*Zillow Talk* Spencer Rascoff, Stan Humphries, 2015-01-27 How do you spot an area poised for gentrification? Is spring or winter the best time to put your house on the market? Will a house on Swamp Road sell for less than one on Gingerbread Lane? The fact is that the rules of real estate have changed drastically over the past five years. To understand real estate in our fast-paced, technology-driven world, we need to toss out all of the outdated truisms and embrace today's brand new information. But how? Enter Zillow, the nation's #1 real estate website and mobile app. Thanks to its treasure trove of proprietary data and army of statisticians and data scientists, led by chief economist Stan Humphries, Zillow has been able to spot the trends and truths of today's housing market while acknowledging that a home is more than an economic asset. In *Zillow Talk*, Humphries and CEO Spencer Rascoff explain the science behind where and how we live now and reveal practical, data-driven insights about buying, selling, renting and financing real estate. Read this book to find out why: It's better to remodel your bathroom than your kitchen Putting the word cute in your listing could cost you thousands of dollars You shouldn't buy the worst house in the best neighborhood You should never list your house for \$444,000 You shouldn't list your house for sale before March Madness or after the Masters Densely packed with entertaining anecdotes and invaluable how-to advice, *Zillow Talk* is poised to be the real estate almanac for the next generation.

**Summary of Spencer Rascoff & Stan Humphries's Zillow Talk** Everest Media, 2022-05-16T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 People still believe that buying a house is the best way to grow your money, even though the housing market has bottomed out and foreclosures are still on the rise. #2 According to data compiled by the World Bank, the US stock market is worth more than \$18.7 trillion. The housing market is even bigger, with estimates suggesting that the value of America's housing stock is more than \$25. #3 The returns on real estate are better than stocks. The risks are lower, and the benefits are more significant. #4 The idea that young professionals should rent while happy families in the 'burbs should own is rooted in popular culture and the expectations of our family and friends. But our thinking about homeownership is mostly based on sentiment.
