Khaled, a Tale of Arabia F. Marion F. Marion Crawford,2013-10 Khaled stood in the third heaven, which is the heaven of precious stones, and of Asrael, the angel of Death. In the midst of the light shed by the fruit of the trees Asrael himself is sitting, and will sit until the day of the resurrection from the dead, writing in his book the names of those who are to be born, and blotting out the names of those who have lived their years and must die. Each of the trees has seventy thousand branches, each branch bears seventy thousand fruits, each fruit is composed of seventy thousand diamonds, rubies, emeralds, carbuncles, jacinths, and other precious stones. The stature and proportions of Asrael are so great that his eyes are seventy thousand days' journey apart, the one from the other. Khaled stood motionless during ten months and thirteen days, waiting until Asrael should rest from his writing and look towards him. Then came the holy night called Al Kadr, the night of peace in which the Koran came down from heaven. Asrael paused, and raising his eyes from the scroll saw Khaled standing before him.

Arabia and the Isles William Harold Ingrams,1966

Football (Soccer) in Africa Augustine E. Ayuk,2022-04-26 This volume provides an analysis of the history, origins, and development of football in Africa. It brings together an edited assemblage of essays that describe and analyse football in nine African countries, including Cameroon, DRC, Egypt, Ghana, Kenya, Nigeria, Senegal, South Africa, and Uganda, from a social science perspective. The selection of these countries highlights the three major foreign languages and powers that have governed the continent; The English, the French, and Arabic, and provides a prism through which to analyze and compare how football developed in the various countries throughout Africa. This comparative methodology allow readers to identify similarities and differences in the progression of the game on the continent, and by focusing on football, an important relic of European colonialism in Africa, underscores the continued dependence on, and domination of Europeans on the Africans. In situating the genesis of the game, contributors examine and analyze the history, development, management, and mismanagement by bureaucrats at the political level as well as at various football federations throughout the continent.

Understanding World Media Dr Kumar Kaustubha, Dr Ajitabh & Mudita Agnihotri Sant,2021-08-14 Understanding World Media Understanding World Media sets out to mirror world media and the freedom it enjoyed across the globe in about 200 countries. While media is an important part of academic research, concerns have been raised globally on its content, intent and freedom of expression. To the extent that even as per the data compiled by Reporters Without Borders, democratic India ranks below par at 138 in the World Press Freedom Index 2018 out of the 180 listed nations. Though, it is a question of debate and discussions to what extent media in India is considered free or under censorship. When India is emerging as a global power with over 55 percent of its population is under 35 years of age, interest in the world community and media is growing leaps and bounds. It is in this context that this book magnifies its mirror to bring facts about the status and understanding of media in the world. For any book like this, it will always have its challenges to cover subjects like media in a nutshell, but for today, this book is timely and relevant. It is a balanced and thoughtful effort to present such a comprehensive book in a crisp and concise manner, as it is difficult to get experts on various countries to write on their respective domains. We have put our utmost effort to consolidate all necessary information and analysis required for this collection and we are very hopeful that it will serve its purpose, fulfill the void and information gap about the world media. Understanding World Media is structured around two clear themes, the status of media in various countries and its freedom of expression. It is divided into five parts covering vast geographical areas in Asia, Europe, the Americas, Africa and Australia-Oceania.
