Capital Consequences Rachel King,2005 Those who support capital punishment often claim that they do so because it provides justice and closure for the victims' families. In *Capital Consequences*, attorney Rachel King reminds us that there are other families and other victims who must be considered in the debate over the death penalty. Combining a narrative voice with vivid, passionate, and painful accounts of the families of death row inmates, the book demonstrates that crimes that lead to death sentences also devastate the families of those convicted. These families, King argues, are the unseen victims of capital punishment. King challenges readers to question the morality of a punishment that victimizes families of the condemned and ripples out through future generations. Chapters tell the stories of families that have lost life savings supporting an accused loved one, endured intense public scrutiny, been subjected to harassment by the media, and are struggling to live with the inhumane treatment that their loved ones receive on death row. The author also explores the unique nature of the grief that these families suffer. Because their pain tends to elicit less attention and empathy than that of the crime victims' families, King shows how it becomes much more desperate and isolating. On a human level, this book is a powerful reminder that tragic events have tragic consequences that far outreach their immediate victims. At the same time, the accounts illustrate many of the flaws inherent in the judicial system--racial and economic bias, incompetent counsel, prosecutorial misconduct, the execution of juveniles, and wrongful convictions, some of which are only now being overturned because of recent advances in DNA technology. Regardless of which side of the death penalty issue you are on, this book will lead you to pause and consider that all acts--criminal and retributive--have broader human implications than we are sometimes willing to realize.

Around Dallastown Richard C. Saylor and Michael L. Sentz, Jr.,2016 Officially incorporated in 1866, the site of Dallastown was once used as a parade ground by local militia during the Revolutionary War era. When James Peeling purchased 95 acres in the area in 1841, he set in motion the community's formation. In 1844, the town was officially named Dallastown, in honor of Philadelphia lawyer and vice president elect George M. Dallas. The final decades of the 19th century saw even more development for Dallastown. The first cigar factory in town opened in 1860, and by 1885, over 38 factories were in operation, creating new jobs, attracting new businesses, and more than doubling the population. Marking its sesquicentennial in 2016, the community of Dallastown continues to celebrate its borough and its unique history.

The Snakehead Patrick Radden Keefe,2009-07-21 In this thrilling panorama of real-life events, the bestselling author of *Empire of Pain* investigates a secret world run by a surprising criminal: a charismatic middle-aged grandmother, who from a tiny noodle shop in New York's Chinatown managed a multi-million dollar business smuggling people. "Reads like a mashup of *The Godfather* and Chinatown, complete with gun battles, a ruthless kingpin and a mountain of cash. Except that it's all true." —Time Keefe reveals the inner workings of Sister Ping's complex empire and recounts the decade-long FBI investigation that eventually brought her down. He follows an often incompetent and sometimes corrupt INS as it pursues desperate immigrants risking everything to come to America, and along the way, he paints a stunning portrait of a generation of illegal immigrants and the intricate underground economy that sustains and exploits them. Grand in scope yet propulsive in narrative force, *The Snakehead* is both a kaleidoscopic crime story and a brilliant exploration of the ironies of immigration in America.

How American Governments Work Roger L. Kemp,2007-03-16 During the past two decades, many countries in the world have peacefully undergone a transition to more popular forms of self-governance. The United States represents the world model for evolving forms of democracy. This volume details how government currently works in America. Forty essays examine the condition of all five levels of government in America--city, county, regional, state, and federal. They describe and examine the structures, operations and services provided by each level, as well as how they are financed.

September 11, 2001 and May 1, 2011 The Poynter Institute,2011-08-09 On Tuesday September 11, our world changed forever. The United States was attacked by an unknown terrorist organization. Word of this attack spread instantaneously around the world. Billions of people woke up on September 12 to find that the front page of their local newspaper was devoted to the tragedy of the World Trade Center and the Pentagon. And then on May 1, 2011 the world changed again with the news that Osama Bin Laden had been located and killed by a team of U.S. navy seals. September 11, 2001 and May 1, 2011 is a collection of over 150 front pages of major newspapers throughout the world announcing both events.

Ruling Against the Dover Area (PA) School District for Requiring That Intelligent Design be Taught as Part of the Biology Curriculum John E. Jones,2010-11 On 11/19/04, the Defendant Dover (PA) Area School Dist. announced that teachers would be required to read the following statement to students in the 9th grade biology class: "Because Darwin's Theory is a theory, it continues to be tested as new evidence is discovered. The Theory is not a fact . . . Intelligent Design (ID) is an explanation of the origin of life that differs from Darwin's view." On 1/21/04, Plaintiffs filed a suit challenging the constitutional validity of the resolution. In a ruling, Judge Jones found that the school board did have religious intentions when it added the ID concept to the curriculum, and also that the concept of ID is religion and not science. The verdict is only binding in the Middle dist. of PA but is likely to influence other judges.

The Color of Culture Daniel H. Krymkowski,2021-01-15 Utilizing written sources as well as nationally representative survey data, Daniel H. Krymkowski analyzes the extent and causes of African American underrepresentation in the cultural realms of golf, hiking, hunting and fishing, water sports, winter sports, classical music, painting and sculpture, ballet, and the theater. African American participation significantly lags behind that of non-Hispanic whites in all of these areas, and it is not due to an aversion to these types of activities. Rather, as Krymkowski shows, its primary sources are racial-ethnic socioeconomic differences, as well

as historic and contemporary discrimination, both overt and subtle. These causes are rooted in the systemic racism that continues to plague the United States. The lack of opportunity to participate in such cultural forms deprives African Americans of aesthetic experiences that are central to the human condition, and it has implications for both health and the accumulation of cultural and social capital. Krymkowski also explores current efforts to increase African American representation in these areas of culture and discusses the benefits of doing so.

No Peace, No Justice MaryConway Stewart,2006-01-05 An account of a trial that polarized a small city - a mentally incompetent snitch who derailed a popular mayor - defense attorneys and prosecutors who together supported a mythical murder with no grounding in evidence - white power rallies that never happened - and a local and national media that joined forces with an out of control prosecution and made a circus of the trial. This book is a close examination of the original testimony and evidence and the press role in the period between the convening of the grand jury and the end of the trials - an examination that no one before has attempted. In an epilogue the author suggests ways to prevent such catastrophes from occurring.

Never to be Forgotten James McClure,1999
All Available Light Judy Polumbaum,2021-06-04 As a young journalist during the Red Scare of the early 1950s, Ted Polumbaum defied Congressional inquisitors and suffered the usual consequences--he was fired, blacklisted, and trailed by the FBI. Yet he survived with his integrity intact to build a new career as an intrepid photojournalist, covering some of the most critical struggles of the latter half of the 20th century. In this biography, written two decades after his death, his daughter introduces this quirky, accomplished, politically engaged family man of the Greatest Generation, who was both of and ahead of his times. Polumbaum's fortitude, humor and optimism emerge, animated by the conscience of principled dissidence and social activism. His photography, with its unpretentious portrayals of the famous, the infamous, and the unsung heroes of humanity around the world, reflects his courage in the face of mass hysteria and his lifelong commitment to social justice.

Miracle on the Eastern Shore David A. Ranzan,2023-09-18 In the summer of 1937 the Salisbury Indians, a Class D minor league team in rural Maryland, achieved national celebrity playing one of the most amazing comeback seasons in baseball history. Starting with 21-5, the club allegedly violated the Eastern Shore League's rules by fielding more than four players with professional experience. Forfeiting their 21 wins and plummeting to the bottom of the standings, they went on to win 59 of their last 70 games, capturing the league pennant and playoffs championship. This game-by-game account chronicles the extraordinary pitching and relentless hitting of one of the greatest minor league teams ever assembled, under the redoubtable leadership of D'Arcy Jake Flowers.
