For mature teens and young adults. Quotes The zombie apocalypse has swept in like a violent storm, and every day is a fight to survive. Yes, it's scary, and we have no guarantees that we'll live to see the next sunrise. But there's nothing we can do to stop it. We just have to let it run its course and pray that the zombies rot out soon. I'm not Rambo, Supergirl, or Xena, but I can't let worry consume me either. Just because I'm not made out of titanium, that doesn't mean I won't make it to the finish line. I've gotta stay brave and keep fighting as hard as I can and never,

ever give up hope. – Val Bennett – zombie fighter & survivor I have to keep my footing, catch my breath, and keep walking the twisting path ahead. There are many huge hurdles to face. I don't know what life holds for me, but I will survive as long as I can, and I won't go down without a fight. – Sammy Evans – survivor & zombie fighter Humans are a rare and endangered species. Swallowing down our fear, we must fight to protect humanity at all costs. Protecting the human race must be our number one priority. We need to fight for the future we want, not the one that's been delivered to us. Taking back our world is a fight I will never give up on. And in my opinion, that makes every zombie hunter a very special breed of warrior. – Dean Walters - survivor & zombie hunter

Book 8 – Impact (due out in spring) This is the longest book in The Zombie Chronicles so far. It is almost 80,000 words. My name is Dean Walters and I'm eighteen years old. We had saved Val, Jackie, and Claire with the precious vials in our possession, but they weren't 100 percent effective. Those who had taken the serum, the so-called miracle cure for zombie-itis, were easy enough to spot, since they

had glowing green eyes and were suddenly equipped with night vision that would have made the average bat jealous, but that was only one side effect. Much to our dismay, the other side effect wasn't quite so tolerable. Some cured people turned back into zombies but retained control of their reasoning, logical minds, virtually turning them into cannibals capable of thinking, calculating, stalking, and killing their victims. We'd decided to call them hybrids, and I feared that my sister, my girlfriend, and my potential future cousin-in-law were about to morph into just that. Is it only a matter of time? Does that happen to everyone who takes the serum, or are some immune to that side effect? Our only hope for answers was to go to the lab, and I hoped the answers we'd finally get would be honest—and good news.
