Astrology, Your Place in the Sun Evangeline Adams, 1927 This book does not undertake to teach astrology, but it does present authentic astrological information gathered by the author during her more than thirty years of devotion to the furtherance of the science of astrology and its application to the needs of humanity. Part I of the book is largely based on solar biology, which concerns itself only with the influence of the sun and does not take into consideration the attributes contributed by the planets. Part II presents more scientific material, while Part III includes a table to ascertain the sign that was rising when one was born.

PISCES and the Chinese Zodiac Peter Delbridge, 2016-04-06 If you are a PISCES, find out how the Chinese Zodiac affects your PISCES personality. Build your own profile using both the Western Star Signs and combining those traits with the characteristics you inherit from your Chinese Animal. Since the beginning of time man has always looked to the heavens for an answer as to who and what we are. In the west we use the Zodiac star signs, with our ancestors believing that depending on the time of the year we were born certain traits will be installed into us that will mould our personalities. The Chinese also have a complicated Zodiac, but rather than the time of year you inherit your traits depending on the actual year you were born, and the influence of the ruling Animal at the time. This has a great bearing on the building of ones personality. In this book, you can discover what both Zodiacs have to say, and build your own personality profile. Also find out what effect your ruling plant has and mix it with your birthstones influence and refine your predicted personality. Once all the information is gathered, combine it all together, and discover if your are what both the Zodiacs predicted. You can also see what are some famous events that occurred in your Birth Time and Famous people that share your profile.

Pisces Joanna Martine Woolfolk, 2011-11-16 Your Sun sign (often referred to simply as your sign) is the zodiac sign the Sun was traveling through at the time of your birth. Your Sun sign is the most important and pervasive

influence in your horoscope and in many ways determines how others see you. It governs your individuality, your distinctive style, and your drive to fulfill your goals. It symbolizes the role you are given to play in this life. It's as if at the moment of your birth you were pushed onstage into a drama called This Is My Life. In this drama, you are the starring actor—and your sign is the character you play. This elegant little volume is packed with what your Sun sign tells you about you. You'll read about your many positive qualities as well as your negative issues and inclinations. You'll find insights into your power, potentials, and pitfalls; advice about relationships, love, and sex; clarification on erogenous zones and how you combine romantically with other signs; guidance regarding career, health, and diet; and information about myriads of objects, places, concepts, and things to which you're attached. You'll also find topics not usually included in other astrology books—such as how you fit in with Chinese astrology and with numerology.

Everything Changes: What's Your Real Sign? Trudy Pellegrino, 2019-06-30 Everything changes. Nothing remains the same. We live in an ever-evolving universe. If we apply this reality to tropical zodiac, the popular system of astrology, it is impossible that Aries aligns to the first day of spring every year. It is merely a poetic adjustment. Sidereal time zodiac is the astrology that moves with the skies and uses accurate astrological data. Astrologer Trudy Pellegrino explores both systems so you can find out the truth about astrology and your real sign.
