**Happy at Any Cost** Kirsten Grind, Katherine Sayre, 2023-03-14 From award-winning Wall Street Journal reporters, “a startling portrait of one of our greatest tech visionaries, Zappos CEO Tony Hsieh” (Robert Kolker, author of *Hidden Valley Road*), reporting on his short life, untimely death, and what that means for our pursuit of happiness. Tony Hsieh—CEO of Zappos, Las Vegas developer, and beloved entrepreneur—was famous for spreading happiness. He lived and breathed this philosophy, instilling an ethos of joy at his company, outlining his vision for a better workplace in his New York Times bestseller *Delivering Happiness*. He promoted a workplace where bosses treated employees like family members, where stress was replaced by playfulness, and where hierarchies were replaced with equality and collaboration. His outlook shaped how we work today. Hsieh also aspired to build his own utopian cities, pouring millions of dollars into real estate and small businesses, first in downtown Las Vegas, Nevada—where Zappos is headquartered—and then in Park City, Utah. He gave generously to his employees and close friends, including throwing notorious Zappos parties and organizing gatherings at his home, an Airstream trailer park. When Hsieh died suddenly in late 2022, the news shook the business and tech world. Wall Street Journal reporters Kirsten Grind and Katherine Sayre discovered Hsieh’s obsession with happiness masked his darker struggles with addiction, mental health, and loneliness. In the last year of his life, he spiraled out of control, cycling out of rehab and into the waiting arms of friends who enabled his worst behavior, even as he bankrolled them from his billion-dollar fortune. *Happy at Any Cost* sheds light on one of our most creative, yet vulnerable, business leaders. It’s about our intense need to find “happiness” at all costs, our misguided worship of entrepreneurs, the stigmas still surrounding mental health, and how the trappings of fame can mask all types of deeper problems. In turn, it reveals how we conceptualize success—and define happiness—in our modern age.

For those eager to do more than watch, Joseph Michelli deconstructs the Zappos story and makes it attainable." —Seth Godin, author of *Poke the Box About the Book: ZAPPOS*. The name has come to stand for a new standard of customer service, an amazing online shopping experience, a great place to work, and the most impressive transformational business success story of our time. Simply put, Zappos is revolutionizing business and changing lives. Now, Joseph Michelli, author of the internationally bestselling business books *Prescription for Excellence* and *The Starbucks Experience*, explains how Zappos does it—and how you can do it in your industry. The Zappos Experience takes you through—and beyond—the playful, offbeat company culture Zappos has become famous for. Michelli reveals what occurs behind the scenes at Zappos, showing how employees at all levels operate on a day-today basis while providing the "big picture" leadership methods that have earned the company \$1 billion in annual gross sales during the last ten years—with almost no advertising. Michelli breaks the approach down into five key elements: Serve a Perfect Fit—create bedrock company values Make it Effortlessly Swift—deliver a customer experience with ease Step into the Personal—connect with customers authentically S T R E T C H—grow people and products Play to Win—play hard, work harder When you enhance the customer experience, increase employee engagement, and create an energetic culture, you can't help but succeed. Zappos has woven these five key components into a seamless strategy that's the envy of business leaders. Now that strategy is yours. **How Zappos Shoes In Success** New Word City,2010-02-01 Online retailer Zappos has put having fun at the heart of its public image and corporate culture. That, along with a smart, ever-evolving business plan anchored in superlative customer service, has made it one of the rarest of business phenomena--an enterprise that thrives by breaking nearly every rule of retailing, online and off. Here's how they did it--and you can, too. Whenever he meets someone, Tony Hsieh asks whether the person has ever shopped at Zappos.com, the online shoe store he heads. One day, Hsieh's question triggered a harangue. The man's wife had spent \$60,000 in one year on Zappos. "I should pay you to remove [her] name from your database," he said. Hsieh was inspired. Soon afterward, he announced that his shoe store would offer a "Cease and Desist" service. For the modest sum of \$50,000, Zappos would agree to permanently disable the account of a wife, husband, or significant other. No one has accepted that tongue-in-cheek offer. But the whole caper was of a piece with a company that has put having fun at the heart of its public image and corporate culture. That, along with a smart, ever-evolving business plan anchored in superlative customer service, has made Zappos one of the rarest of business phenomena--an enterprise that thrives by breaking nearly every rule of retailing, online and off. New Word City, publishers of digital originals, contributes 10 percent of its profits to literacy causes.

Tony Hsieh--CEO of Zappos, Las Vegas developer, and all-around beloved entrepreneur--was famous for spreading happiness. He lived and breathed this philosophy, instilling an ethos of joy at his company and outlining his vision for a better workplace in his New York Times bestseller Delivering Happiness. He promoted a workplace where bosses treated employees like family members, where stress was replaced by playfulness, and where hierarchies were replaced with equality and collaboration. His outlook shaped Silicon Valley and the larger business world. Hsieh used his position at work to integrate levity into a normally competitive environment. He aspired to build his own utopian cities, pouring millions of dollars into real estate and small businesses, first in downtown Las Vegas, Nevada--where Zappos was headquartered--and then in Park City, Utah. He gave generously to his employees and close friends, including throwing infamous Zappos parties and organizing gatherings at his home, an Airstream trailer park. When Hsieh died suddenly in November of 2020, the news shook the business and tech world. Wall Street Journal

reporters Kirsten Grind and Katherine Sayre quickly realized the importance of the story because of Hsieh's stature in the industry, but as they dug into the details of his final months, they realized there was a bigger story to tell. They found that Hsieh's obsession with happiness masked his darker struggles with addiction, mental health, and loneliness. In the last year of his life, he spiraled out of control, cycling out of rehab and into the waiting arms of friends who enabled his worst behavior, even as he bankrolled them from his billion-dollar fortune. *Happy at Any Cost* sheds light on one of the most venerated, yet vulnerable, business leaders of our time. Summary of The Employees of Zappos.Com, Tony Hsieh & Mark Dagostino's The Power of WOW

Everest Media,2022-06-21T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The Zappos team is known for its customer service, and it is my job as a Customer Loyalty Team lead to make sure that continues. I do spot checks of our customer service call logs to make sure that people who call in with a question or concern are being taken care of as they should be. #2 The call center agent was empathetic and friendly with Susan, but she didn't offer much of an apology for the inconvenience and worry she had caused her. The shoes were meant to be a tribute to the boyfriend's death, and it was clear that they were more than just shoes to the family. #3 I called Susan and made sure her daughter received the new shoes in time for her chemo treatment. I also sent her a \$100 gift certificate so she could buy something nice after all of this was over. #4 I was shocked at how much the woman, who was preparing for her husband's funeral the next day, enjoyed talking to me. I learned that people all over the world like to talk, and they especially like to be listened to.

FORTUNE The Greatest Business Decisions of All Time Editors of Fortune Magazine,2012-10-02 Decisions equal success--nothing happens until one is made. Businesses make millions of decisions every day. But once in a great while a leader makes a truly game-changing decision that shifts not only the strategy of a single company but how everyone does business. These big decisions are counterintuitive-they go against the conventional wisdom. In hindsight, taking a different direction may seem easy, but these bet-the-company moves involve drama, doubt, and high tension. What made Apple's board bring back Steve Jobs to the company? How did Johnson & Johnson decide to recall every bottle of Tylenol after a poisoning scare that involved only a small batch of the drug? What made Henry Ford decide to double the wages of his autoworkers, and how did that change the American economy for the next century? Here management consultant Verne Harnish, the CEO of Gazelles, and Fortune's editors provide the background stories behind the greatest business decisions of all time. In this fully original book, you'll get a glimpse into the thought processes leading up to these groundbreaking moments and will learn how the decisions have shaped the thinking of today's top leaders. The book also contains an insightful foreword by management guru Jim Collins, the author of *Built To Last* and *Good To Great*, which explains the importance of decision making in creating a successful company.
