The Thousand Dollar Yacht Anthony Bailey,1996 The theme of the would-be yachtsman finding a builder to construct a small boat which met his requirements, but at a very reasonable cost, is a traditional one in sailing literature and the basis of this story, first published in the USA nearly 30 years ago.

Grand Ambition G. Bruce Knecht,2013-03-05 G. Bruce Knecht, former reporter for TheWall Street Journaland author of The Proving Ground and Hooked, describes the creation of an outsized yacht in a sweeping narrative centered on the men and women who made it happen. Doug Von Allmen, a self-made man who grew up in a landlocked state dreaming of the ocean, was poised to build a 187-foot yacht that would cost \$40 million. Lady Linda would not be among the very largest of the burgeoning fleet of oceangoing palaces, but Von Allmen vowed that it would be the best one ever made in the United States. Nothing would be ordinary. The interior walls would be made from rare species of burl wood, the floors paved with onyx and exotic types of marble, the furniture custom made, and the art specially commissioned. But the 2008 economic crisis changed everything. Von Allmen's lifestyle suddenly became unaffordable. Then it got worse: desperate to reverse his losses, he fell for an audacious Ponzi scheme. Would Von Allmen be able to complete Lady Linda? Would the shipyard and its one thousand employees survive the financial meltdown? The divide between the very rich and everyone else had never been greater, yet the livelihoods of the workers, some of them illegal immigrants, and the yacht owners were inextricably intertwined. In a sweeping, high-stakes narrative, the critically acclaimed author of The Proving Ground and Hooked weaves Von Allmen's story together with those of the men and women who are building his yacht. As the pursuit of opulence collides with the reality of economic decline, everyone involved in the massive project is forced to rethink the meaning of the American Dream.

The Beverly Yacht Club Judith Westlund Rosbe,2006 The Beverly Yacht Club, one of the oldest yacht clubs in America, was founded in 1872 by young men who summered in Beverly. They were upset that the newly formed Eastern Yacht Club in Marblehead refused to recognize yachts under 30 feet in length on the waterline for the races that they held. Thus, Edward and Walter Burgess (the famous yacht designer), at a supper party at their home in Boston on February 24, 1872, formally launched the Beverly Yacht Club. The first regatta was held by the club on June 22, 1872, in which 11 boats, 10 catboats, and a sloop started in three classes. For the first 23 years, the Beverly Yacht Club had no fixed abode; they held races and regattas at ports most convenient to the members. By the mid-1880s, regattas were held in Monument Beach and Marblehead, but as the Buzzards Bay membership increased, the Beverly Yacht Club leased its first clubhouse on Wings Neck in 1895. In 1913, the club moved to Marion, where it has been located ever since. The Beverly Yacht Club, one of the oldest yacht clubs in America, was founded in 1872 by young men who summered in Beverly. Elements of Yacht Design Norman L. Skene,2023-09-08 This book is intended to be a practical and concise presentation of some of the operations involved in designing yachts of all types. Cumbersome and impractical methods which are so often found in more pretentious works on naval architecture have been avoided. Those presented have been in everyday use by the author. Thus wrote Norman L. Skene in the preface to the fifth edition of Elements of Yacht Design. Skene's is one of the most famous books on yacht design ever written. First published in 1904, Skene did several revisions, the last of which was published in 1938 and is reprinted here in its original form. In 1962, the book was completely revised by Francis S. Kinney and republished as Skene's Elements of Yacht Design. Kinney's last version was published in 1973 and it is long out of print. While the experts are divided on the relative merits of the different editions, it appears that there is strong demand for Skene's original work. At last the book is again available to the many boatbuilders, aspiring naval architects, and sailors who need it for frequent reference. The index has been completely revised and expanded to make it more useful for today's readers.

Civil War Yacht Thomas R. Neblett,2009-04 From the race of the 100 Guinea Cup 1851, to a personal yacht, to an espionage boat for the Confederacy, to a blockader for the Union Navy, the trodden decks of this black schooner carries many stories. The yacht America transports the reader from a shipyard in New York City across the Atlantic to the famous race of the Royal Yacht Squadron Queens Cup of 1851, now known as the Americas Cup Race.. She became known as the Yankee schooner, raced with European yachts for several years, and in 1861 mysteriously sailed into Savannah, Georgia, carrying British colors and the Royal Victoria Yacht Clubs burgee. The Civil war had just begun. As the fifth yachts owner, Henry Decie, an Irish sagacious, gentry-man becomes acquainted with the Jefferson Davis Administration. The yacht was prostituted to transport two Confederate officers to England. One officer was to serve as a secret emissary for President Davis, while the other officer was to purchase/build abroad iron-clad warships. Henry Decie and his yacht, re-named Camilla, are captained across the Atlantic, to react with the Confederate urgent fares. However, he took time to race at the Isle of Wight. Decie left the Confederate officers unceremoniously and sailed to Dixie - stopping at the Cape de Verdes, maybe to avoid Mason and Slidell. The yacht disappeared between late1861 and early1862. She had been scuttled by the Confederates in a creek hideaway. She was found and rescued by the Union Navy vessels far upriver beyond Jacksonville, Florida. Americas celebrated life doesnt terminate in England, soon she was flying the colors of the USN as a naval blockader. For a little schooner her activities are full of intrigue. She is a proven winner of the waves, and holds an extremely important place in American yachting hist

Vencedor Charles Axel Poekel Jr.,2023-08-01 Impeccably researched and colorfully told, Vencedor is a fascinating account of not just a racing sailboat storied for its exploits and victories, but of the man who built it: Danish American naval engineer Thorvald Julius Schougaard Poekel. Vencedor would distinguish itself in a series of highly competitive races between the United States and Canada on what has been called “the great unsalted sea”—the Great Lakes—that led to the creation of Canada’s Cup, one of the most prestigious yachting events in the world. Vencedor, a 65-foot sloop, was built by the Racine Boat Manufacturing Company, which had hired Poekel away from the renowned Herreshoff Boatyard in Bristol, Rhode Island, where he had been the chief draftsman, working alongside Nathanael Greene Herreshoff and his brother. Under this magnetic and revealing account of a bygone era and heated competition lies a mystery. During Poekel’s nine-year tenure with the Herreshoffs, the company made some of the fastest and most famous yachts in the world. Although “Capt. Nat” signed almost every construction plan alone, the name “T. Sch. Poekel” appears on several. In Vencedor, Thorvald Poekel’s great-grandson, gives credence to the theory that his ancestor really was an unsung Herreshoff hero.
