In order to get 10,000 views, there are many factors that come into. There is usually not just one factor alone that will be responsible for your video getting 10,000 views alone. For the most of us Youtubers, your views will come from all over the web, not just from one source. Some will come directly from YouTube and some will come from other sites so be willing to spread your efforts and you will get the views you’re chasing. Remember, the more effort you put in, the more you get out. If you can make a totally awesome video that goes viral like the Ken Block Gymkhana videos or have some kind offamous, cute, funny person or big breasted woman starring in your video, your job of getting people to view and share it is going to be easy! Once a video goes viral, there is pretty much no stopping it. Some of the most popular viral videos on YouTube have over 600 million views!! If you’re not Justin Bieber, you’re going to have to do a little more “work” and rely on a collection of other factors to get views. If you’re lucky, maybe somewhere along the way, your video might get picked up by some big websites or big people online and it will go viral, but don’t hold your breath. Make the videos you want to make and share them using these tips. I can’t guarantee you’ll get 10,000 straight away, or even in your first week, but if you use any or all of these tips, you might be surprised.
