Wisdom from Rural Java Sartini, 2021-01-21 This study illustrates the strong relationship between world views and ethical values that are embedded in the lives of a group of people called wong pinter. Some notes on the results of the study show the following points. First, on the basis of the categories of worldviews studied (classification, causality, space, time, and self-others relation), it is found that the concept of classification is not strong enough. The concept of space is also not sufficiently patterned, in contrast to the findings of the concept of space on the Ainu people, the people of Bali and Yogyakarta. Wong pinter describes the concept of space in relation to the existence of non-human beings. The concept of time is explained in more detail. Some of the views about time are intended to discipline and self-control. On the self-other concept, God becomes the most important element in His status as the Almighty. The self is a common creature that interacts with other humans and non-human beings. Horizontally, the worldview of wong pinter pivots on the ethical elements of the relationship between God's creatures that synergize and create harmony so as to create a comfortable and peaceful life. Secondly, the basic concept of the worldview guides the wong pinter on the pattern of life both in society, self-control, keeping not to hurt others, and care about the hassles of others. Therefore, they are regarded as people who behave nobly and become role models in society. Thirdly, even though the wong pinter has some abilities that are relatively similar to the abilities of the shamans (common dukun) that have been mentioned by most researchers but the behavior of wong pinter is different from and even contradicts the general characteristics of the dukun. Fourth, this study enriches the study of the concept of space, time, causality, and self-other relationships. This study also explicitly revises the theories that generalize the understanding and characteristics of dukun or wong pinter which has been widely associated with witchcraft, money, and worldly pragmatic goals.

Aufführungsrituale der Musik Magdalena Fürnkranz, Harald Huber, 2021-10-31 Die Unterscheidung von E-Musik und U-Musik hat ausgedient. Als neuen Ansatz präsentieren Magdalena Fürnkranz und Harald Huber ein Stilmfeldermodell und führen es am Beispiel der österreichischen Musiklandschaft der Gegenwart aus. In Form von qualitativen Fallstudien und vergleichenden Analysen erkunden sie Differenzen und Diffusionen zwischen den Stilfeldern »Klassik/zeitgenössische Musik«, »Jazz/improvisierte Musik«, »Volksmusik/World Music«, »Dance/HipHop/Elektronik«, »Rock- und Popmusik« sowie »Schlager/volkstümliche Musik«. Der kultursoziologische Ansatz von Pierre Bourdieu erfährt hier eine transformierte Konkretisierung und dient der Neubestimmung musikalisch-kultureller Diversität und Hybridität.

HipHop aus Österreich Frederik Dörfler-Trummer, 2021-02-28 Erstmals wird in diesem Buch die für Deutschrap oft impulsgebende österreichische HipHop-Musiklandschaft auf Buchlänge ins Zentrum gerückt. Frederik Dörfler-Trummer zeichnet die Karrieren der wichtigsten Vertreter*innen - von Falco über Money Boy bis RAF Camora - nach und analysiert ihre Musik. Dabei werden genredefinierende Charakteristika des HipHop für die Subgenres BoomBap, Gangsta-Rap, Trap und Cloud-Rap herausgearbeitet. Über den Aspekt der Globalisierung wird zudem das Zusammenspiel von globaler Verbreitung und lokaler Aneignung von HipHop-Musik demonstriert.

The Economics of Music Peter Tschmuck, 2021 The music industry is one of the most dynamic business sectors. It has had to evolve and adapt to continually changing technologies and business models. Its latest challenge has been Covid-19 and the loss of live music at a time when live performance outstrips music sales as the primary source of income for today's artists. The second edition of this much used introduction to the economic workings of the music business explores the impact of the pandemic at every level of the sector and considers how the business model may need to change going forward as different stakeholder positions shift. The new edition also examines new trends in the music industry such as the increasing dominance of tech companies and data, the increasing importance of CMOs as market players, the increased role of artist management, which has impacted on new business contracts, as well as changes to how we use music in our everyday lives and how this impacts on new entrepreneurial behaviours around music.

Music, Management, Marketing, and Law Phil Graham, 2019-03-25 This collection of interviews captures a period of historic change for the global music business along with a wealth of professional knowledge that extends from the late 1960s through to late 2012 when the interviews were conducted. They record the experiences and insights of people who helped to shape a global business that is quickly passing into history and transforming into something entirely new, often because of decisions the interviewees have been directly involved in making. The material includes the aesthetic, artistic, technical, commercial, legal, and strategic aspects of the music industry. What is said is timeless in its historical significance for the music business and in its relevance for researchers engaged in studies on the dynamics of change in the global commercial music landscape.

Tove Jansson Tuula Karjalainen, 2014-11-27 The definitive illustrated biography of one of the most unique and beloved children's authors of the 20th century, the creator of the Moomins. Tove Jansson (1914-2001) led a long, colourful and productive life, impacting significantly the political, social and cultural history of 20th-century Finland. And while millions of children have grown up with Little My, Snufkin, Moomintroll and the many creatures of Moominvalley, the life of Jansson - daughter, friend and companion - is more touching still. This book weaves together the myriad qualities of a painter, author, illustrator, scriptwriter and lyricist from fraught beginnings through fame, war and heartbreak and ultimately to a peaceful end.

The Real Messiah Stephan Huller, 2012-01-01 Highly controversial but impeccably researched, The Real Messiah explodes the myth that Jesus was the long-prophesied Messiah of the Jewish nation. Indeed, it argues that Jesus never claimed that role but thought of himself as herald to the true Messiah: Marcus Julius Agrippa, the last King of the Jews and Jesus' contemporary. It was he who truly founded what became known as Christianity, and wanted to build a faith to which anyone could aspire. Though Marcus Agrippa was initially successful, with the passing of time those in charge of the new faith capitulated to the whims of successive Roman Emperors and centered their religion on Jesus instead.

Irrigation against rural poverty: an overview of issues and pro-poor intervention strategies in irrigated agriculture in Asia - Proceedings of National Workshops on Pro-Poor Intervention Strategies in Irrigated Agriculture in Asia, Bangladesh, China, India, Indonesia, Pakistan and Vietnam [9-10 August 2001, Colombo, Sri Lanka] Hussain, I., Biltonen, E. A Thousand Machines Gerald Raunig, 2010-04-09 The machine as a social movement of today's "precariat"—those whose labor and lives are precarious. In this "concise philosophy of the machine," Gerald Raunig provides a historical and critical backdrop to a concept proposed forty years ago by the French philosophers Félix Guattari and Gilles Deleuze: the machine, not as a technical

device and apparatus, but as a social composition and concatenation. This conception of the machine as an arrangement of technical, bodily, intellectual, and social components subverts the opposition between man and machine, organism and mechanism, individual and community. Drawing from an unusual range of films, literature, and performance—from the role of bicycles in Flann O'Brien's fiction to Vittorio de Sica's Neorealist film *The Bicycle Thieves*, and from Karl Marx's "Fragment on Machines" to the deus ex machina of Greek drama—Raunig arrives at an enhanced conception of the machine as a social movement, finding its most apt and concrete manifestation in the Euromayday movement, which since 2001 has become a transnational activist and discursive practice focused upon the precarious nature of labor and lives.

Letters from Tove Tove Jansson, 2020-03-10 A virtual memoir in letters by the beloved creator of the Moomins Tove Jansson's works, even her famed Moomin books, fairly teem with letters of one kind or another, from messages bobbing in bottles to whole epistolary novels. Fortunately for her countless readers, her life was no different, unfolding as it did in the letters to family, friends, and lovers that make up this volume, a veritable autobiography over the course of six decades—and the only one Jansson ever wrote. And just as letters carry a weight of significance in Jansson's writing, those she wrote throughout her life reflect the gravity of her circumstances, the depth of her thoughts and feelings, and the critical moments of humor, sadness, and grace that mark an artist's days. These letters, penned with characteristic insight and wit, provide an almost seamless commentary on Jansson's life within Helsinki's bohemian circles and on her island home. Shifting between hope and despair, yearning and happiness, they describe her immersion in art studies and her ascension to fame with the Moomins. They speak frankly of friendship and love, loneliness and solidarity, and also of politics, art, literature, and society. They summon a particular place and time reflected through a mind finely attuned to her culture, her world, and her own nature—all clearly put into biographical and historical context by the volume's editors, both longtime friends of Tove Jansson—and, in the end, draw a complex, intimate self-portrait of one of the world's most beloved authors.

The Irrigation Sector, 1999 India's irrigated agriculture sector has been basic to India's economic development and poverty alleviation. One of India's major achievements is its rapid expansion of irrigation and drainage infrastructure. However, the major emphasis on development has been achieved at a cost. The importance put on new construction has diverted attention away from the need to ensure the quality, productivity, and sustainability of the services. Further, a governmental subsidy based approach has been used and this has resulted in irrigation and drainage services which, while enabling significantly higher productivity than from non-irrigated lands, are well below their potential. 'The Irrigation Sector' discusses directions for future growth, the framework for reform, and the reform agenda.
