**Your Turn Now Compendium** Cherry Divecha-Sethia, 2021-05-03 Remember the time someone ran past you in corridor and jostled you against the wall? Remember the time no one shared a sip of water when your bottle fell and the water spilled out? Remember the time no one was your friend for the day? Remember the times you looked for a moment of kindness but did not find it? The fact is everyone has a well of kindness deep inside of them. You just have to remind them to use it. And when they do, it triggers off a chain of happiness that transforms everyone it touches. 'Your Turn Now' is a movement started by Rushabh Turakhia with a simple concept – to remind children and adults to use their innate kindness. Since its inception in 2009, this movement has now spread to several countries and has touched hundreds of lives. From housemaids to housewives, from students to tourists, from children to old men, they have all been touched by a stranger's kindness. They share these special moments in this heart-warming, inspiring collection of stories. This book is filled with true stories – that happened to real people. 'Your Turn Now' is a movement to spread smiles and kindness. The Little Blue Card is a happy tool that reminds people to pass on a kind act – connection that binds people from all walks of life across the world.

**Global Media Convergence and Cultural Transformation: Emerging Social Patterns and Characteristics** Jin, Dal Yong, 2010-11-30 This book aims to engage the complex relationship between technology, culture, and socio-economic elements by exploring it in a transnational, yet contextually grounded, framework, exploring diverse perspectives and approaches, from political economy to cultural studies, and from policy studies to ethnography. --Provided by publisher.

**Global Mobile Media** Gerard Goggin, 2010-10-18 Gerard Goggin has produced an incisive and penetrating overview of the world according to mobiles. Covering sight, sound and status, plus a host of other issues, he provides a provocative analysis of how mobile communication gadgets come to play such a prominent role in our lives. Any scholar of New Media will want to read this book – James Katz, Department of Communication, Rutgers University, USA With billions of users worldwide, the cell phone is not only a successful communications technology; it is also key to the future of media. Global Mobile Media offers an overview of the complex topic of mobile media, looking at the emerging industry structures, new media economies, mobile media cultures and network politics of cell phones as they move centre-stage in media industries. The development, adoption and significance of cell phones for society and culture have been registered in a growing body of work. Where existing books have focused on communication, and on the social and cultural aspects of mobile media, Global Mobile Media looks at the media dimensions. Goggin provides a pioneering yet measured evaluation of how cell phone corporations, media interests, users and policy makers are together shaping a new media dispensation. Global Mobile Media successfully places new mobile media historically, socially and culturally in a wider field of portable media technologies through extensive case studies, including: the rise of smartphones, with a detailed discussion of the Apple iPhone and how it has catalysed a new phase in convergent media, audiences and innovation the new agenda in cultural politics and media policy, featuring topics such as iPhone apps and control, mobile commons, and open mobile networks a succinct map of the political economy of mobile media, identifying key players, patterns of ownership and control, institutions, and issues a critical account of cell phones' involvement in and contribution to much-discussed new forms of production and consumption, such as user-generated content, p2p networks, open and free source software networks an anatomy of how cell phones relate to other online media, particularly the Internet and wireless technologies. Global Mobile Media is an engaging, accessible text which will be of immense interest to upper-level undergraduates, postgraduates and researchers in Communication Studies, Cultural Studies and Media Studies, as well as those taking New Media courses.

*An Introduction to Biblical Hebrew Syntax* Bruce K. Waltke, Michael Patrick O'Connor, 1990 Meeting the need for a textbook for classroom use after first year Hebrew grammar, Waltke and O'Connor integrate the results of modern linguistic study of Hebrew and years of experience teaching the subject in this book. In addition to functioning as a teaching grammar, this work will also be widely used for reference and self-guided instruction in Hebrew beyond the first formal year. Extensive discussion and explanation of grammatical points help to sort out points blurred in introductory books. More than 3,500 Biblical Hebrew examples illustrate the points of grammar under discussion. Four indexes (Scripture, Authorities cited, Hebrew words, and Topics) provide ready access to the vast array of information found in the 40 chapters. Destined to become a classic work, this long-awaited book fills a major gap among modern publications on Biblical Hebrew.

**Complex Networks** Ronaldo Menezes, Santo Fortunato, Giuseppe Mangioni, Vincenzo Nicosia, 2009-04-22 Though the reductionist approach to biology and medicine has led to several important advances, further progresses with respect to the remaining challenges require integration of representation, characterization and modeling of the studied systems along a wide range of spatial and time scales. Such an approach, intrinsically related to systems biology, is poised to ultimately turning biology into a more precise and synthetic discipline, paving the way to extensive preventive and regenerative medicine [1], drug discovery [20] and treatment optimization [24]. A particularly appealing and effective approach to addressing the complexity of interactions inherent to the biological systems is provided by the new area of complex networks [34, 30, 8, 13, 12]. Basically, it is an extension of graph theory [10], focusing on the modeling, representation, characterization, analysis and simulation of complex systems by considering many elements and their interconnections. Complex networks concepts and methods have been used to study disease [17], transcription networks [5, 6, 4], protein-protein networks [22, 36, 16, 39], metabolic networks [23] and anatomy [40].

**Tiger Management** Martin Hemmert, 2012-10-02 Throughout the last several decades, Korean companies have entered the world markets in a wide range of manufacturing industries with great success. How did they achieve this exceptional performance? This book uncovers the secret of their performance through a comprehensive analysis of the Korean management system. It explains to an international audience how it has developed, why it works so well, and what non-Koreans can learn from it. The book analyzes the management of Korean firms from three different perspectives. First, a historical perspective is applied by showing how Tiger Management has emerged and how it has been continuously advanced over the last 50 years. The breathtaking stories of how Korean companies, seemingly coming from nowhere, have challenged their Western and Japanese competitors on the world markets are told. Second, the cornerstones of Tiger Management are analyzed from a functional viewpoint, showing that the success of Korean companies rests on a smart combination of business strategy, leadership, and human resource management practices. Finally, the present and future of Tiger Management is discussed by showing how Korean companies have adapted to changes in their business environment at home and abroad, and what non-Korean companies can learn from their Korean rivals. The book gives an up-to-date analysis of Korean management practices from a global perspective. It identifies the success factors of Korean companies: long term, aggressive and persisting business planning, speed, flexibility, strong leadership, strong teamwork, and high investment into human skills and capabilities. It illustrates how these management practices complement each other and provides non-Korean companies with signposts how they can adopt them.

**ghostgirl: Homecoming** Tonya Hurley, 2009-07-01 Heaven couldn't be a phone bank, could it? Charlotte Usher discovers that the afterlife isn't quite what she pictured when she's forced to intern at a hotline for troubled teens. Before she can officially cross over, she'll have to be a source of guidance for one such teen. The problem is she doesn't have much advice to offer since dying hasn't exactly boosted her confidence level. But when Hawthorne High's leading, love-to-hate cheerleader Petula and her gothic little sis' Scarlet find themselves suddenly resting-in-peace in comas, Charlotte's opportunity to save them will prove to be the risk of a lifetime – for all of them. Praise for ghostgirl: \* Polished dark-and-deadpan humor, it's a natural fit with Gen Y, too. --Publishers Weekly (starred review) \* [Tonya] beats out witty teen-speak like a punk-band drummer, keeping the narrative fast-paced and fun yet thought-provokingly heartwarming. Goofy, ghastly, intelligent, electrifying. --Kirkus (starred review) \*Tim Burton and Edgar Allan Poe devotees will die for this fantastic, phantasmal read. --School Library Journal (starred review) \* Readers with a taste for black humor and satire will

feast on Hurley's crisp, wise dialogue. Anticipate a well deserved cult following. --VOYA (starred review)

Webcasting Worldwide Louisa S. Ha,Richard J. Ganahl,2013-03-07 Webcasting Worldwide tackles one of the most timely topics in mass communication today—the delivery of audio and video content via the Web, or webcasting—employing a global perspective to explore the subject. It is unique in providing a theoretical framework by which to analyze business models of emerging media, and it also examines the business practices of leading webcasters in the world’s most developed broadband markets. With webcasting in its early development, the approaches discussed in this volume set the standards for the webcasting industry. Representing the major broadband markets in the world, this text is an authoritative and valuable reference for both researchers and practitioners. The chapters relate the business practices of webcasting to the media market environment and established media industries, such as television and radio, as well as government and non-profit organizations. Downloadable resources offer PowerPoint charts for use in training, education, and research, along with tables, graphs, screenshots, and hyperlinks. Webcasting Worldwide is essential reading for academic researchers and media industry practitioners, and the volume will be a useful text in advanced courses addressing media technology, media management, and international communication. For updates about the book chapters and latest commentaries on topics related to webcasting business models, please visit the Webcasting Business Models Blog at <http://webcastingworldwide.blogspot.com> Winner of The Association for Education in Journalism and Mass Communication Picard Award for Media Management and Economics 2007.

Routledge Handbook of Descriptive Rhetorical Studies and World Languages Weixiao Wei,James Schnell,2023-05-12 The Routledge Handbook of Descriptive Rhetorical Studies and World Languages offers a useful collection of papers that presents rhetorical analysis of the discursal practice in different cultural settings. Covering issues from America to Europe and Asia, and topics from politics to media, education to science, agriculture to literature, and so on, the handbook describes how language can guide listeners’ interpretations, alter their perceptions and shape their worldviews. This book offers a solid foundation for rhetorical studies to become an essential discipline in arts and humanities, engendering innovative theory and applications in areas such as linguistics, literature, history, cultural studies, political science and sociology. This handbook will be crucial for students and researchers in areas such as literature and linguistics, communication studies, political science and arts and humanities in general.
