**Proceedings of the International Conference on Art Design and Digital Technology, ADDT 2022, 16-18 September 2022, Nanjing, China** Afizan Bin Azman, Norfadilah Kamarudin, Yi Ji, 2022-12-02 The 2022 International Conference on Art Design and Digital Technology (ADDT 2022) was successfully held on September 16-18, 2022 in Nanjing, China (virtual conference). ADDT 2022 created a forum for idea sharing and research exchange, opened up new perspectives in related fields and broadened the horizons of all participants. In the conference, 150 individuals around the world took part in the conference. Divided into three parts, the conference agenda covered keynote speeches, oral presentations and online Q&A discussion. Firstly, the keynote speakers were each allocated 30-45 minutes to address their speeches. Then in the oral presentations, the excellent papers we had selected were presented by their authors one by one. We are glad to share with you that we've selected a bunch of high-quality papers from the submissions and compiled them into the proceedings after rigorously reviewing them. These papers feature but are not limited to the following topics: Computer Art, Visual Design, Digital Media, Innovative Technology, etc. All the papers have been checked through rigorous review and processes to meet the requirements of publication. We would like to acknowledge all of those who supported ADDT 2022 and made it a great success. In particular, we would like to thank the European Alliance for Innovation (EAI), for the hard work of all its colleagues in publishing this paper volume. We sincerely hope that the ADDT 2022 turned out to be a forum for excellent discussions that enable new ideas to come about, promoting collaborative research.

*The Jewel of Annual Astrology* Martin Gansten, Balabhadra Daivajña, 2020-08-03 The Jewel of Annual Astrology is an encyclopaedic treatise on Tājika or Sanskritized Perso-Arabic astrology, dealing particularly with the casting and interpretation of anniversary horoscopes. Authored in 1649 CE by Balabhadra Daivajña, court astrologer to Shāh Shujā' – governor of Bengal and second son of the Mughal emperor Shāh Jahān – it casts light on the historical development of the Tājika school by extensive quotations from earlier works spanning five centuries. With this first-ever scholarly edition and translation of a Tājika text, Martin Gansten makes a significant contribution not only to the study of an important but little known knowledge tradition, but also to the intellectual historiography of Asia and the transmission of horoscopic astrology in the medieval and early modern periods.

Talismans, Amulets and Zodiacal Gems William thomas, Kate Pavitt, 2014-12-21 The subject of Talismans and Gems of the Zodiac covers a wide area, and the difficulty of arriving at a definite conclusion is increase became of the varying opinions between writers on these subjects as to the stones referred to, or intended by the Ancients, complicated still further by the different languages from which these records have been translated, and where Month or Zodiacal gems are referred to many of the writers arc obviously unacquainted with Astrology or Astronomy. The present volume, being the result of many years of study and research, it is not easy in all cases to specify the original source of our information, which has been collected, not only from ancient and modern writings, but also from personal experience and experiments, noted at the time they occurred, long before this book was contemplated

**"Those Who Call Themselves Jews"** Philip L. Mayo, 2006-08-01 The nature of Jewish-Christian relations at the end of the first century has been a subject of serious study and considerable debate. The time between 70 and 150 CE is held to be a volatile time in that Jewish-Christian relations were quickly, although not uniformly, deteriorating. This is a time referred to as the partings of the ways, when the church was emerging as a religion apart from Judaism. Although it has often been neglected in this study, of particular interest is the Apocalypse of John, since it was written in this dark and turbulent time in Jewish-Christian relations. John, who is a Jewish Christian, is writing to what are likely predominantly Gentile churches. At first, he appears to deny the very name Jew to his ethnic kin while accusing them of belonging to Satan (2:9; 3:9). Nevertheless, he does not abandon his own Jewish background and theology. He makes broad use of the Hebrew Scriptures and Jewish cultic imagery while maintaining a Christian understanding that Jesus is the fulfillment of God's redemptive plan. What is

of particular interest is how he adopts and adapts this imagery and language and applies it to the church. It is John's mix of Jewish imagery with a Christian message that may provide some insight into his perspective on the relationship between these two increasingly polarized sects. What exactly this perspective is constitutes the subject of the present discussion.

**The Chintamani Crystal Matrix** Johndennis Govert, Hapi Hara, 2021-11-23 • Examines myths of the chintamani from East and West, including from China, India, and South America; in legends of the Holy Grail and Atlantis; and in Nicholas Roerich's real-life quest for Shambhala • Explains the chintamani matrix--the multidimensional field of light, energy, and consciousness that forms networks of gems on the etheric and physical levels • Provides simple and advanced practices with crystal grids and meditation to help you access the chintamani matrix and realize your innermost heart's desires Space, time, intention, matter, and consciousness all entangle in crystals. Nowhere is this more evident than in the ancient gem archetype of the chintamani, the wish-fulfilling jewel known in legends around the world as the stone that grants your heart's desires. As authors Johndennis Govert and Hapi Hara reveal, the chintamani's "tachyolithic" technology of wish-granting and spiritual enlightenment creates a vehicle for positive transformation. They show how the chintamani energy matrix can be accessed using tangible crystals and gemstones, meditation, yoga, and the powerful science of intention. Exploring the many chintamani myths and legends from East and West, the authors explain how there are three types of chintamani: the mythical gemstone; the power crystals of history, such as the Koh-i-Noor diamond; and the multidimensional field of light, energy, and consciousness that forms a network of all gems in what is known as "the jewel net of Indra" in Hinduism and Buddhism. Activating this crystal energy matrix provides a way to manifest your intentions and help you create the subtle diamond body. The authors detail specific gems and crystal spiritual technology that can affect material reality and trigger profound spiritual growth. They provide a number of simple practices with crystal grids and meditation to help you access the chintamani matrix and become aware of the interconnected jewel net of consciousness. They examine the science of intention, which provides a basis for connecting to gemstones and crystals, and share advanced meditations to realize and activate your innermost heart's desires.
