Invisible Man Ralph Ellison, 2016-08-18 *Invisible Man* is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of the Brotherhood, and retreating amid violence and confusion to the basement lair of the Invisible Man he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot's *The Waste Land*, Joyce, and Dostoevsky.

Canceling Comedians While the World Burns Ben Burgis, 2021-04-30 Between the decline of the labor movement, the aftershocks of the falls of so-called actually existing socialism, and the long exile of even social democrats from the levers of real power, we have gotten far too used to thinking of leftism as a performative exercise in expressing our political commitments rather than a serious effort to achieve left-wing goals in the real world. Cancelling Comedians While the World Burns calls for a smarter, funnier, more strategic left.

The Conspiracy against the Human Race Thomas Ligotti, 2018-10-02 In Thomas

Ligotti's first nonfiction outing, an examination of the meaning (or meaninglessness) of life through an insightful, unsparing argument that proves the greatest horrors are not the products of our imagination but instead are found in reality. There is a signature motif discernible in both works of philosophical pessimism and supernatural horror. It may be stated thus: Behind the scenes of life lurks something pernicious that makes a nightmare of our world. His fiction is known to be some of the most terrifying in the genre of supernatural horror, but Thomas Ligotti's first nonfiction book may be even scarier. Drawing on philosophy, literature, neuroscience, and other fields of study, Ligotti takes the penetrating lens of his imagination and turns it on his audience, causing them to grapple with the brutal reality that they are living a meaningless nightmare, and anyone who feels otherwise is simply acting out an optimistic fallacy. At once a guidebook to pessimistic thought and a relentless critique of humanity's employment of self-deception to cope with the pervasive suffering of their existence, *The Conspiracy against the Human Race* may just convince readers that there is more than a measure of truth in the despairing yet unexpectedly liberating negativity that is widely considered a hallmark of Ligotti's work.

The Gulag Archipelago 1918-1956 Aleksandr I. Solzhenitsyn, 2002-02-01 Drawing on his own incarceration and exile, as well as on evidence from more than 200 fellow prisoners and Soviet archives, Aleksandr I. Solzhenitsyn reveals the entire apparatus of Soviet repression -- the state within the state that ruled all-powerfully. Through truly Shakespearean portraits of its victims -- men, women, and children -- we encounter secret police operations, labor camps and prisons; the uprooting or extermination of whole populations, the welcome that awaited Russian soldiers who had been German prisoners of war. Yet we also witness the astounding moral courage of the incorruptible, who, defenseless, endured great brutality and degradation. The Gulag Archipelago 1918-1956 -- a grisly indictment of a regime, fashioned here into a veritable literary miracle -- has now been updated with a new introduction that includes the fall of the Soviet Union and Solzhenitsyn's move back to Russia.

Discourse 2.0 Deborah Tannen, Anna Marie Trester, 2013-03-12 Our everyday lives are increasingly being lived through electronic media, which are

changing our interactions and our communications in ways that we are only beginning to understand. In *Discourse 2.0: Language and New Media*, editors Deborah Tannen and Anna Marie Trester team up with top scholars in the field to shed light on the ways language is being used in, and shaped by, these new media contexts. Topics explored include: how Web 2.0 can be conceptualized and theorized; the role of English on the worldwide web; how use of social media such as Facebook and texting shape communication with family and friends; electronic discourse and assessment in educational and other settings; multimodality and the participatory spectacle in Web 2.0; asynchronicity and turn-taking; ways that we engage with technology including reading on-screen and on paper; and how all of these processes interplay with meaning-making. Students, professionals, and individuals will discover that *Discourse 2.0* offers a rich source of insight into these new forms of discourse that are pervasive in our lives.

Black Paradox Junji Ito, 2022-10-25 Four people intent on killing themselves meet through the suicide website *Black Paradox*: Maruso, a nurse who despairs about the future; Taburo, a man who is tortured by his doppelganger; Pii-tan, an engineer with his own robot clone; and Baracchi, a woman who agonizes about the birthmark on her face. They wander together in search of the perfect death, fatefully opening a door that leads them to a rather bizarre destiny... -- VIZ Media

Hybrid Warfare Mikael Weissmann, Niklas Nilsson, Bjö Palmertz, Per Thunholm, 2023-06-29 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. Hybrid Warfare refers to a military strategy that blends conventional warfare, so-called 'irregular warfare' and cyber-attacks with other influencing methods, such as fake news, diplomacy and foreign political intervention. As Hybrid Warfare becomes increasingly commonplace, there is an imminent need for research bringing attention to how these challenges can be addressed in order to develop a comprehensive approach towards Hybrid Threats and Hybrid Warfare. This volume supports the development of such an approach by bringing together practitioners and scholarly perspectives on the topic and by covering the threats themselves, as well as the tools and means to counter them, together with a number of real-world case studies. The book covers numerous aspects of current Hybrid Warfare discourses including a discussion of the perspectives of key western actors such as NATO, the US and the EU; an analysis of Russia and China's Hybrid Warfare capabilities; and the growing threat of cyberwarfare. A range of global case studies - featuring specific examples from the Baltics,

Taiwan, Ukraine, Iran and Catalonia - are drawn upon to demonstrate the employment of Hybrid Warfare tactics and how they have been countered in practice. Finally, the editors propose a new method through which to understand the dynamics of Hybrid Threats, Warfare and their countermeasures, termed the 'Hybridity Blizzard Model'. With a focus on practitioner insight and practicable International Relations theory, this volume is an essential guide to identifying, analysing and countering Hybrid Threats and Warfare.

Images from the Likeness House Dan Savard, 2010 On a winter's day in 1889, Tsimshian Chief Arthur Wellington Clah went to Hannah and Richard Maynard's photography studio in Victoria 'to give myself likeness.' In *Images from the Likeness House*, Dan Savard explores the relationship between First Peoples in British Columbia, Alaska and Washington and the photographers who made images of them from the late 1850s to the 1920s. He gives examples of the great technological advancements that took place, from wet-glass-plate to nitrate-film negatives, showing the images in their original state, not cropped, corrected or retouched. This is not only an important book about photography, but also a visual statement about perception (and misperception), cultural change and survival. *Images from the Likeness House* will appeal to

ethnographers, photographers, art lovers and anyone interested in the history of BC, Alaska and Washington.

Lullabies from Hell Hideshi Hino, 2006 Welcome to one of the most disturbing minds of Japanese manga! Hideshi Hino has long been considered a master of the horror manga genre since his coming out in the late '70s. And the four stories in *Lullabies From Hell* will show you how demented the man can be. The self-titled first tome introduces you to the author himself, a horror quasi-biography of sorts. The second story tells of Hino's having willed his pregnant wife into birthing a horrible, planet-devastating reptile baby that eats puppies and children! And you can imagine how the stories progress from there.

Skin and Bone Hideshi Hino, 2004-10 A volume of four terrifyingly witty novellas penned by the undisputed Japanese master of horror manga. In *Skin and Bone* poor Taichi is bullied incessantly at school because of her weight problem. Haruna's deathly appearance shocks her friends when she returns to school in *The Red Satchel*. In *Two Sisters*, young beautiful Ms. Numata's outer appearance hides a ghastly truth. And in *Caterpillar* no one can understand Mayuko's obsession with caterpillars.
