Foundations of Organic Chemistry David R. Dalton,2011-07-12 This book differs from other organic chemistry textbooks in that it is not focused purely on the needs of students studying premed, but rather for all students studying organic chemistry. It directs the reader to question present assumptions rather than to accept what is told, so the second chapter is largely devoted to spectroscopy (rather than finding it much later on as with most current organic chemistry textbooks). Additionally, after an introduction to spectroscopy, thermodynamics and kinetics, the presentation of structural information of compounds and organic families advances from hydrocarbons to alcohols to aldehydes and ketones and, finally, to carboxylic acids.

I'll Be Your Mirror Kenneth Goldsmith,2009-04-27 The Question-and-Answer interview was one of Andy Warhol's favorite communication vehicles, so much so that he named his own magazine after the form. Yet, never before has anyone published a collection of interviews that Warhol himself gave. I'll Be Your Mirror contains more than thirty conversations revealing this unique and important artist. Each piece presents a different facet of the Sphinx-like Warhol's ever-evolving personality. Writer Kenneth Goldsmith provides context and provenance for each selection. Beginning in 1962 with a notorious interview in which Warhol literally begs the interviewer to put words into his mouth, the book covers Warhol's most important artistic period during the '60s. As Warhol shifts to filmmaking in the '70s, this collection explores his emergence as socialite, scene-maker, and trendsetter; his influential Interview magazine; and the Studio 54 scene. In the 80s, his support of young artists like Jean-Michel Basquait, his perspective on art history and the growing relationship to technology in his work are shown. Finally, his return to religious imagery and spirituality are available in an interview conducted just months before his death. Including photographs and previous unpublished interviews, this collage of Warhol showcases the artist's ability to manipulate, captivate, and enrich American culture.

The NexStar User's Guide II Michael Swanson,2017-10-31 Michael Swanson's online discussions with literally thousands of NexStar owners made it clear that there was a desperate need for a book such as this – one that provides a complete, detailed guide to buying, using and maintaining NexStar telescopes. Although this book is highly comprehensive, it is suitable for beginners – there is a chapter on Astronomy Basics – and experts alike. Celestron's NexStar telescopes were introduced in 1999, beginning with their first computer controlled go to model, a 5-inch. More models appeared in quick succession, and Celestron's new range made it one of the two dominant manufacturers of affordable go to telescopes.

The Truth about You Bradford Baber,2023-11-09 This book is about you. You arrived in this world with a pure understanding of who you are, where you came from, and why you are here. Along with this, came absolute clarity about the meaning of your life and what is really important and true in this world. Then, during the normal process of growing up, while adapting to the world, and before you could share this truth with your tribe—you forgot. This is a truth-seeker's journey to remembering who you are, where you came from, and why you are here. It centers on the three basic parts of you—soul, body, and mind—and how these parts team up to create your experience of life and reveal life's true purpose. Along this inspirational path you will remember: • the meaning of integrity and how the few simple parts of life fit together to reveal the whole truth • how satyagraha (truth force) brings truth to the forefront of this journey • how you create your experience of life with the five phases of The Creation Sequence • how the intention behind your choices determines your experience • how your ego and your soul clash in creating your life experience • five practices to invite grace in your life, bringing fulfillment and well-being for all • sati (mindfulness) practices to help connect you to the truth of each chapter “I hope these ideas resonates with you, but in the end, you shouldn't listen to me. You should listen to you. That is the whole point of this book.”

Unified Field Mechanics: Natural Science Beyond The Veil Of Spacetime - Proceedings Of The IX Symposium Honoring Noted French Mathematical Physicist Jean-pierre Vigier Amoroso Richard L,Kauffman Louis H,Rowlands Peter,2015-09-08 Unified Field Mechanics, the topic of the 9th international symposium honoring noted French mathematical physicist Jean-Pierre Vigier cannot be considered highly speculative as a myopic critic might surmise. The 8th Vigier Symposium proceedings 'The Physics of Reality' should in fact be touted as a companion volume because of its dramatic theoretical Field Mechanics in additional dimensionality. Many still consider the Planck-scale zero-point field stochastic quantum foam as the 'basement of reality'. This could only be considered true under the limitations of the Copenhagen interpretation of quantum theory. As we enter the next regime of Unified Field Mechanics we now know that the energy-dependent Einstein-Minkowski manifold called spacetime has a finite radius beyond which a large-scale multiverse beckons. So far a battery of 14 experiments has been designed to falsify the model. When the 1st is successfully performed, a revolution in Natural Science will occur! This volume strengthens and expands the theoretical and experimental basis for that immanent new age.

The Lesbian Muse and Poetic Identity, 1889–1930 Sarah Parker,2015-10-06 Throughout history the poetic muse has tended to be (a passive) female and the poet male. This dynamic caused problems for late Victorian and twentieth-century women poets; how could the muse be reclaimed and moved on from the passive role of old? Parker looks at fin-de-siècle and modernist lyric poets to investigate how they overcame these challenges and identifies three key strategies: the reconfiguring of the muse as a contemporary instead of a historical/mythological figure; the muse as a male figure; and an interchangeable poet/muse relationship, granting agency to both.

Deadly Vengeance Travis Jerome,2013-05 Deadly Vengeance is an epic story of how one man's vengeance turned deadly. Four jewelry thieves robbed his jewelry store for more than ten million dollars' worth of jewelry and unwittingly stumbled on a valuable piece of jewelry that could ruin the lives of a few, leaving employed men seeking their whereabouts and many dead, with one up on the game the Federal Bureau of Investigation. Despite the men of law enforcement that seek to unravel the sophistication of the crime, the two main orchestrators of previous and following crimes, RL and Mayshach, seek their own vengeance: to take Wilson, the prominent owner of the jewelry store, for a substantial share of the empire he's acquired through selling mass amounts of drugs. Their vengeance is deadly.

Cinematography Mailing List - High Definition - January 2001 to November 2004 Geoff Boyle,2005-02-01 This book consists of edited conversations between DP's, Gaffer's, their crew and equipment suppliers. In common with the other CML books it doesn't have the same structure as a normal film reference book. It covers discussions on High Definition between January 2001 and November 2004. The discussions have occasionally been edited for clarity and brevity. They will sometimes ramble a little but that's the nature of a conversation and some interesting information comes out in the process! Our aim is to promote the free exchange of ideas among fellow professionals, the cinematographer, their camera crew, manufacturer's, rental houses and related businesses. Kodak, Arri, Aaton, Panavision, Otto Nemenz, Clairmont, Optex, VFG, Schneider, Tiffen, Fuji, Panasonic, Thomson, K5600, BandPro, Lighttools, Cooke, Plus8, SLF, Atlab Kinetta and Fujinon are among the companies represented.

The Annual of Psychoanalysis, V. 19 Jerome A. Winer,2013-05-13 Volume 19 of The Annual of Psychoanalysis turns to the ever-intriguing relationship between Psychoanalysis and Art. This introductory section begins with Donald Kuspit's scholarly reflections on the role of analysis in visual art and art criticism, and then proceeds to a series of topical studies on Freud and art introduced by Harry Trosman. Egyptologist Lorelei Corcoran explores the Egypt of Freud's imagination, thereby illuminating our understanding of the archaeological metaphor. Marion Tolpin offers new insights into Freud's analysis of the American writer Hilda Doolittle by focusing on the meaning of the Goddess Athene - whose statue rested on Freud's desk - to both analyst and analysand. Stephen Toulmin examines Freud's artistic sensibility - and places the historical significance of Freud's art collection in bold relief - by looking at the many contemporary art objects Freud chose not to collect. Danielle Knafo identifies key events in the early life of Austrian Expressionist Egon Schiele that were primary determinants of the content and form of his self-portraits. And Barbara Almond examines the spontaneous healing process depicted in Margaret Drabble's novel The Needle's Eye as an analogue to the kind of growth and development mobilized by the psychoanalytic process. Section II, Psychoanalysis and Development, begins with Barbara Fajardo's appreciation of the contribution of

biology to analyzability; she reviews findings from both infant research and biogenetic research that tend toward an understanding of constitution as resilience in development and, subsequently, in treatment. Benjamin Garber adds to the psychoanalytic understanding of childhood learning disabilities by presenting the three-and-a-half-year analysis of a learning-disabled child. In a fascinating two-part contribution, Bridging the Chasm Between Developmental Theory and Clinical Theory, Joseph Palombo sheds light on some of the knottiest problems in contemporary analysis, including the relationship between childhood events and the reconstruction of those events in treatment. In Section III, Psychoanalysis and Empathy, Mary Newsome presents case material in support of her claim that the analyst's empathic understanding catalyzes the coalescence of the patient's affect and aim, that is, the patient's capacity to believe in and then realize his ambitions. The acquisition of the capacity, she contends, not only betokens a specific kind of structure formation, but is the bedrock of emerging self-cohesion. Her challenging paper is thoughtfully discussed by David Terman and Jerome Winer. Section IV of The Annual offers Jerome Kavka's appreciation of the work of N. Lionel Blitzsten (1893-1952). Blitzsten, the first Chicago psychoanalyst and one of America's most gifted clinicians and teachers, anticipated modern concepts of narcissism in identifying narcissistic neuroses with special treatment requirements. Morris Sklansky furthers our understanding of Blitzsten in his discussion of Kavka's essay. Ranging across the analytic canvas with presentations as edifying as they are provocative, volume 19 of The Annual of Psychoanalysis challenges readers to wrestle with issues at the cutting edge of the discipline. It takes a well-deserved place in the preeminent continuing series in the field.

Many Gods and Many Voices Louis Lohr Martz,1998 Martz (English, emeritus, Yale) argues that the prophetic tradition, with its focus on the evils of the present, as well as the possibilities of redemption should be understood as an integral component of both the texture and contents of works by such modernist poets as Ezra Pound, William Carlos Williams, T. S. Eliot and others. Biblical prophecy, he asserts, is an important precedent for the tone and subject matter of these poets' works.
