*Reading Matters* Ulrich Marzolph, 2023 The present book is a special gift for a special colleague and friend. Defined as an “Unfestschrift,” it gives colleagues, students, and friends of Regina Bendix an opportunity to express their esteem for Regina’s inspiration, cooperation, leadership, and friendship in an adequate and lasting manner. The title of the present book, *Reading Matters*, is as close as possible to an English equivalent of the beautiful German double entendre *Erlesenes* (meaning both “something read/a reading” and “something exquisite”). Presenting “matters for reading,” the *Unfestschrift* unites short contributions about “readings” that “mattered” in some way or another for the contributors, readings that had an impact on their understanding of whatever they were at some time or presently are interested in. The term “readings” is understood widely. Since most of the invited contributors are academics, the term implies, in the first place, readings of an academic or scholarly nature. In a wider notion, however, “readings” also refer to any other piece of literature, the perception of a piece of art (a painting, a sculpture, a performance), listening to music, appreciating a “folkloric” performance or a fieldwork experience, or just anything else whose “reading” or individual perception has been meaningful for the contributors in different ways. Contrary to a strictly scholarly treatment of a given topic in which the author often disappears behind the subject, the presentations unveil and highlight the contributor’s personal involvement, and thus a dimension of crucial importance for ethnographers such as the dedicatee.

**European Consumers in the Digital Era** Małgorzata Bartosik-Purgat, Nela Filimon, 2022-10-18 Consumers make purchasing decisions every day, taking into account their needs, preferences and beliefs which may change due to various determinants; some depending on the consumers themselves and others on the organizations acting in the market. What determinants are inducing

these changes in consumers' needs, perceptions, attitudes, values, and finally, purchasing behavior? This edited collection offers a comprehensive description of the consumer behavior process and the determinants that affect it in the era of digitalization. This book offers a holistic perspective of consumer behavior in the 21st century in different European cultures that are characterized by new technologies, including smartphones, AR, IoT, AI, and social media, as well as cultural changes and the Covid-19 pandemic. The first part of the book is devoted to characteristic phenomena in consumer behavior in the era of digitalization, such as changes in the consumer buying decision-making processes, e-commerce, prosumers' and consumers' attitudes towards innovations. The second part will describe the consumers, their decision-making processes, with examples from almost all geographical regions in Europe, including Germany, Spain, Italy, Finland, Poland and Russia. Both individually and collectively, the contributors provide discussion points and practical implications resulting from the changes observed in consumer behavior in each country. *European Consumers in the Digital Era* provides a comprehensive overview of digital consumer behavior, offering timely insights for scholars and researchers. It will also appeal to postgraduate students of related fields, including marketing, innovation and sociology.

*The Nordic Economic, Social and Political Model* Anu Koivunen, Jari Ojala, Janne Holmén, 2021-04-22 The Nordic Model is the 20th-century Scandinavian recipe for combining stable democracies, individual freedom, economic growth and comprehensive systems for social security. But what happens when Sweden and Finland – two countries topping global indexes for competitiveness, productivity, growth, quality of life, prosperity, and equality – start doubting themselves and their future? Is the Nordic Model at a crossroads? Historically, consensus, continuity, social cohesion, and broad social trust have been hailed as key components for the

success and for the self-images of Sweden and Finland. In the contemporary, however, political debates in both countries are increasingly focused on risks, threats, and worry. Social disintegration, political polarization, geopolitical anxieties, and threat of terrorism are often dominant themes. This book focuses on what appears to be a paradox: countries with low income differences, high faith in social institutions, and relatively high cultural homogeneity becoming fixated on the fear of polarization, disintegration, and diminished social trust. Unpacking the presentist discourse of worry and a sense of interregnum at the face of geopolitical tensions, digitalization, and globalization, as well as challenges to democracy, the chapters take steps back in time and explore the current conjecture through the eyes of historians and social scientists, addressing key aspects of and challenges to both the contemporary and future Nordic Model. In addition, the functioning and efficacy of the participatory democracy and current protocols of decision-making are debated. This work is essential reading for students and scholars of the welfare state, social reforms, and populism, as well as Nordic and Scandinavian studies. The Open Access version of this book, available at [www.taylorfrancis.com](http://www.taylorfrancis.com), has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

**The Values of Public Service Media in the Internet Society** Miguel Túñez-López, Francisco Campos-Freire, Marta Rodríguez-Castro, 2021-03-16 This book provides a global overview of the challenges and opportunities faced by Public Service Media (PSM) organizations, including the increasing power of digital platforms, changing consumption habits, and reforms on funding models. In order to survive in the new, transforming media ecosystem, PSM organizations need to retain their core values whilst also embracing new values stemming from society's increasingly complex communication needs and value systems. The contributions of 40 authors from three continents are

grouped into three areas in which PSM organizations can create value: innovation, governance and relation to the market, and democratic reinforcement. The book illustrates how PSM can create value for different stakeholders, in different contexts, and through different methods. Contributing to a better understanding of the role of PSM in current media systems, PSM is shown as a key agent for the development of the public sphere and democratic societies.

**Undoing Homogeneity in the Nordic Region** Suvi Keskinen, Unnur Dís Skaptadóttir, Mari Toivanen, 2019-06-03 Chapter 1 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.  
[https://tandfbis.s3-us-west-2.amazonaws.com/rt-files/docs/Open+Access+Chapters/9781138564275\\_oachapter1.pdf](https://tandfbis.s3-us-west-2.amazonaws.com/rt-files/docs/Open+Access+Chapters/9781138564275_oachapter1.pdf) This book critically engages with dominant ideas of cultural homogeneity in the Nordic countries and contests the notion of homogeneity as a crucial determinant of social cohesion and societal security. Showing how national identities in the Nordic region have developed historically around notions of cultural and racial homogeneity, it exposes the varied histories of migration and the longstanding presence of ethnic minorities and indigenous people in the region that are ignored in dominant narratives. With attention to the implications of notions of homogeneity for the everyday lives of migrants and racialised minorities in the region, as well as the increasing securitisation of those perceived not to be part of the homogenous nation, this volume provides detailed analyses of how welfare state policies, media, and authorities seek to manage and govern cultural, religious, and racial differences. With studies of national minorities, indigenous people and migrants in the analysis of homogeneity and difference, it sheds light on the agency of minorities and the intertwining of securitisation policies with notions of culture, race, and religion in the government of difference. As such it will appeal to scholars and students in social sciences and

humanities with interests in race and ethnicity, migration, postcolonialism, Nordic studies, multiculturalism, citizenship, and belonging.

**The Best of Helsinki** Kim Anton, 2022-04-04 The Best of Helsinki introduces the key sights of Helsinki, and local activities that can be as exotic as the unique culture of this Nordic country. Also local favorites that include events, places and tastes that few foreigners know about are explained in the travel guide. The book is a visual guide to the city, featuring plenty of maps and photographs for tour planning, for quickly absorbing the elemental information about the key places, and for navigating the city. Helsinki, the capital of Finland, is located by the sea, and surrounded by a geographically large, but scarcely inhabited country that leaves plenty of space for wild forests and clear water lakes. The metropolitan area is home for 1.3 million people, but the city itself is relatively compact and easy to explore on your own. Helsinki is a modern Scandinavian city dominated by the country's unique culture between the east and the west, Nordic architecture, buzzing nightlife and bustling business. The Second Edition of The Best of Helsinki introduces new destinations with all content checked and updated. The guidebook provides valuable tourist information for the destination, and cultural tips from local people that contribute to making travelers' stay in the city enjoyable.

*Civil Disobedience from Nepal to Norway* Tapio Nykänen, Tiina Seppälä, Petri Koikkalainen, 2022-09-30 This volume explores the shifts in how civil disobedience has come to be theorized, defined, understood, and practised in contemporary politics. As social activism takes increasingly global forms, the goals of individuals and groups who view themselves as disobedient activists today can be defined in broader cultural terms than before, and their relationship to law and violence can be ambiguous. Civil disobedience may no longer be entirely nonviolent, its

purposes no longer necessarily serve progressive or emancipatory agendas. Its manifestations often blur the lines established in “classic”, philosophically justified, and self-regulatory forms as epitomised in mass nonviolent protests of Mahatma Gandhi and Martin Luther King and theories of Arendt, Rawls and Dworkin. How civil disobedience operates has changed over the years, and this volume unpacks its many contemporary lives. It discusses new theoretical and political dilemmas and paradoxes through empirical cases and practical examples from Europe, the United States, and South Asia, which enables a “mirroring” perspective for the challenges and complexities of civil disobedience in different parts of the world. Bringing together innovative and introspective perspectives on people and protests in contemporary political contexts, this volume will be of great interest to scholars and philosophers of political science, international relations theory, political philosophy, peace and conflict studies, sociology, and cultural studies.

**The Far-Right Discourse of Multiculturalism in Intergroup Interactions** Katarina Pettersson, Emma Nortio, 2022-03-02 This book employs discursive psychology to examine how far-right discourse on issues related to multiculturalism is received, interpreted, adapted and contested in political rhetoric and informal talk. It brings together the latest research from sociology and media studies concerning the circulation of far-right messages in the era of digitalization and the ‘hybrid media system’, and critical discursive psychology research into political and lay discourse pertaining to multiculturalism. Drawing on empirical material from the Nordic context allows for an analysis of political discourse within societies in which a strong tradition of social democratic welfare states now exists alongside the rise of populist and far-right parties. Operating in countries with comparatively high national internet and social media penetration, this book explores the extent to which the success of these parties is linked to their skilful use of social media, in order to

mobilise popular support for their political agendas. The collection's multilevel perspective aims to further the understanding of how the anti-immigration and anti-multiculturalist ideologies propagated by these parties contributes to the mainstreaming of their rhetoric among the political 'elite', as well as to the societal normalization of nationalist and xenophobic discourse. In doing so it will provide fresh insights for students and scholars of sociology, social psychology, discourse analysis, media and communication, and political science.

**Finnish Settler Colonialism in North America** Rani-Henrik Andersson, Janne Lahti, 2022-12-29 **Finnish Settler Colonialism in North America** reinterprets Finnish experiences in North America by connecting them to the transnational processes of settler colonial conquest, far-settlement, elimination of natives, and capture of terrestrial spaces. Rather than merely exploring whether the idea of Finns as a different kind of immigrant is a myth, this book challenges it in many ways. It offers an analysis of the ways in which this myth manifests itself, why it has been upheld to this day, and most importantly how it contributes to settler colonialism in North America and

beyond. The authors in this volume apply multidisciplinary perspectives in revealing the various levels of Finnish involvement in settler colonialism. In their chapters, authors seek to understand the experiences and representations of Finns in North American spatial projects, in territorial expansion and integration, and visions of power. They do so by analyzing how Finns reinvented their identities and acted as settlers, participated in the production of settler colonial narratives, as well as benefitted and took advantage of settler colonial structures. Finnish Settler Colonialism in North America aims to challenge traditional histories of Finnish migration, in which Finns have typically been viewed almost in isolation from the broader American context, not to mention colonialism. The book examines the diversity of roles, experiences, and narrations of and by Finns in the histories of North America by employing the settler colonial analytical framework.

*Punching Up in Stand-Up Comedy* Rashi Bhargava, Richa Chilana, 2022-12-30 *Punching Up in Stand-Up Comedy* explores the new forms, voices and venues of stand-up comedy in different parts of the world and its potential role as a counterhegemonic tool for satire, commentary and expression of identity especially for the disempowered or marginalised. The title brings together essays and perspectives on stand-up and satire from different cultural and political contexts across the world which raise pertinent issues regarding its role in contemporary times, especially with the increased presence of OTT platforms and internet penetration that allows for easy access to this art form. It examines the theoretical understanding of the different aspects of the humour, aesthetics and politics of stand-up comedy, as well as the exploration of race, gender, politics and conflicts, urban culture and LGBTQ+ identities in countries such as Indonesia, Finland, France, Iran, Italy, Morocco, India and the USA. It also asks the question whether, along with contesting and destabilising existing discursive frameworks and identities, a stand-up comic can open up a space for envisaging a new social, cultural and political order? This book will appeal to people interested in performance studies, media, popular culture, digital culture, sociology, digital sociology and anthropology, and English literature. Shared Lives of Humans and Animals Tuomas Räsänen, Taina Syrjämaa, 2017-04-21 Animals are conscious beings that form their own perspective regarding the lifeworlds in which they exist, and according to which they act in relation to their species and other animals. In recent decades a thorough transformation in societal research has taken place, as many groups that were previously perceived as being passive or subjugated objects have become active subjects. This fundamental reassessment, first promoted by feminist and radical studies, has subsequently been followed by spatial and material turns that have brought non-human agency to the fore. In human-animal relations, despite a power imbalance, animals are not mere objects but act as agents. They shape our material world and our encounters with them influence the way we think about the world and ourselves. This book focuses on animal agency and interactions between humans and animals. It explores the reciprocity of human-animal relations and the capacity of animals to act and shape human societies. The chapters draw on examples from the Global North to explore how human life in modernity has been and is shaped by the sentience, autonomy, and physicality of various animals, particularly in landscapes where communities and wild animals exist in close proximity. It offers a timely contribution to animal studies, environmental geography, environmental history, and social science and humanities studies of the environment more broadly.

political challenges, including populism, migration, Brexit, and EU defence, foreign policy and enlargements. Discussing each of the problems as part of a process – including the historical roots, current situation and potential solutions – the book allows readers to gain an understanding of the European Union as a living project.

**Reinventing Public Service Communication** P. Iosifidis, 2010-02-10 These essays address one of the most challenging debates in contemporary European media studies: the transition of the traditional Public Service Broadcasters into Public Service Media, as they widen their remit to produce and distribute public service content across more delivery platforms to meet the requirements of the digital age.

Apolloni, 2021 This introduction positions the history of girl and young women singers in the 1960s in the context of broader histories of vocal training; ideas about voice, respectability, and expressivity; and the models of youthful femininity that were emergent in 1960s Britain.
