Ancient Future Wayne B. Chandler,2000-12 Ancient Future celebrates the wisdom of those ancient civilizations that did not disassociate the philosophical, spiritual, and material realms of life. This book is an attempt to re-create this holistic experience in hopes that a synthesized view of life will become reality in the 21st century.

Vinyl Moon Mahogany L. Browne,2022-01-11 A teen girl hiding the scars of a past relationship finds home and healing in the words of strong Black writers. A beautiful sophomore novel from a critically acclaimed author and poet that explores how words have the power to shape and uplift our world even in the midst of pain. A true embodiment of the term Black Girl Magic.” –Booklist When Darius told Angel he loved her, she believed him. But five weeks after the incident, Angel finds herself in Brooklyn, far from her family, from him, and from the California life she has known. Angel feels out of sync with her new neighborhood. At school, she can’t shake the feeling everyone knows what happened—and that it was her fault. The only place that makes sense is Ms. G’s class. There, Angel’s classmates share their own stories of pain, joy, and fortitude. And as Angel becomes immersed in her revolutionary literature course, the words from Black writers like Toni Morrison, James Baldwin, and Zora NEale Hurston speak to her and begin to heal the wounds of her past. This stunning novel weaves together prose, poems, and vignettes to tell the story of Angel, a young woman whose past was shaped by domestic violence but whose love of language and music and the gift of community grant her the chance to find herself again.

American Hardcore Steven Blush,2010-10-01 Hardcore, the hard-edged second generation of punk rock, whose peak period ranged from 1980 to 1986, has never before been captured in the way Steven Blushs authoritative, extensively illustrated oral history revisits its dynamic and sordid past. All the major hardcore scenes, particularly in Southern California, San Francisco, Washington D.C., Boston, New York City and Texas are given provocative voice through its major players, from drugged-out suburban Metal misfits to shit-kicking skinheads to vegan anti-drug pacifists. American Hardcore; A Tribal History not only recapitulates an important and influential scene, its provocative sociological snapshots reveal the apocalyptic desperation of a singular time in American history. Author Steven Blush was a prime mover in the scene he writes about; in the 80s, he promoted many hardcore tours and shows, DJ an influential college radio show, and ran a record label. Later Blush published Seconds magazine, and wrote for Paper, Spin, Interview, Village Voice, Details and High Times magazines. The primary photographers included in this volume are Edward Colver and Karen O Sullivan. Flyers, set lists, logos, and record covers have been provided by many collectors, and the book includes an extensive discography of Hard core rock releases from 1980 to 1986.

Stunning Males and Powerful Females Christina Sunardi,2015-02-15 In east Javanese dance traditions like Beskalan and Ngremo, musicians and dancers negotiate gender through performances where males embody femininity and females embody masculinity. Christina Sunardi ventures into the regency of Malang in east Java to study and perform with dancers. Through formal interviews and casual conversation, Sunardi learns about their lives and art. Her work shows how performers continually transform dance traditions to negotiate, and renegotiate, the boundaries of gender and sex--sometimes reinforcing lines of demarcation, sometimes transgressing them, and sometimes doing both simultaneously. But Sunardi's investigation moves beyond performance. It expands notions of the spiritual power associated with female bodies and feminine behavior, and the ways women, men, and waria (male-to-female transvestites) access the magnetic power of femaleness.

The Supernova Story Laurence A. Marschall,2013-11-11 Astronomers believe that a supernova is a massive explosion signaling the death of a star, causing a cosmic recycling of the chemical elements and leaving behind a pulsar, black hole, or nothing at all. In an engaging story of the life cycles of stars, Laurence Marschall tells how early astronomers identified supernovae, and how later scientists came to their current understanding, piecing together observations and historical accounts to form a theory, which was tested by intensive study of SN 1987A, the brightest supernova since 1006. He has revised and updated The Supernova Story to include all the latest developments concerning SN 1987A, which astronomers still watch for possible aftershocks, as well as SN 1993J, the spectacular new event in the cosmic laboratory.
