Emergency Planning on the Internet Rick Tobin,Ryan Tobin,1997-10 This user-friendly book includes listings for more than 300 websites. It helps users focus their emergency planning efforts and find the critical information they need on the Internet and explains how to use these resources to stay prepared and informed in a world increasingly vulnerable to the effects of disaster. Special features include a tour of Internet sites for emergency management, a discussion of practical applications for the Internet, and a guide for deciding when to use an emergency web site to deal with a disaster.

e-Government and Web Directory Peggy Garvin,2009-09-21 Discover the breadth and depth of government information and services available online. The e-Government and Web Directory: U.S. Federal Government Online (formerly the United States Government Internet Manual) serves as a guide to the changing landscape of government information online. The Directory is an indispensable

guidebook for anyone who is looking for official U.S. government resources on the Web. The U.S. government's information online is massive and can be difficult to locate. The subject-based approach of this book allows you to browse for relevant sites in your field of interest rather than sift through hundreds of search results or try to guess which federal agency to consult. Researchers, business people, teachers, students, and citizens in the United States and around the world can navigate the labyrinthine federal Web with this book, e-Government and Web Directory.

This is likewise one of the factors by obtaining the soft documents of this **Zip Code Finder** by online.
