Journalism as Activism Adrienne Russell, 2017-05-23 In the mediated digital era, communication is changing fast and eating up ever greater shares of real-world power. Corporate battles and guerrilla wars are fought on Twitter. Facebook is the new Berlin, home to tinkers, tailors, spies – and terrorist recruiters. We recognize the power shift instinctively but, in our attempts to understand it, we keep using conceptual and theoretical models that are not changing fast, that are barely changing at all, that are laid over from the past. Journalism remains one of the main sites of communication power, an expanded space where citizens, protesters, PR professionals, tech developers and hackers can directly shape the news. Adrienne Russell reports on media power from one of the most vibrant corners of the journalism field, the corner where journalists and activists from countries around the world cross digital streams and end up updating media practices and strategies. Russell demonstrates the way the relationship between digital journalism and digital activism has shaped coverage of the online civil liberties movement, the Occupy movement, and the climate change movement. Journalism as Activism explores the ways everyday meaning and the material realities of media power are tied to the communication tools and platforms we have access to, the architectures of digital space we navigate, and our ability to master and modify our media environments.

They are organized in the following topical sections: communities, ICT-enabled networks, and development; digital platforms for development; ICT for displaced population and refugees. How it helps? Ducks, Newburyport Lucy Ellmann, 2019-08-20 WINNER OF THE 2019 GOLDSMITHS PRIZE • SHORTLISTED FOR THE 2019 BOOKER PRIZE • A NEW YORKER BEST BOOK OF 2019 • A NEW YORK TIMES NOTABLE BOOK OF 2019 • A TIME MUST-READ BOOK OF 2019 This book has its face pressed up against the pane of the present; its form mimics the way our minds move now toggling between tabs, between the needs of small children and aging parents, between news of ecological collapse and school shootings while somehow remembering to pay taxes and fold the laundry.—Parul Sehgal, New York Times Baking a multitude of tarts tarts for local restaurants, an Ohio housewife contemplates her four kids, husband, cats and chickens. Also, America's ignoble past, and her own regrets. She is surrounded by dead lakes, fake facts, Open Carry maniacs, and oodles of online advice about survivalism, veil toss duties, and how to be more like Jane Fonda. But what do you do when you keep stepping on your son's toy tractors, your life depends on stolen land and broken treaties, and nobody helps you when you get a flat tire on the interstate, not even the Abominable Snowman? When are you allowed to start swearing? With a torrent of consciousness and an intoxicating coziness, *Ducks, Newburyport* lays out a whole world for you to tramp around in, by turns frightening and funny. A heart-rending indictment of America's barbarity, and a lament for the way we are blundering into environmental disaster, this book is both heresy—and a revolution in the novel.

This book, from one of the leading counter-terror centres, draws on first-hand interviews with former American Islamic State members and law enforcement officials who tracked them, and includes detailed analysis of the court cases against them and their social media presence. *Homegrown* reveals how and why ISIS was able to radicalize and recruit a new generation of jihadist sympathizers in America.

Negotiating Civil-Military Space Marcia Byrom Hartwell, 2016-05-05 This book begins discussion at a point where many civil-military conversations end. Hartwell identifies underlying dynamics, key issues, and challenges that civilian and military organizations encounter when negotiating their roles in real and virtual volatile environments. These include managing expectations, understanding organizational missions and cultures, building trust, and exploring different approaches to violence. The impact of applied technologies on decision making processes and interventions is discussed in terms of recent and future complex crises. Linking earlier history to current discussions, this study makes an important contribution by reframing issues and outlining strategies to avoid unintended consequences and more effectively protect civilians in future operations. While geographic focus is on the Middle East, Africa, Central Asia, and Asia-Pacific, the core issues are applicable to negotiating civil-military relationships in a wide range of environments.

Beyond the Protest Square Tetyana Lokot, 2021-03-16 This book examines how citizens use digital social media to engage in public discontent and offers a critical examination of the hybrid reality of protest where bodies, spaces and technologies resonate. It argues that the augmented reality of protest goes beyond the bodies, the tents, and the cobblestones in the protest square, incorporating live streams, different time zones, encrypted conversations, and simultaneous translation of protest updates into different languages. Based on more than 60 interviews with protest participants and ethnographic analysis of online content in Ukraine and Russia, it examines how citizens in countries with limited media freedom and corrupt authorities perceive the affordances of digital media for protest and how these enable or limit protest action. The book provides a nuanced contribution to debates about the role of digital media in contentious politics and protest events, both in Eastern Europe and beyond.

Media, Mobilization and the Umbrella Movement Francis L. F. Lee,2018-05-16 The Umbrella Movement in Hong Kong caught the world's attention and imagination at the end of 2014. The 79-day occupation campaign took on some of the characteristics of the recent wave of large-scale protest movements around the world, including the prominent roles played by the media – both conventional and digital – in the mobilization and communication processes of the movement. This edited volume, *Media, Mobilization and the Umbrella Movement*, brings together nine contributions which examine various aspects of the media-movement nexus, including the power of televised images to mobilize people, the role of social media in the insurgent public sphere, young activists' social media strategies, media influence on citizens' understanding of civil disobedience, the government's response to digital media tactics, public discourses about the rule of law, and local and foreign media coverage of the movement. We believe that this high-quality collection can not only enhance our understanding of the Umbrella Movement, but also facilitate and trigger more research and dialogue comparing the Umbrella Movement with other similar protest movements around the world. This book was originally published as a special issue of the Chinese Journal of Communication.

The January 6th Report The January 6 Select Committee,2023-01-06 NEW YORK TIMES BESTSELLER • The official report by the Select Committee to Investigate the January 6th Attack on the United States Capitol, featuring an exclusive foreword on the state of American democracy by Congressman Adam Schiff On January 6, 2021, the United States came perilously close to losing its democracy. A mob instigated by the president of the United States violently attacked the Capitol Building in Washington, D.C., seeking to disrupt the certification of the electors in the presidential election and prevent the peaceful transfer of power for the first time in American history. The attack was the culmination of a plot organized and driven by a defeated president, attempting to remain in power through a complex web of deceit, intimidation, and violence. This is the official report of the investigation into the attack—perhaps the most vital congressional investigation in American history—with exhibits, witness testimony, and an exclusive foreword by Congressman Adam Schiff, who offers critical insights into this harrowing chapter in American history.
