cover, ribbon bookmark, bible paper, and gilt-edged pages. The book features more than 80 technical essays from numerous famous hackers, authors of classics like Reliable Code Execution on a Tamagotchi, ELFs are Dorky, Elves are Cool, Burning a Phone, Forget Not the Humble Timing Attack, and A Sermon on Hacker Privilege. Twenty-four full-color pages by Ange Albertini illustrate many of the clever tricks described in the text.
