Invisible Policing Bethan Loftus, Benjamin Goold, Shane Mac Giollaí, 2018-03-15 What is covert policing? How do covert surveillance officers use their time? What are their perceptions of the work, its status, rewards and challenges? How are operations planned, authorised, carried out and reviewed? How do officers understand and negotiate the dilemmas involved in carrying out the peculiar demands of their job? Does the existing authorisation regime strike an appropriate balance between the need for police accountability and the protection of civil liberties on the one hand, and operational efficiency and the demands of security on the other? This book provides answers to these questions and more, and presents the first truly ethnographic account of the inner-world of covert policing. This book sheds new light on a largely hidden and poorly understood form of investigation and offers a major contribution to research on police culture and police practice.

Ethical Issues in Covert, Security and Surveillance Research Ron Iphofen, Dónal O'Mathúna, 2021-12-09 The ebook edition of this title is Open Access and freely available to read online. Ethical Issues in Covert, Security and Surveillance Research showcases that it is only when the integrity of research is carefully pursued can users of the evidence produced be assured of its value and its ethical credentials.

Legal Guidelines for Covert Surveillance Operations in the Private Sector John Dale Hartman, 1993 You can often use public sector laws as a guide to legal surveillance operations, but there is not necessarily a direct correlation between the laws of the public sector and the private sector. Laws that apply to the way private agents conduct surveillance operations are scattered in statutes dictated by various state legislatures and court decisions. Written by an agent, not an attorney, this book informs other agents of the legal ramifications to consider operations. The only reference available to the practitioner that covers both public

and private surveillance laws and how they relate, it sets down guidelines in an easy-to-understand format.

Hollywood's Spies Laura B Rosenzweig, 2018-01-23 The remarkable story of the Jewish moguls in Hollywood who established the first anti-Nazi Jewish resistance organization in the country in the 1930s. Finalist, Celebrate 350 Award in American Jewish Studies The 1939 film *Confessions of a Nazi Spy* may have been the first cinematic shot fired by Hollywood against Nazis in America, but it by no means marked the political awakening of the film industry's Jewish executives to the problem. *Hollywood's Spies* tells the remarkable story of the Jewish moguls in Hollywood who paid private investigators to infiltrate Nazi groups operating in Los Angeles, establishing the first anti-Nazi Jewish resistance organization in the country—the Los Angeles Jewish Community Committee (LAJCC). Drawing on more than 15,000 pages of archival documents, Laura B. Rosenzweig offers a compelling narrative illuminating the role that Jewish Americans played in combating insurgent Nazism in the United States in the 1930s. Forced undercover by the anti-Semitic climate of the decade, the LAJCC partnered with organizations whose Americanism was unimpeachable, such as the American Legion, to channel information regarding seditious Nazi plots to Congress, the Justice Department, the FBI and the Los Angeles Police Department. *Hollywood's Spies* corrects the decades-long belief that American Jews lacked the political organization and leadership to assert their political interests during this period in our history and reveals that the LAJCC was one of many covert “fact finding” operations funded by Jewish Americans designed to root out Nazism in the United States. “A remarkable tale.” —The Wall Street Journal “Expose[s] a buried story about underground plots waged by Nazis against major Hollywood figures.” —Los Angeles Review of Books

Covert Investigation Clive Harfield, Karen Harfield, 2012-06-14 The third edition of *Covert Investigation* continues to provide a practical, straightforward guide for anyone working in the area of covert investigation. This edition is updated to include significant amendments to the Regulation of Investigatory Powers Act 2000 brought about by the Police and Crime Act 2009, as well as revisions to the Codes of Practice. Also included are discussions reflecting the considerations of Parliamentary and Home Office reviews of surveillance practice and law: reviews undertaken in response to practitioner concerns about the RIPA authority regime and wider public concerns about an emerging surveillance society. The book contains all the relevant legislation, codes of practice and case-law relating to covert investigation methods and examines the issues that investigators need to consider when deploying such investigative tools, concentrating on the full implications of RIPA with regards to daily, routine policing activity. The authors consider each different aspect of covert investigation in turn, discussing statutory provision and introducing case law alongside investigation management issues. It successfully demystifies an area of investigation and enforcement that has hitherto been poorly understood. It is intended to assist those planning and supervising investigations and those with a statutory obligation to sanction applications for authorised covert investigation or withhold such authority. It will help officers improve the quality of RIPA applications and ensure that applications for cover investigation are made only in appropriate circumstances. In particular, the third edition looks at incontrovertible

evidence, the strict statutory and procedural frameworks governing collection of such evidence, and how to minimize the risk of unwitting abuse of these powers and procedures which can lead to technical acquittals and procedural challenges at court. The book forms part of the Blackstone's Practical Policing Series. The series, aimed at junior to middle ranking officers, consists of practical guides containing clear and detailed explanations of the relevant legislation and practice, accompanied by case studies, illustrative diagrams and useful checklists.

Covert Surveillance and Property Interference Great Britain: Home Office,2014-12-23 This code of practice provides guidance and rules on authorisations for the carrying out of surveillance (directed surveillance and intrusive surveillance) under Part 2 of the Regulation of Investigatory Powers Act 2000 and for interference with property or with wireless telegraphy under Part 3 of the Police Act 1997. It sets out the various authorisation procedures to be followed for the grant, review, renewal and cancellation of authorisations, as well as special rules for authorisations in respect of confidential and legally privileged information.

New York Undercover Jennifer Fronc,2009-12-15 To combat behavior they viewed as sexually promiscuous, politically undesirable, or downright criminal, social activists in Progressive-era New York employed private investigators to uncover the roots of society's problems. New York Undercover follows these investigators—often journalists or social workers with no training in surveillance—on their information-gathering visits to gambling parlors, brothels, and meetings of criminal gangs and radical political organizations. Drawing on the hundreds of detailed reports that resulted from these missions, Jennifer Fronc reconstructs the process by which organizations like the National Civic Federation and the Committee of Fourteen generated the knowledge they needed to change urban conditions. This information, Fronc demonstrates, eventually empowered government regulators in the Progressive era and beyond, strengthening a federal state that grew increasingly repressive in the interest of pursuing a national security agenda. Revealing the central role of undercover investigation in both social change and the constitution of political authority, New York Undercover narrates previously untold chapters in the history of vice and the emergence of the modern surveillance state.

CCTV Inga Kroener,2016-04-08 Central state and non-covert surveillance began in earnest at the start of the twentieth century. By the start of the twenty-first century, the UK was one of the most surveilled societies on earth. This groundbreaking volume by Inga Kroener analyses the particular combination of factors that have created this surveillance state. Kroener argues against the inevitability of the rise of CCTV that is so often found in this literature, to map out the early history of CCTV, tracing its development from a tool for education, safety and transport during the 1950s, to one of politics in the 1970s and 1980s, to eventually become a tool of surveillance during the 1990s. Within this analysis, the complex role of the public in 'allowing' the widespread and rapid dissemination of CCTV is discussed and the representation of CCTV in the media is also studied. This volume will be of interest to all scholars working in the fields of surveillance studies; science, technology and society departments; and social historians more generally.

Untrammelled Vision Vincent Green,2020-04-03 The information provided in this publication has been compiled from the combined experience of more than 40 years of the author in conducting physical and electronic surveillance operations. That being said, it should be understood that this publication merely touches on the basics of surveillance. Please keep in mind that as technology changes and the connections between corrupt acts expand locally, nationally, and

globally, the way in which investigators conduct surveillances must adjust to fit the situation. Many corruption schemes have international connections. Planning such operations as undercover operations, interviews, interrogations and surveillance must be approached with a global mindset.

Undercover Gary T. Marx, 1988-06-29 Providing a rich picture of past and present undercover work, and drawing on unpublished documents and interviews with the FBI and local police, this penetrating study examines the variety of undercover operations and the ethical issues and empirical assumptions raised when the state officially sanctions deception and trickery and allows its agents to participate in crime.

Hidden Cameras Joe Plomin, 2016-02-21 The complete and authoritative guide to the use of hidden cameras to expose abuse or wrongdoing. Secret filming is no longer the preserve of specialists, professional journalists and private investigators. Drawing on the author's own experience producing undercover documentaries and wearing secret cameras, this book explains covert recording for the general public, including specific advice on the practicalities of using a phone or covert camera to record evidence. It considers the legal and ethical issues and provides vital information for anyone who may use or encounter secret filming, including the people or organisations that might be filmed, regulators, social workers, local government officials and anyone who may encounter it in court. It also looks to the future of covert filming and the implications of technological advances, such as drone cameras.

America's Covert War In East Africa Clara Usiskin, 2019-06-01 Clara Usiskin has spent eight years investigating the War on Terror and its effects in the East and Horn of Africa, documenting hundreds of cases of rendition, secret detention and targeted killings. As a result of her work exposing abuses carried out by regional governments and their international partners, Clara was deported from Kenya and Uganda and is currently persona non grata in both countries. Her book sets out the historical background to today's covert war, including the early Somali jihads and British repression in colonial Kenya, through to the 1998 US Embassy Bombings in Nairobi and Dar es Salaam, and President Clinton's early rendition programme. *America's Covert War in East Africa* then looks at the US Military's new Africa Command, with its emphasis on counterterrorism, alongside increasing use of targeted killings by security forces in the region, and continued renditions and secret detention. Finally, Usiskin investigates the shorter and longer term consequences of such intensive militarisation, and the proliferation of surveillance and other technologies of control in East Africa and its surrounding waters, focussing in particular on their impact on vulnerable ethnic and religious groups in a highly volatile region.

Hollywood's Spies Laura B. Rosenzweig, 2017 Finalist, Celebrate 350 Award in American Jewish Studies Tells the remarkable story of the Jewish moguls in Hollywood who established the first anti-Nazi Jewish resistance organization in the country in the 1930s. In April 1939, Warner Brothers studios released the first Hollywood film to confront the Nazi threat in the United States. *Confessions of a Nazi Spy*, starring Edward G. Robinson, told the story of German agents in New York City working to overthrow the U.S. government. The film alerted Americans to the dangers of Nazism at home and encouraged them to defend against it. *Confessions of a Nazi Spy* may have been the first cinematic shot fired by Hollywood against Nazis in America, but it by no means marked the political awakening of the film industry's Jewish executives to the problem. *Hollywood's Spies* tells the remarkable story of the Jewish moguls in Hollywood who paid private investigators to infiltrate Nazi groups operating in Los Angeles, establishing the first anti-Nazi Jewish resistance organization in the country--the Los Angeles Jewish Community Committee (LAJCC). Drawing on more than 15,000 pages of archival documents, Laura B. Rosenzweig offers a compelling

narrative illuminating the role that Jewish Americans played in combating insurgent Nazism in the United States in the 1930s. Forced undercover by the anti-Semitic climate of the decade, the LAJCC partnered with organizations whose Americanism was unimpeachable, such as the American Legion, to channel information regarding seditious Nazi plots to Congress, the Justice Department, the FBI and the Los Angeles Police Department. Hollywood's Spies corrects the decades-long belief that American Jews lacked the political organization and leadership to assert their political interests during this period in our history and reveals that the LAJCC was one of many covert fact finding operations funded by Jewish Americans designed to root out Nazism in the United States.
